Educational Specifications

The following procedures shall be followed for the development of educational specifications:

To ensure that educational facilities are designed to accommodate and complement the educational program, the Superintendent shall provide for the development of educational specifications. The educational specifications shall include at least:

- (1) Description of the students to be housed.
- (2) Description of the educational activities.
- (3) The functional and spatial relationships of educational activities.
- (4) Special site considerations of aesthetics, traffic patterns and cooperative community use.
- (5) Wherever possible, the Board shall appoint the principal of a new school upon the initiation planning.

STATUTORY AUTHORITY: 1001.42, 1001.43, F.S.

Adopted: 2/27/07
