BOARD ATTORNEY

District School Board of Lee County 2855 Colonial Boulevard Fort Myers. FL 33966

December 19, 2012

Dear Chairman, School Board Members, and Citizens of Lee County:

After the close of each fiscal year, State law requires that all local governments publish a complete set of financial statements presented in conformity with generally accepted accounting practices (GAAP) in the United States of America and audited by the Florida Auditor General, or a firm of licensed certified public accountants, in accordance with auditing standards generally accepted in the United States of America. Pursuant to this requirement, we hereby issue the Comprehensive Annual Financial Report (CAFR) of The School District of Lee County (the District) for the fiscal year ended June 30, 2012.

This report consists of management's representations concerning the finances of the District. Management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, District management has established a system of internal controls designed to protect the District's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh the benefits, the District's system of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The accounting firm, Mauldin & Jenkins, L.L.C. conducted the audit for the fiscal year ended June 30, 2012. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2012, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used

VISION: TO BE A WORLD-CLASS SCHOOL SYSTEM

and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded that there was a reasonable basis for rendering an unqualified opinion on the District's basic financial statements for the fiscal year ended June 30, 2012. The auditor's report is presented as the first component in the Financial Section of this report.

The independent audit of the District's financial statements included the federally mandated "single audit" designed to meet the special needs of federal grantor agencies. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996; and the United States Office of Management and Budget's Circular A-133, Audits of States, Local Government, and Non-profit Organizations. The standards governing single audit engagements require the independent auditor to report on the fair presentation of the financial statements and on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal Information related to this single audit, including the schedule of awards. expenditures of federal awards, findings and questioned costs, summary of prior audit findings, and the independent auditors' reports on the system of internal control and on compliance with applicable requirements, are included in the Federal Reports and Schedules section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This Letter of Transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Auditor's Report.

Profile of the Government

The District and its governing board were created pursuant to Section 4, Article IX, of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by District officials in accordance with Chapter 1001.42, Florida Statutes. The District School Board of Lee County (the Board) consists of five elected officials responsible for the adoption of policies that govern the operation of the District's public schools. The appointed Superintendent of Schools (the Superintendent) is the executive officer of the Board and is responsible for the administration and management of the schools within the applicable parameters of Florida Statutes, State Board of Education rules, and School Board policies. As prescribed by the State Board of Education, Florida Statutes 1010.01 designates specific responsibility to the Superintendent for maintaining a uniform system of records and accounts.

The geographic boundaries of the District are the same as those of Lee County, (the County), which was founded in 1887 and named in honor of General Robert

E. Lee. The County is located on the Gulf Coast of Florida, encompasses approximately 811 square miles, including several small islands in the Gulf of Mexico, and is bordered by Charlotte County to the north, Hendry County to the east, and Collier County to the south. Lee County's estimated population in 2012 is 631,330 people.

The report includes all funds of the District, The Lee County School Board Leasing Corporation, The Foundation for Lee County Public Schools (the Foundation), and nineteen charter schools, all of which comprise the reporting entity. The Lee County School Board Leasing Corporation was formed by the School Board to be the lessor in connection with financing the acquisition and/or construction of certain educational facilities. The Foundation is a separate, not-for-profit corporation organized and operated as a direct-support organization. The Foundation's purpose is exclusively educational and charitable for the constituents of Lee County. Charter schools are public schools operating under performance contracts with the Board. The Foundation and applicable charter schools are included as aggregate discretely presented component units.

The District provides a full range of educational programs. These include pre-kindergarten, kindergarten through 12th grade, basic and enrichment programs, and exceptional student education. The District also provides vocational and adult programs.

During the 2011-12 fiscal year, the District operated 96 schools and programs comprised of 48 elementary schools, 16 middle schools, 13 high schools, 19 specialized schools and programs, and reported 83,659 unweighted full-time equivalent students. The District plans to open one new elementary and one new middle school in the 2012-13 fiscal year. In addition, the District sponsored 19 charter schools that are component units of the District and does not plan to sponsor any additional charter schools during the 2012-13 fiscal year. The charter schools are separate not-for-profit corporations organized and operated under section 1002.33, Florida Statutes. The charter schools are funded by the state based on their weighted full-time equivalent student count and receive this funding through the District.

The District maintains budgetary controls, the objective of which is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board. Activities of all governmental fund types are included in the annual appropriated budget. Project-length financial plans are adopted for the Capital Projects Funds. The level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the function level.

Budgetary information is integrated into the accounting system and, to facilitate budgetary control, budget balances are encumbered when purchase orders are

issued. Appropriations lapse at year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

In order to provide budgetary control for salaries, the District utilizes a centralized position control system. On an annual basis, the Board adopts a District staffing plan that establishes teacher positions based generally on student populations served. Additionally, support and administrative positions are created based on established criteria.

Economic Condition and Outlook

Lee County is part of the Fort Myers–Cape Coral Metropolitan Statistical Area with an annual growth rate of less than 1 percent. The County's population has increased from 475,073 in 2002 to 631,300 in 2012 an increase of 32.9 percent. This compares to an 14.2 percent increase for Florida overall and a 8.1 percent increase for the nation.

Growth is projected to continue at a slower rate for the next five years, increasing the population in the County to over 770,000 by 2020, and to more than 1,300,000 in the Southwest Florida area in general. Once a retirement haven, Lee County is now dominated by working-age people. In fact, the 18-24 age group (those people just entering the workforce) is growing about twice as fast as that of the State and many times faster than that of the entire United States.

Lee County continues to struggle with economic stability. Many believe we are at the beginning of an economic rebound as home sales increase. Our student population also appears to have stabilized, signaling possible population growth. The District changed from an almost 1,000 student loss in 2009 to a growth of 1,500 students in 2010, an additional 300 students in 2011 and an additional 2,800 students in 2012. The mainstay of the County's economy is tourism and retirement, and their associated services, such as health, trade, and other service-oriented industries. The County also has real estate development, agribusiness, high-tech manufacturing, corporate and regional headquarters, warehousing and distribution, and financial services industries. Currently, over 90 percent of employment is concentrated in the services, wholesale and retail, and government sectors. Industries expected to gain the most new jobs in the near future include local government, health services, business services, food services, and special trade contractors.

The District recognizes that the continued enhancement of the local economy is of mutual benefit to both the District and the County, and that an excellent system of public education is a significant factor in attracting new business and industry to the County. The District is the area's second largest employer, employing 11,847 full and part-time employees, including 5,108 classroom teachers.

The District has experienced increases in student population for many years, except for fiscal year 2009, when the District realized a net decrease in student population. For fiscal year 2012 the District realized a net increase in student population. State and District projections indicate that approximately 2,300 more students will be served in the next fiscal year. This growth is projected to increase the student population up to 6 percent each year bringing the estimated student population to approximately 82,100, 81,300 and 106,900 over the next 5, 10 and 20 years, respectively.

Ranked in the top 9 in student population in the state and in the top 50 in the nation, the District is challenged not only by growth but also the 2002 State Constitutional Amendment legislating reductions in class size. These challenges require the construction of an additional 5 schools in the next 10 years. In order to meet this demand, the District will continue to seek additional revenue sources. In addition, with half of the school facilities more than 30 years old there was concern about the level of adequacy and equity. For these reasons, a major construction and renovations program was initiated. Concurrently, the District adopted a five year plan to bring schools up to the newly adopted District standard in technology equipment and student accessibility. The District has also adopted a 20 year maintenance and replacement program to ensure school facilities are properly preserved.

Major Initiatives

ARRA Economic Stimulus Funds

On February 13, 2009, Congress passed the American Recovery and Reinvestment Act of 2009 (ARRA) which was signed into law by President Obama on February 17, 2009. ARRA earmarks more than \$90 billion for states to use for education. The primary goal was to save jobs and stabilize local school district funding. The District spent \$.6 million of ARRA funds through June 30, 2009, an additional \$40.5 million during fiscal year 2010, an additional \$67.5 million during fiscal year 2011and an additional \$5.8 million during the fiscal year 2012. The infusion of ARRA funding has allowed the District to maintain instructional support in a time when there would otherwise have been significant budget reductions. Plans are underway to make sure the District does not experience a funding cliff when the stimulus funding rolls off at the end of this fiscal year.

Capital Outlay Program

During the current fiscal year, the District completed the construction of one new elementary school and one new middle school.

Over the next fiscal year, the District is planning to start major renovation of one elementary school and one high school. For the second fiscal year, the District is not planning to start any major construction.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting, and the Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2011. This was the ninth year the District has received these prestigious awards. In order to be awarded the GFOA's Certificate of Achievement for Excellence in Financial Reporting and ASBO's Certificate of Excellence in Financial Reporting, the District must publish an easily readable and efficiently organized CAFR. This report satisfied both generally accepted accounting principles (GAAP) and applicable legal requirements.

The Certificate of Achievement and Certificate of Excellence are valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement and Certificate of Excellence program requirements and we are submitting it to the GFOA and ASBO to determine its eligibility for another certificate.

The preparation and completion of this report on a timely basis was made possible by the dedicated service of the entire staff of the District's Financial Accounting Department and the audit staff of the accounting firm Mauldin & Jenkins, L.L.C. Each member of the Financial Accounting Department and the audit staff of Mauldin & Jenkins, L.L.C., have our sincere appreciation for the contributions made in the completion of this report.

In closing, we would like to thank the members of the Board for their leadership and support in planning and conducting the financial operations of the District.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Superintendent and Members of the School District of Lee County Fort Myers, Florida

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the School District of Lee County, Florida, as of and for the year ended June 30, 2012, which collectively comprise the School District of Lee County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District of Lee County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit any of the financial statements of the aggregate discretely presented component units. All of those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the aggregate discretely presented component units, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provides a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the School District of Lee County as of June 30, 2012, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison for the General Fund and the Federal Economic Stimulus Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2012, on our consideration of the School District of Lee County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Funding Progress—Other Postemployment Benefits and Schedule of Employer Contributions—Other Postemployment Benefits on pages 16 through 32 and 85 and 86 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District of Lee County's financial statements. The combining and individual nonmajor fund financial statements, and schedules are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of Federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. Such information is the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of Federal awards are fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District of Lee County, Florida's basic financial statements. The introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of The School District of Lee County's Comprehensive Annual Financial Report presents Management's discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2012. Please read it in conjunction with the District's Financial Statements, which immediately follow this section.

Financial Highlights

- District's assets exceeded its liabilities by \$1,186,867,752 at fiscal year ending June 30, 2012.
- Net position of the District decreased by \$54,385,976, in comparison to the 2010-11 fiscal year.
- The District's Government-wide revenues totaled \$763,115,124, comprised of general revenues of \$711,956,732 or 93.3 percent of the total revenues, program specific revenues from charges for services, operating grants and contributions, and capital grants and contributions, totaling \$51,158,392 or 6.7 percent of the total revenues.
- Expenses incurred by the District totaled \$817,501,100 for governmental related activities. Program specific revenues offset these expenses by \$51,158,392, and general revenues funded the difference.
- The District's governmental funds reported combined ending balances of \$334,350,220 or a decrease of \$93,320,407 or 21.8 percent in 2011-12 fiscal year in comparison with the prior fiscal year.
- The unassigned fund balance of the General Fund representing the net current financial resources available for general appropriation by the Board, totaled \$116,160,720, at June 30, 2012, or 18.9 percent of total General Fund expenditures.
- The General Fund total fund balance as of June 30, 2012, totaled \$143,510,901, a 13.3 percent decrease in comparison to the 2010-11 fiscal year total of \$165,586,422. The decrease in total fund balance of the General Fund is mainly attributed to the decrease in property tax revenues of \$34,432,214.

Overview of the Financial Statements

The Financial Section of this Comprehensive Annual Financial Report consists of three parts: Management's Discussion and Analysis, the Basic Financial Statements, and other supplementary section that presents combining statements for Nonmajor Governmental Funds, Internal Service Funds, and Component Units. The Basic Financial Statements include several statements that present different views of the District:

- The first two statements are *Government-wide Financial Statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *Fund Financial Statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the Government-wide statements.
- The *Governmental Funds Statements* tell how basic services, such as regular and special education, were financed in the *short-term* as well as what remains for future spending.
- The General Fund's Statement of Revenues, Expenditures and Changes in Fund Balance- Budget vs. Actual is presented for the primary operating fund of the District.
- The *Proprietary Funds Statements* offer *short-term* and *long-term* financial information about the activities the District operates as Internal Service Funds, for self-insurance.
- The *Fiduciary Funds Statement* provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others.

The Basic Financial Statements also include notes that explain information in the statements and provide more detailed data. The statements are followed by a section of other supplementary information that further explains and supports the Basic Financial Statements with combining and individual statements that provide details about our Nonmajor Governmental Funds. Combining statements for the District's discretely presented component units are also included. Also, the supplemental section includes Schedules of Budget vs. Actual for each Governmental Fund. Figure A-1 on the following page shows how the various parts of this report are arranged and related to one another.

This space intentionally left blank

Figure A-1

Organization of the District's Comprehensive Annual Financial Report

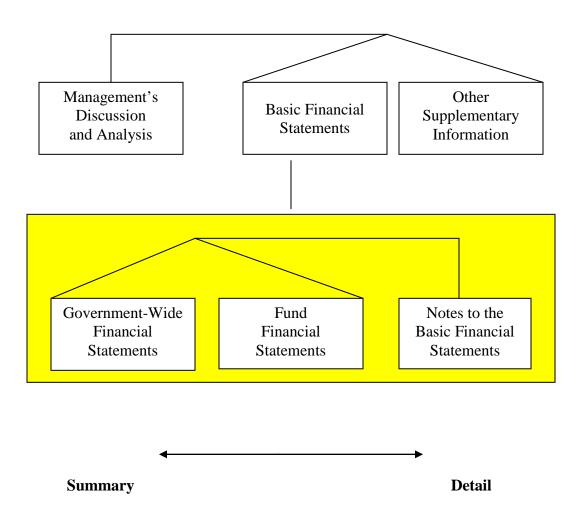

Figure A-2 summarizes the major features of the District's Basic Financial Statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of Management's Discussion and Analysis highlights the structure and contents of each of the statements.

Figure A-2

Major Features of the Government-wide and Fund Financial Statements

		Fund Financial Statements						
	Government-wide Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds				
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as delivery of student instruction and building maintenance.	Activities the District operates similar to private businesses.	Instances in which the District administers resources on behalf of someone else, such as scholarship programs and student activities monies.				
Required Financial Statements	Statement of Net Position Statement of Activities	Balance Sheet Statement of Revenues, Expenditures, and Changes in Fund Balances	Statement of Net Position Statement of Revenues, Expenditures, and Changes in Net Position Statement of Cash Flows	Statement of Fiduciary Assets and Liabilities				
Accounting basis and measurement focus	Accrual accounting and economic resources focus.	Modified accrual accounting and current financial focus.	Accrual accounting and economic resources focus.	Accrual accounting and economic resources focus.				
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term.	Generally assets expected to be used and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included.	All assets and liabilities, both financial and capital, short-term and long- term.	All assets and liabilities, both financial and capital, short-term and long-term; funds do not currently contain capital assets, although they can.				
Type of in- flow/out-flow information	All revenues and expenses during year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable.	All revenues and expenses during the year, regardless of when cash is received or paid.	All additions and deductions during the year, regardless of when cash is received or paid.				

Government-Wide Statements

The Government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's non-fiduciary assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid. The two Government-wide statements report the District's *net position* and *how they have changed*. Net position (the difference between the District's assets and liabilities) are one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, additional nonfinancial factors, such as changes in the District's property tax base and the condition of the school buildings and other facilities, must be considered.

In the Government-wide statements, the District's activities are divided into two categories:

Governmental Activities: Most of the District's basic services are included here, such as student instruction, transportation, maintenance and operations, and administration. Property taxes and State aid finance most of these activities. The Lee County School Board Leasing Corporation Inc., (Leasing Corporation) although legally separate, was formed December 17, 2003, to facilitate financing for the acquisition of facilities and equipment. Due to a substantive economic relationship between the District and the Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government. Separate financial statements for the Leasing Corporation are not published.

Component Units: The District includes 20 other entities in its report – The Foundation for Lee County Public Schools, Inc., Bonita Springs Preparatory and Fitness Academy, Inc., Bonita Springs Charter School, Cape Coral Charter School, Cape Preparatory and Fitness Academy, Inc., City of Palms Charter High School, Coronado High School, Fort Myers Preparatory and Fitness Academy, Inc., Gateway Charter School, Gateway Intermediate Charter School, Gateway Charter High School, Goodwill L.I.F.E. Academy, The Island School, Inc., Lee Charter Academy, Inc., Lee Alternative Charter High School, North Nicholas High School, Pivot Charter High School, Richard Milburn Academy of Florida, Inc., Richard Milburn Academy of Florida South, Inc., and Six Mile Charter Academy. Although legally separate, these "component units" are important because the District is financially accountable.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices used to track specific sources of funding and spending on particular programs.

- Some funds are required by State law and bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts), or to show that it is properly using certain revenues (such as Federal grants).

The District has three kinds of funds:

Governmental Funds

Most of the District's basic services, such as instruction and facilities services, are included in governmental funds. These funds generally focus on 1) how cash and other financial assets can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds statement provides a detailed, short-term view that assists the reader in determining whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, a reconciliation is provided for both the governmental fund balance sheet and the statement of revenues, expenditures, and changes in fund balance which explains the relationships and/or differences between the funds.

Proprietary Funds

Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the Government-wide statements. The District uses two *Internal Service Funds* (a type of proprietary fund), to report activities that provide self-insurance services for its other programs and activities.

Fiduciary Funds

The District is the trustee, or *fiduciary*, for assets that belong to others, such as the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for the intended purposes. The District excludes these activities from the Government-wide statements because it cannot use these funds to finance its operations.

Financial Analysis of the District (Primary Government) as a Whole

Net Position. The District's *combined* net position was smaller on June 30, 2012, than the previous fiscal year; decreasing \$54.4 million to \$1,186.9 million (see Figure A-3). By far, the largest portion of the District's net position, \$903.9 million (76.2 percent) reflects its net investment in capital assets (e.g., land, construction in progress, buildings, improvements, equipment, motor vehicles, software and audio visual materials). The District uses these capital assets to house and educate the students of Lee County, Florida; consequently, these assets are not available for future spending. Although the District's net investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position, \$197.5 million (16.6 percent), represents resources that are subject to external restrictions on how they may be used. The remaining net position, \$85.5 million (7.2 percent), is unrestricted assets. Unrestricted net position may be used to meet the government's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the District is able to report positive balances in all categories of net position. The same situation held true for the prior fiscal year.

Unrestricted	 110.9		85.5	(22.9)%
Total Net Position	\$ 1,241.3	\$	1,186.9	(4.4)%

The District's worsened financial position is the product of many factors, but the most significant decreases are due to:

- A decrease in property tax revenue; and
- A decrease in grant and contribution revenue.

Changes in Net Position. The District's total revenue decreased 8.1 percent to \$763.1 million (see Figure A-4). Property taxes and Grants and contributions, accounted for most of the District's revenue, contributing about 92 cents of every dollar raised (see Figure A-5). The remainder came from operating grants and contributions, capital grants and contributions, fees charged for services, investment earnings and other sources.

The total cost of all programs and services decreased 1.6 percent to \$817.5 million. Ninety percent of the District's expenses are related to student instruction, student services, facilities services, transportation, operation of plant and maintenance of schools (see Figure A-6). The District's administrative activities, including school administration, accounted for 10 percent of total costs. The \$14.2 million decrease in instructional costs was derived largely from salary decreases and benefits, in this case for teachers and other educational staff.

Total expenses surpassed revenues, decreasing net position \$54.4 million and contributing to the District's worsened financial condition.

Sources of Revenues for Fiscal Year 2012

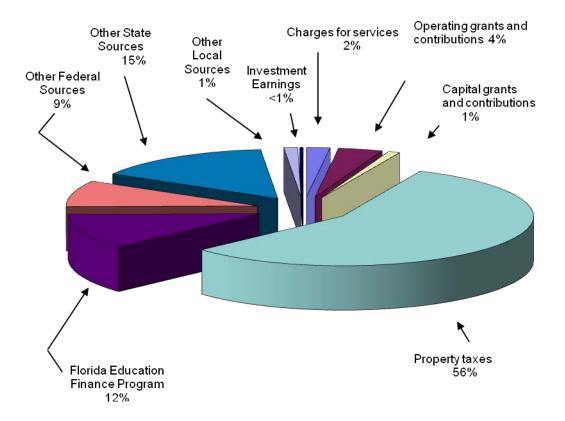

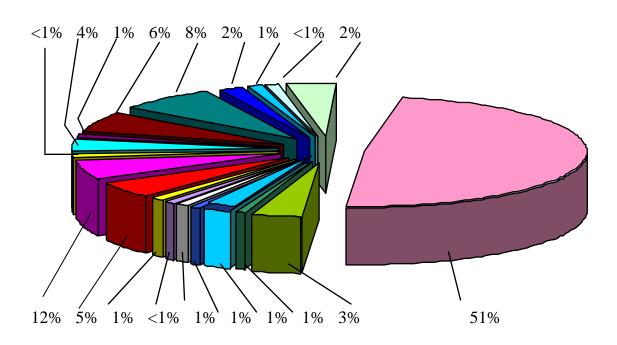

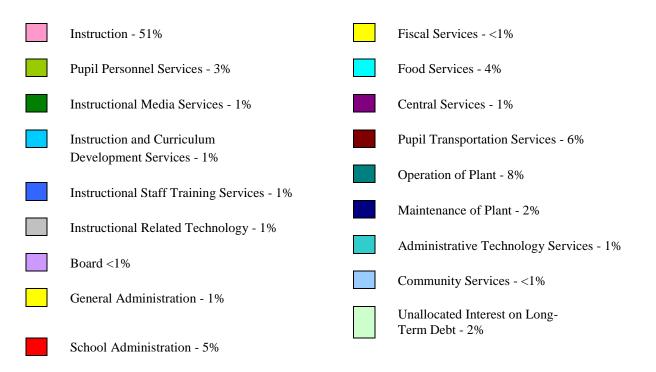

Figure A-6

Expenses for Fiscal Year 2012

Facilities Services - 12%

Governmental Activities

Revenues for the District's governmental activities decreased 8.1 percent, while expenses decreased 1.6 percent. The decrease in net position for governmental activities was \$54.4 million in 2012. The major impacts to revenue were the reduction in the net taxable assessed value from \$41,886,768 to \$39,175,792. This reduction in the net assessed taxable value was the major cause in the reduction of \$22,211,616 in ad valorem taxes collections.

Figure A-7 presents the cost of the District's activities. The table also shows each activity's *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the taxpayers by each of these functions.

			(4 - 4)			
Total	\$ 830.8	817.5	(1.6)%	\$ (778.9)	\$ (766.3)	(1.6)%

The cost of all governmental activities this year was \$817.5 million.

Part of the cost was financed by the users of the District's programs (\$15.1 million).

The Federal and State governments subsidized certain programs with grants and contributions (\$36.0 million).

However, most of the District's costs (\$766.3 million) were financed by District and State taxpayers. This portion of governmental activities was financed with \$430.9 million from property taxes and \$278.9 million of unrestricted FEFP based on the statewide education aid formula, and other federal, state, and local sources.

Financial Analysis of the District's Funds

The focus of the governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. As the District completed the fiscal year, its governmental funds reported combined fund balances of \$334.4 million, which is below last year's ending fund balances of \$427.7 million. Unassigned fund balance of \$116.2 million represents 34.8 percent of the ending fund balances and is available to meet the District's short-term spending needs. The remainder of fund balance is reserved to indicate that it is not available for new spending, because it is: 1) to liquidate inventory and prepaid items of \$2.5 million; 2) restricted by Federal and State statue of \$204.7 million; and 3) assigned for State and Local programs of \$11.0 million.

Seven of the twelve Governmental Funds had less revenue and other financing sources than expenditures and other financing uses in 2012, thereby contributing to the decrease in total fund balance. Most significantly, \$71.3 million of capital outlays connected with construction remodeling and renovation of various schools were expended in the current year using prior year resources. Some funds reflect increases (\$4.6 million) between current year revenues and expenditures. Food Service Fund contributed \$2.8 million because current year resources were not expended in the current year due to conservative spending.

The *General Fund* is the District's chief operating fund. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$116.2 million, while total fund balance reached \$143.5 million. During the current fiscal year, the fund balance of the General Fund decreased by \$22.1 million. A key factor in this decrease was a \$34.4 million decrease in Property tax revenue.

The *Special Revenue Fund Federal Economic Stimulus* is used to account for the resources generated by Federal Stimulus funds for use in key education areas such as instruction of students with disabilities, services for low-income students and the stabilization of local funding. Because grant revenues are not recognized until expenditures are incurred, this fund generally does not accumulate a fund balance.

The *Debt Service Fund Certificates of Participation* is used to account for the resources accumulated and payments made for principal, interest, and related costs on the long-term Certificates of Participation. The restricted fund balance at the end of fiscal year 2012 was \$0.7 million, an increase of \$.5 million from the prior fiscal year.

The *Debt Service Fund ARRA Economic Stimulus* is used to account for the resources accumulated and payments made for principal, interest, and related costs on the long-term Qualified School Construction Bond (QSCB). The restricted fund balance at the end of fiscal year 2012 was \$1.8 million. The reason for the this increase is due to the accumulated principal payments required to be deposited into a sinking fund until fiscal year 2026 when the debt will be paid.

The Capital Projects Fund Local Capital Improvement Tax is used to account for the resources generated by the local capital improvement tax to be used for educational capital outlay needs. At June 30, 2012, the total fund balance was \$124.1 million, a decrease of \$1 million from the prior fiscal year. The reason for this decrease is due to prior year resources being used to finance current year expenditures.

The Capital Projects Fund Certificates of Participation/Impact Fees/State Grants is used to account for the resources generated by various sources for educational capital outlay needs, including new construction and removation and remodeling projects as specified in statute, ordinance, or contract. The total fund balance for this fund at the end of the current fiscal year was \$44.1 million, a decrease of \$46 million from the prior fiscal year. The reason for this decrease is due to prior year resources being used to finance current year expenditures.

The *Capital Projects Fund ARRA Economic Stimulus* is used to account for the resources generated by a Federal Qualified School Construction Bond for new school construction projects. The total fund balance for this fund at the end of the current fiscal year was \$1.5 million, a decrease of \$25.3 million from the prior fiscal year. The reason for this decrease is due to prior year resources being used to finance current year expenditures.

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual budget several times. These budget amendments generally fall into two categories:

Amendments Related to Changes in Revenue Estimates.

Throughout the school year, the District received revised calculations in the FEFP (Florida Education Finance Program – the funding formula for Florida school districts), based on changes in student counts, State revenue estimates, and local tax roll estimates. With each calculation, the budget is amended to reflect the current revenue estimates provided in the FEFP. The District will also amend revenues in the General Fund for new State grants and changes in local revenue sources, such as interest and indirect cost revenue. The District budgets 96 percent of projected property tax revenues at the onset of each budget year, as required by law, and collections are generally higher. Revenue from interest income was greater than the final amended budget by \$0.7 million due to the unrecognized gain on fair market value of investments and \$1.9 million in other local sources due to the collection of a government rebate on telecommunications services.

Amendments to Modify Appropriations.

Throughout the fiscal year, the District may increase appropriations for new grants and unanticipated expenditures, such as hurricane damage.

Each school and department is allowed to modify its existing budget to meet its operational needs throughout the school year. An example of this type of amendment would be to move appropriations from purchased supplies to textbooks in order to acquire new textbooks for the art class.

Budgeted expenditures were increased \$1.3 million from the original budget to the final amended budget due to the rise in transportation costs.

• Although the District's final budget for the General Fund anticipated that expenditures would exceed revenues and other financing sources by approximately \$94.4 million, the actual results for the year show that expenditures exceeded revenues by \$22.1 million.

- The actual expenditures were \$75.9 million below budgeted levels. Actual expenditures for instruction were more than \$37.4 million below budgeted levels due to conservative spending at the schools.
- Actual expenditures for operation of plant were \$15.3 million below budgeted levels due to conservative spending.

Capital Assets and Debt Administration

Capital Assets

By the end of the 2011-12 fiscal year, the District had a net invested \$1,397.8 million in a broad range of assets, including land, school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices (see Figure A-8). This amount represents a net increase of \$11.2 million, or.8 percent, from last year. Additions to buildings, furniture, fixtures and equipment, and software amounted to \$16.3 million for the fiscal year. Total depreciation expense for the year was \$53.3 million. (More detailed information about capital assets can be found in Note 5 to the Basic Financial Statements.)

Figure A-8

Capital Assets (net of depreciation, in millions of dollars)

	Total _	\$	1,386.6	\$	1,397.8	0.8%		

The District's approved five-year Capital Outlay Plan includes no new schools over the next five years. The District's student enrollment has grown over the last several years – 5.3 percent since 2008 for a present enrollment of 83,659 students.

The District's capital projects budget shows spending another \$359.9 million in the 2011-12 fiscal year for capital projects, principally in three areas:

- 1) \$37.2 million to renovate two schools and to complete the construction of two new schools.
- 2) \$18.6 million to continue the upgrade of technology equipment.
- 3) \$32.5 million to continue the maintenance of existing schools.

Long-Term Debt

At year-end, the District had \$533.3 million in COPS, SBE bonds, and Notes outstanding, a decrease of 0.4 percent from last fiscal year, as shown in Figure A-9. (More detailed information about the District's long-term liabilities is presented in Note 7 to the Basic Financial Statements.)

Figure A-9

revenues)	15.1		13.4	(11.3%)
			700	(4)
Total	\$ 533.3	\$	508.6	(4.6%)

During the fiscal year, the District refunded \$170.7 million in old debt.

The District continues to retire its outstanding debt as it becomes due, retiring \$22.8 million of outstanding certificates of participation and bonds during the 2011-12 fiscal year.

This space intentionally left blank

Factors Bearing on the District's Future

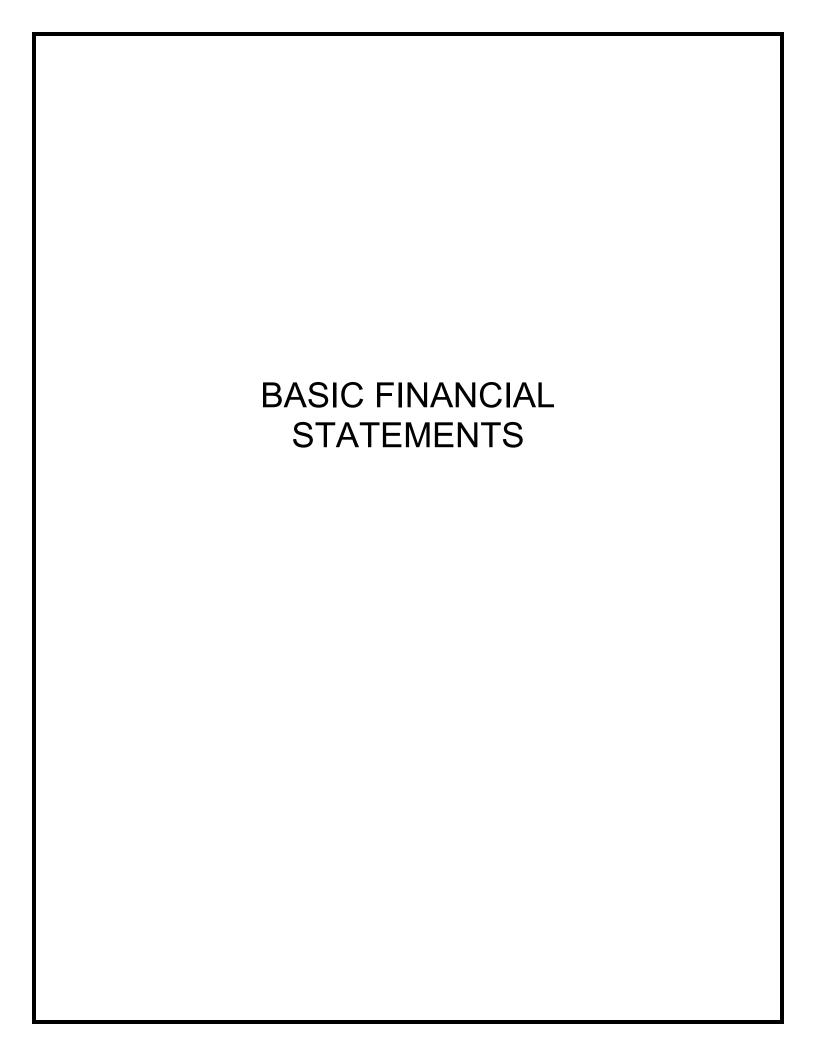

At the time these Financial Statements were prepared, the District was aware of five existing circumstances that could significantly affect its financial health in the future:

- The State of Florida funds the District through the Florida Education Finance Program (FEFP) which is based on student enrollment. With the exception of fiscal year 2009, when we had a decline of 500 students, the district has experienced healthy student growth in each year. However, starting in fiscal year 2007-08, and continuing through fiscal year 2011-12, per student funding received through the FEFP declined due to state funding shortfalls. In fiscal year 2012-13, per student funding is less than what we received in 2007.
- In fiscal year 2013, property values will decline for the fifth year in a row and millages will decrease as well. Property values are the lowest they have been since 2005 and millages are lower than 2005 levels, creating an additional strain on the budget.
- The District has worked to amass reserves since 2005. These reserves are being utilized in the current year to help balance the budget, and if FEFP revenue does not increase substantially in future years, reserves will continue to be utilized and/or reductions in the budget will need to be made in future years' budgets.
- Due to growth and compliance with the class-size mandate, the District will construct one new elementary school and one new middle school in fiscal year 2011-12 with a scheduled opening date of August 2012. The two new schools opened for the 2012-2013 school year, both in the east zone. The state's mandate for Districts to comply with the class size requirement at the CLASS level (as opposed to the school wide average) costs the District approximately \$12 million in FY12, with more ongoing future costs.
- On April 3, 2012, the Board approved the contract between the District and the Teachers Association of Lee County (TALC). The contract includes provisions for a step increase based on performance with a double step increase for unit members currently on steps 1 3 with 2 or more years of experience for Fiscal Year 2012-2013. An additional 30 minutes was added to the work week for all TALC bargaining unit members, to be paid at the employee's hourly rate. This additional of 30 minutes to the work week is a pilot for the 2012 2013 school year only and will be reevaluated during future negotiations. A new performance salary schedule and teacher career ladder will be implemented as a part of this agreement to begin in the 2013 2014 school year. The length of the TALC contract was extended by one year and will expire 2012-2013.

The Support Personnel Association of Lee County (SPALC) and the District Bargaining Teams are currently in negotiations.

Contacting the District's Financial Management

This Comprehensive Annual Financial Report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Director of Financial Accounting, The School District of Lee County, 2855 Colonial Blvd., Fort Myers, Florida 33966.

THE SCHOOL DISTRICT OF LEE COUNTY RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION June 30, 2012

Total Fund Balance - Governmental Funds

334.350.220

Amounts reported for governmental activities in the statement of net position are different because:

Capital Assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.

Original cost of capital assets 1,892,965,114 Accumulated depreciation (495,115,869)

1,397,849,245

Capital credits to be received in future years are not available to liquidate liabilities in governmental funds, but are accrued in the government-wide financial statements.

7.505.243

Debt issuance costs are not expensed in the government-wide statements, but are reported as deferred charges and amortized over the life of the debt.

1.301.467

Long-term liabilities are reported in the statement of net position but not in the governmental funds because they are not due and payable in the current period. Balances at June 30, were:

Accrued Interest payable	(17,669)
Bonds payable	(13,424,854)
Certificates of participation payable	(488,321,129)
Notes payable	(6,908,520)
Estimated insurance claims payable	(22,281,624)
Liability for compensated absences	(58,462,830)
Estimated early retirement payable	(1,264,000)
Postemployment benefits payable	(19,330,439)

Subtotal, long-term liabilities (610,011,065)

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds of the district. The assets and liabilities of the internal service funds, which are reported in the proprietary funds rather than the governmental funds, are included in governmental activities in the statement of net position. The internal service funds net position are \$33,531,819. This includes \$59,199 in compensated absences and \$22,281,624 in estimated unpaid claims included above. The net amount is as follows:

55,872,642

Total net position - governmental activities

\$ 1,186,867,752

THE SCHOOL DISTRICT OF LEE COUNTY RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

For the Fiscal Year Ended June 30, 2012

Net change in fund balances- governmental funds	\$ (93,320,407)						
Amounts reported for governmental activities in the statement of activities are different because:							
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activites those costs are shown in the statement of net position and allocated over their useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlays, net of noncapitalized outlays, and other additions exceed depreciation expense in the current period. Capital outlays 69,582,070 Depreciation expense (53,264,470)	16,317,600						
In the governmental funds, the cost of capital assets was recognized as an expenditure in the	10,011,000						
year purchased. Thus, the change in net assets differs from the change in fund balance by the undepreciated cost of the disposed assets.	(5,075,884)						
Debt proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the statement of net position, however, issuing debt increases long-term liabilities and does not effect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the statement of net position. Also, governmental funds report the effect of premiums, discounts, issuance costs, and similar items when debt is issued, whereas these amounts are deferred and amortized in the statement of activities.							
Debt proceeds (180,946,116)							
Payment to escrow agent 181,793,829 Deferred Issuance Costs 1,105,927 Amortization-net 471,691 Repayments 22,778,439	25,203,770						
The District has recorded vested utility interest revenue in the government-wide statements that does not meet the earned criterion for recognition in the fund financial statements.	342,541						
The net change in the early retirement benefit program liability is reported in the government-wide statements, but not in the governmental fund statements.	16,000						
In the governmental funds, interest on long-term debt is recorded as an expenditure when due and payable. In the statement of activities, interest is recorded as it accrues. This is the increase in accrued interest payable.	134,090						
In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated							
absences earned in excess of the amount paid in the current period.	474,155						
The net change in the liability for postemployment health benefits is reported in the government-wide statements, but not in the governmental fund statements.	(3,031,177)						
Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds of the district. The net income of the internal service funds, of \$4,585,786 is reported with governmental activities. This includes \$32,450 in							
compensated absences included above. The net amount is as follows:	4,553,336						
Change in net position of governmental activities	\$ (54,385,976)

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

Reporting Entity

The District School Board of Lee County (Board) has direct responsibility for operation, control, and supervision of The School District of Lee County (District) and is considered a primary government for financial reporting. The District is part of the Florida system of public education under the general direction of the State Board of Education. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools (Superintendent) is the executive officer of the District. The general operating authority of the Board and the Superintendent is contained in Chapters 1000-1013, Florida Statutes. Geographic boundaries of the District correspond with those of Lee County, Florida.

Pursuant to Section 1010.51, Florida Statutes, the Superintendent is responsible for keeping records and accounts of all financial transactions in the manner prescribed by the State Board of Education.

For financial reporting purposes, the accompanying financial statements include all of the operations over which the District is financially accountable. The District is financially accountable for organizations that make up its legal entity, as well as legally separate organizations that meet certain criteria. In accordance with GASB 14, "The Financial Reporting Entity," as amended by GASB 39, "Determining Whether Certain Organizations Are Component Units" and GASB 61, "The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34", the criteria for inclusion in the reporting entity involve those cases where the District or its officials appoint a voting majority of an organization's governing body, and is either able to impose its will on the organization and there is a potential for the organization to provide specific financial benefits to or to impose specific financial burdens on the District or the nature and significance of the relationship between the District and the organization is such that exclusion would cause the District's financial statements to be incomplete. Based on the application of these criteria, District management has determined that the following five charter schools are not component units: Edison Collegiate High School, Oasis Elementary School, Oasis Middle School, Christa McAuliffe Elementary School, and City of Cape Coral High School. Each of these charter schools are operated and reported as a component unit by a government entity other than the District.

Based on the application of the criteria, the following component units are included within the District's reporting entity:

Blended Component Unit – Leasing Corporation

The Lee County School Board Leasing Corporation (Leasing Corporation) was formed on December 17, 2003, to facilitate financing for the acquisition of facilities and equipment. Additionally, the Corporation is legally separate from the District and the governing board of the Leasing Corporation is the District School Board. Therefore, the financial activities of the Leasing Corporation have been blended (reported as if it were part of the District) with those of the District. Separate financial statements for the Leasing Corporation are not published.

Discretely Presented Component Unit – Foundation

The Foundation for Lee County Public Schools, Inc., (Foundation) was formed for the purpose of improving the quality of education by increasing community involvement with and support for Lee County schools. Although the District does not control the timing or amount of receipts from the Foundation, the majority of resources (or incomes thereon) that the Foundation holds and invests are restricted to the activities of the District by the donors. Because these restricted resources held by the Foundation can only be used for the benefit of the District, the Foundation is considered a component unit of the District and is discretely presented in the District's financial statements. An annual post-audit of the Foundation's financial statements is conducted by an independent certified public accountant and is filed in the District's administrative office.

Discretely Presented Component Units - Charter Schools

At fiscal year-end there were nineteen Charter Schools operating within the District that meet the criteria for presentation as a discretely presented component unit. All charter schools are separate, not-for-profit corporations organized and operated as charter schools under Section 1002.33, Florida Statutes to enhance the education of the Lee County students attending these schools. Charter Schools do not have the constitutional authority to levy taxes, making charter schools fiscally dependent on the District. Pursuant to Florida Statutes section 1002.33(17) students enrolled in a charter school shall be funded the same as students enrolled in other public schools in the District. The charter schools' full-time equivalent (FTE) student enrollment is the basis for the District to provide funding to the charter schools. The financing of charter schools imposes a financial burden on the District. Because charter schools are fiscally dependent and create a financial burden on the District, charter schools are considered component units of the District. Audits were performed for each Charter School for the year ended, by an independent certified public accountant and they are on file at the District's administrative office.

These Charter Schools are considered to be Component Units of the District since they are fiscally dependent on the District:

Bonita Springs Preparatory and Fitness Academy, Inc. – The school's Charter was granted September 23, 2008, for a K-8 school. As of June 30, 2012, the school was a grade K-8 school. The school is located in Bonita Springs, Florida.

Bonita Springs Charter School – The school's Charter was granted December 18, 2001, for a K-8 school. As of June 30, 2012, the school was a K-8 school. The school is located in Bonita Springs, Florida.

Cape Coral Charter School – The school's Charter was granted August 20, 2002, for a grade K-8 school. As of June 30, 2012, the school was a grade K-8 school. The school is located in Cape Coral, Florida.

Cape Preparatory and Fitness Academy, Inc – The school's Charter was granted May 3, 2011, for a K-8 school. As of June 30, 2012, the school was a grade K-8 school. The school is located in Cape Coral, Florida.

City of Palm Charter High School. – The school's Charter was granted October 25, 2005, for a grade 9-12 school. As of June 30, 2012, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Coronado High School – The school's Charter was granted October 23, 2007, for a grade 9-12 school. As of June 30, 2012, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Fort Myers Preparatory and Fitness Academy, Inc. – The school's Charter was granted October 23, 2007, for a K-8 school. As of June 30, 2012, the school was a grade K-8 school. The school is located in Fort Myers, Florida.

Gateway Charter School – The school's Charter was granted August 20, 2002, for a grade K-8 school. As of June 30, 2012, the school was a grade K-4 school. The school is located in Fort Myers, Florida.

Gateway Intermediate Charter School – The school's Charter was granted August 20, 2002, for a grade K-8 school. As of June 30, 2012, the school was a grade 5-8 school. The school is located in Fort Myers, Florida.

Gateway Charter High School – The school's Charter was granted October 21, 2003, for a grade 9-12 school. As of June 30, 2012, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Goodwill L.I.F.E. Academy – The school's Charter was granted October 19, 2004, for a grade 9-12 school. As of June 30, 2012, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

The Island School, Inc. - The school's Charter was granted May 2, 2000, for a grade K-8 school. As of June 30, 2012, the school was a grade K-5 school. The school is located on Gasparilla Island in Boca Grande, Florida.

Lee Charter Academy, Inc. – The school's Charter was granted March 23, 2004, for a grade K-6 school. As of June 30, 2012, the school was a grade K-8 school. The school is located in Fort Myers, Florida.

Lee Alternative Charter High School - The school's Charter was granted June 20, 2006, for a grade 9-12 school. As of June 30, 2012, the school was a grade 9-12 school. The school is located in Lehigh Acres, Florida.

North Nicholas High School - The school's Charter was granted October 23, 2007, for a grade 9-12 school. As of June 30, 2012, the school was a grade 9-12 school. The school is located in Cape Coral, Florida.

Pivot Charter High School, Inc. – The school's Charter was granted October 20, 2009, for a grade 9-12 school. As of June 30, 2012, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Richard Milburn Academy of Florida, Inc. – The school's Charter was granted November 27, 2000, for a grade 9-12 school. As of June 30, 2012, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Richard Milburn Academy of Florida South, Inc. – The school's Charter was granted May 3, 2011, for a grade 9-12 school. As of June 30, 2012, the school was a grade 9-12 school. The school is located in Bonita Springs, Florida.

Six Mile Charter Academy – The school's Charter was granted August 10, 2004, for a grade K-8 school. As of June 30, 2012, the school was a grade K-8 school. The school is located in Fort Myers, Florida.

The charter school listed below did not submit an audit of their operations in time for the issuance of this report, thus no financial information has been reported for this entity. However, based on unaudited financial information provided, the financial statements for this charter school are not material to the aggregate component unit financial statements.

Lehigh Charter School of Excellence, Inc. – The school's Charter was granted October 20, 2009, for a grade K-8 school. As of June 30, 2012, the school was a grade K-8 school. The school is located in Lehigh Acres, Florida.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. The effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities* that rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the District is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function (i.e., food service fees, student fees, print fees, and transportation fees), and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function (i.e., Federal food service, transportation, and Public Education Capital Outlay [PECO] grants). Taxes and other items not properly included among program revenues are reported instead as *general revenue*.

The effects of interfund activities have been eliminated from the government-wide financial statements. Interfund transactions include transactions involving the internal service funds. These transactions were eliminated by allocating the change in net position of internal services funds in direct proportion as they were charged as expenses to the various functions/programs.

Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

• General Fund is the District's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.

- Special Revenue Fund Federal Economic Stimulus accounts for the resources received and expended under the American Recovery and Reinvestment Act of 2009 for use in key education areas such as instruction of students with disabilities, services for low-income students and the stabilization of local school district funding.
- *Debt Service Fund Certificates of Participation* accounts for the resources accumulated and payments made for principal, interest, and related costs on the long-term Certificates of Participation.
- Debt Service Fund ARRA Economic Stimulus accounts for the accumulation of resources for the payment of debt principal, interest and related costs on the Capital Project Fund ARRA Economic Stimulus.
- Capital Projects Fund Local Capital Improvement Tax accounts for the resources used for the acquisition or construction of major capital facilities financed through tax levies pursuant to Section 1011.71(2), Florida Statutes.
- Capital Projects Fund Certificates of Participation/Impact Fees/State Grants accounts for the resources used for the acquisition or construction of major capital facilities financed through certificates of participation, impact fees, and state capital grant proceeds.
- Capital Projects Fund ARRA Economic Stimulus includes Qualified School Construction Bonds. This fund is used for capital expenditures related to construction, renovation, and remodeling projects and are authorized by Federal law.

Additionally, the District reports the following fund types:

- The *Internal Service Fund* accounts for the self-insurance programs.
- The *Agency Fund* accounts for resources of the school internal funds that are used to administer money collected at schools in connection with student athletic, class, and club activities.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Measurement Focus, Basis of Accounting, and Financial Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary and fiduciary fund financial statements. The agency fund is custodial in nature (assets equal liabilities) and uses the accrual basis of accounting to recognize receivables and payables. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility or expenditure requirements imposed by the provider have been met.

Governmental fund financial statements, which include the General, Special Revenue, Debt Service, and Capital Projects funds, are prepared using the *current financial resource measurement focus* and the *modified accrual basis of accounting*. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (a) principal and interest on general long-term debt is recognized as expenditures when due; and (b) claims and judgements and compensated absences are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Revenues can be classified into two kinds of transactions: (a) exchange and exchange-like transactions, in which each party receives and gives up essentially equal value and (b) nonexchange transactions, in which a government gives (or receives) value without directly receiving (or giving) equal value in exchange.

Revenue resulting from exchange transactions is recorded on the accrual basis when the exchange takes place. Revenues resulting from nonexchange transactions are further classified into (a) derived tax revenues, (b) imposed nonexchange revenues, (c) government-mandated nonexchange transactions, and (d) voluntary nonexchange transactions. Derived tax revenues (i.e.: sales tax) are recorded when the exchange transaction occurs. The District currently does not have any derived tax revenues. Imposed nonexchange transactions (i.e.: property taxes) are recorded when use of the resource is required or first permitted by time requirement (for example, for property taxes, the period for which they are levied). Government-mandated and voluntary nonexchange transactions (i.e.: Federal mandates, grants, and donations) are recorded when all eligibility requirements have been met.

When applying the susceptible to accrual concept under the modified accrual basis, resources also should be available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. The District considers property taxes to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums. Operating expenses for internal service funds include insurance claims and excess coverage premiums, and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use in governmental funds it is the District's policy to use committed resources first, followed by assigned resources, and then unassigned resources as they are needed.

Each of the charter schools, included as discretely presented component units, are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

The Foundation for Lee County Public Schools, Inc., shown as a discretely presented component unit, is accounted for using the accrual basis of accounting, whereby revenues are recognized when earned and expenditures are recognized when incurred.

Budgetary Basis Accounting

The following procedures, established by State Statutes and State Board of Education rules, are used by the Board in setting up final budget balances reported on the financial statements:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the function level (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the Annual Financial Report. This function level is the legal level of budgetary control.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.

Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at year-end and encumbrances outstanding are honored from the subsequent year's appropriations. During the fiscal year ended June 30, 2012, budgets for all governmental fund types were amended to reflect adjustments to appropriations due to changes in student counts, the addition of new education programs, and other events.

Cash

Banks qualified as public depositories under Florida law hold cash deposits. All deposits are insured by Federal depository insurance and/or collateralized with securities held in Florida's multiple financial institution collateral pool required by Sections 280.07 and 280.08, Florida Statutes. The Statement of Cash Flows considers cash as those accounts used as demand deposit accounts and cash equivalents amounts with State Board of Administration.

Restricted Cash with Fiscal Agent

Self-insurance funds are required to establish and maintain prescribed amounts of resources (consisting of cash) that can be used only to pay insurance claims.

Investments

Investments consist of amounts placed with the State Board of Administration (SBA) debt service accounts for investment of debt service moneys, and amounts placed for participation in the Florida PRIME and Fund B Surplus Funds Trust Fund investment pools created by Sections 218.405 and 218.417, Florida Statutes.

The District's investments in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, as of June 30, 2012, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

The District's investments in the Fund B Surplus Funds Trust Fund are accounted for as a fluctuating net asset value pool, with a fair value factor of 0.83481105 at June 30, 2012. The Fund B is not subject to participant withdrawal requests. Distributions from Fund B, as determined by the SBA, are effected by transferring eligible cash or securities to Florida PRIME, consistent with the pro rata allocation of pool shareholders of record at the creation of Fund B. One hundred percent of such distributions from Fund B are available as a liquid balance within Florida PRIME.

Investments made locally consist of money market funds and are reported at fair value.

Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

Inventory

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on a weighted-average basis for the central stores, maintenance, transportation, and food service inventories and at last invoice price, which approximates the first-in, first-out basis, for the print shop and media/textbook inventories. United States Department of Agriculture donated foods are stated at their fair market value, as determined at the time of donation to the District's food service program by the Bureau of Food Distribution, Florida Department of Agriculture and Consumer Services. The costs of inventories are recorded as expenditures when used rather than purchased. The inventories at year-end are reported as non-spendable fund balance.

Prepaid Items

Expenditures for insurance and similar services extending over more than one accounting period are not allocated between or among accounting periods in the governmental funds and are instead accounted for as expenditures in the period of acquisition.

Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental funds that financed the acquisition or construction. The capital assets so acquired are reported at cost in the governmental activities columns in the government-wide financial statements but are not reported in

the governmental fund financial statement. The District defines capital assets as assets with an initial individual cost of \$1,000 or more. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated assets are recorded at their estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	Years
Improvements Other than Buildings	10-40
Buildings and Fixed Equipment	10-50
Motor Vehicles	5-10
Furniture Fixtures and Equipment	3-15
Audio-Visual Materials	3-5
Computer Software	5

Current year information relative to changes in capital assets is described in a subsequent note.

Noncurrent Liabilities and Compensated Absences

In the government-wide financial statements and proprietary fund types in the fund financial statements, noncurrent obligations are reported as liabilities in the applicable governmental activities, or proprietary fund type Statement of Net Position. Debt premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable and Certificates of Participation are reported net of the applicable premium or discount.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as debt service expenditures.

The liability for compensated absences reported in the government-wide and proprietary fund statements consist of unpaid, accumulated vacation and sick leave, including applicable salary-related amounts for Social Security, Medicare, and retirement contributions. The liability has been calculated using the vesting method, in which leave amounts for employees who currently are eligible to receive termination payment and other employees who are expected to become eligible in the future to receive such payments upon termination are included. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements.

Changes in noncurrent liabilities for the current year are reported in a subsequent note.

Fund Balance/Net Position

In the fund financial statements, governmental funds report restrictions of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Net Position in the government-wide financial statements are classified as net investment in capital assets, restricted and unrestricted. Restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors, law and regulations of other governments, or imposed by law through State statute.

Estimates

The preparation of the financial statement in conformity with generally accepted accounting principles requires the District to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Reclassifications

Certain amounts in the District and discretely presented component units financial statements have been reclassified in order to be consistent with the District's presentation.

State Revenue Sources

Revenues from State sources for current operations are primarily from the Florida Education Finance Program, administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE students and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE students and related data. Normally, such adjustments are treated as reductions or additions to revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that educational program revenues be accounted for in the General Fund. For selected programs, funds received that are not expended at the fiscal year-end are carried forward into the following year to be expended for the same educational programs. A portion of the fund balance of the General Fund is restricted for the balance of these educational program resources.

The State allocates gross receipts taxes, generally known as public education capital outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and

receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Education Capital Outlay funds as deferred revenue until such time as an encumbrance authorization is received. The District also received a Charter School Capital Outlay appropriation.

A schedule of revenues from State sources for the current year is presented in a subsequent note.

Property Taxes - Revenue Recognition

The Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. The Lee County Property Appraiser determines property values and the Lee County Tax Collector's office collects the property taxes.

The Board adopted the 2011 tax levy on September 11, 2011. Taxes become an enforceable lien on property as of January 1. Tax bills are mailed in October, and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to four percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment and State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing certificates to satisfy unpaid taxes. These procedures result in the collection of substantially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the Government-wide financial statements in the fiscal year for which the Board adopts the tax levy. Property tax revenues are recognized in the Governmental Fund financial statements when the taxes are received by the District, except that revenue is accrued for taxes collected by the Lee County Tax Collector at fiscal year end which have not yet been remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued. Millages and taxes levied for the current year are presented in a subsequent note.

Educational Impact Fees

The District receives educational impact fees based on an ordinance adopted by the Board of County Commissioners of Lee County (County) on November 27, 2001. The fee is collected by the County for new residential construction, and can only be used to provide for the acquisition of capital assets or additions to capital assets and expenditures for site acquisition, construction design, site development, necessary off-site improvements, and equipment. Educational impact fee revenues are recognized in the government-wide and governmental fund financial statements when the fees are collected by the County.

Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to and approved by various granting agencies. For Federal

awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

Impact of Recently Issued Accounting Principles

Recently Issued and Adopted Accounting Pronouncements

In November 2010, the GASB issued Statement 60, Accounting and Financial Reporting for Service Concession Arrangements. GASB 60 provides financial reporting guidance for service concession arrangements (SCAs). SCAs are defined as an arrangement between a transferor (a government) and an operator (governmental or nongovernmental entity) in which (1) the transferor conveys to an operator the right and related obligation to provide services through the use of infrastructure or another public asset (a "facility") in exchange for significant consideration and (2) the operator collects and is compensated by fees from third parties. This statement is effective for periods beginning after December 15, 2011 although the District elected to early implement statement 60 in fiscal year 2012. The District does not have any SCAs and therefore the adoption of GASB 60 does not have any impact on the District's financial statements.

In November 2010, the GASB issued Statement 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34.* GASB 61 provides additional criteria for classifying entities as component units to better assess the accountability of elected officials by ensuring that the financial reporting entity includes only organizations for which the elected officials are financially accountable or that are determined by the government to be misleading to exclude. This statement is effective for periods beginning after June 15, 2012 although the District elected to early implement statement 61 in fiscal year 2012.

In December 2010, the GASB issued Statement 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. GASB 62 incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedure. This statement is effective for periods beginning after December 15, 2011 although the District elected to early implement Statement 62 in fiscal year 2012. The adoption of GASB 62 does not have any impact on the District's financial statements.

In June 2011, the GASB issued Statement 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. GASB 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. The statement of net assets is renamed the statement of net position and includes four components assets, deferred outflows of resources, liabilities and deferred inflows of resources. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011 although the District elected to early implement statement 63 in fiscal year 2012.

In June 2011, the GASB issued Statement 64, *Derivative Instruments: Application of Hedge Accounting Termination Provisions -- an amendment of GASB Statement No. 53.* GASB 64 provides clarification on whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty's credit support provider. This statement was effective for periods beginning after June 15, 2011.

In March 2012, the GASB issued Statement 66, *Technical Corrections*—2012—an amendment of GASB Statements No. 10 and No. 62. GASB 66 improves accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions, and No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.* This Statement is effective for periods beginning after December 15, 2012 although the District elected to early implement statement 62 in fiscal year 2012. The adoption of GASB 66 does not have any impact on the District's financial statements.

Recently Issued Accounting Pronouncements

In March 2012, the GASB issued Statement 65, Items Previously Reported as Assets and Liabilities. GASB 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. This Statement is effective for periods beginning after December 15, 2012. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In June 2012, the GASB issued Statement 67, Financial Reporting for Pension Plans—an amendment of GASB Statement 25. GASB 67 improves financial reporting by state and local governmental pension plans. The requirements of this Statement will improve financial reporting primarily through enhanced note disclosures and schedules of required supplementary information that will be presented by the pension plans that are within its scope. This Statement is effective for financial statements for fiscal years beginning after June 15, 2013. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In June 2012, the GASB issued Statement 68, Accounting and Financial Reporting for Pensions—an amendment of GASB Statement 27. GASB 68 improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This Statement is effective for fiscal years beginning after June 15, 2014. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

NOTE 2: CASH AND INVESTMENTS

2-A. Cash Deposits

Florida Statutes authorize the deposit of District funds in demand deposits or time deposits of financial institutions approved by the State Treasurer and are defined as public deposits. All District public deposits are held in qualified public depositories pursuant to Chapter 280, Florida Statutes, the "Florida Security for Public Deposits Act." Under the act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits times the depository's collateral pledging level. The collateral pledging level may range from 50 percent to 125 percent depending upon the depository's financial condition and the length of time that the depository has been established. All collateral must be deposited with the State Treasurer. Any losses to public depositors resulting from insolvency are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessment against other qualified public depositories if the same type as the depository in default. All bank balances of the District are fully insured or collateralized. As of June 30, 2012, the carrying amount of the District's bank deposits was \$38,094,464 and the respective bank balances totaled \$46,012,574. As of June 30, 2012, the carrying amount of the Agency Fund's bank deposits was \$906,225.

2-B. Investments

As of June 30, 2012, the District had the following investments and maturities:

		Investment Maturities (in years)				
Investment	Fair Value	6 Months	1 - 5	6 - 10	10 - 15	
Florida State Board of Administration						
Florida PRIME (1)	\$ 364,238,924	\$ 364,238,924	\$ -	\$ -	\$ -	
Fund B Surplus Funds Trust Fund (1)	6,675,766	-	-	6,675,766	-	
First America Government Obligation						
Class Y Money Market Fund	10,255,304	10,255,304	-	-	-	
US Bank Money Market 5 Fund	9,387,875	9,387,875	-	-	-	
Total Investment, Primary Government	390,557,869	383,882,103	-	6,675,766	-	
Agency Fund						
Florida PRIME	5,616,248	5,616,248	-	-		
Total Investments, Reporting Entity	\$ 396,174,117	\$ 389,498,351	\$ -	\$ 6,675,766	\$ -	

Note (1) At June 30, 2012, investments totaling \$30,692,194 are held under trust agreements in connection with Certificates of Participation, Series 2002A/B, 2004A/C, 2005A, 2006A, 2008A/B, 2009A, 2010A,2011A and 2012B/C financing agreements. (See Note 7.)

Section 218.415, Florida Statutes, limits the types of investments that a District can invest in unless specifically authorized in District policy.

2-C. Investments – Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The maturity of Florida PRIME investment pool is based on the weighted average days to maturity (WAM). A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes. The maturity of the SBA Local Government Fund B Surplus Funds Trust Fund is based on the weighted average life (WAL). A portfolio's WAL is the dollar weighted average length of time until securities held reach maturity which is estimated at 5.73 years. However, because Fund B consists of restructured or defaulted securities, there is considerable uncertainty regarding weighted average life. WAL is based on legal final maturity dates as of June 30, 2012.

2-D. Investments - Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the State Board of Administration Local Government Surplus Funds Trust Fund, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating from a nationally recognized rating agency; investments in interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. Investments authorized by District policy are:

- a. Florida Local Government Surplus Trust Funds (Florida PRIME). Investments totaling \$369,855,172 Florida PRIME are rated AAAm by Standard and Poor's and are reported at fair value. Investments totaling \$6,675,766 in the SBA Fund B Surplus Funds Trust Fund are unrated and reported at fair value.
- b. Direct Obligations of U.S. Treasury.
- c. U.S. Federal Government Agency Securities.
- d. U.S. Government Sponsored Agencies/Federal Instrumentalities.
- e. Repurchase Agreements fully collateralized at 102 percent of market value by U.S. Treasuries, U.S. Government Agencies, U.S. Government Sponsored Agencies/Federal Instrumentalities.
- f. Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency. As of June 30, 2012, the District had investments in US Bank First American Government Obligation Class Y Money Market Funds with a fair value of \$10,255,304, which were rated AAAm by Standard and Poor's and US Bank Money Market 5 Fund with a fair value of \$9,387,875, which were rated A+ by Standard and Poor's.
- g. Certificates of Deposit, collateralized at 102 percent of market value, by U.S. Treasuries, U.S. Government Agencies, U.S. Government Sponsored Agencies/Federal Instrumentalities.
- h. Passbook savings accounts and interest bearing time deposits with banks organized under the laws of the State of Florida or in banks doing business in the State of Florida.

2-E. Investments – Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District does not have a formal investment policy that addresses custodial credit risk.

Funds held by US Bank First American Government Obligation Class Y Money Market Fund and US Bank Money Market 5 Fund are held pursuant to a trust agreement in connection with the issuance of various certificates of participation.

2-F. Investments - Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributable to the magnitude of a District's investment in a single issuer. The District's investment policy places no limit on the amount it may invest in any one issuer.

NOTE 3: DUE FROM OTHER AGENCIES

The majority of receivables are due from other agencies. At June 30, 2012, the District had a total of \$11,279,193 of Due From Other Agencies. \$8,708,883 is due from Federal, State and Local governments for various grant programs. Due from the County for impact fees was \$1,555,842. Finally, \$1,014,468 is due from other State and Local agencies for miscellaneous items. These receivables and the remaining accounts receivable are considered to be fully collectable. As such, no allowance for uncollectible accounts receivable is accrued.

NOTE 4: CONSTRUCTION AND OTHER CONTRACT COMMITMENTS

The following is a summary of major construction and other significant contract commitments as of fiscal year- end:

Projects	Projects Contract Amount 6/30/2012		Balance Committed 6/30/2012		
Lehigh Elem #7027					
Others	\$	2,388	\$ 2,388	\$	-
Tortuga Preserve Elem #7042					
Contractor		14,199,631	13,784,996		414,635
Others		5,618,323	4,388,104		1,230,219
Elementary C #7161					
Others		6,600	6,600		-
New HVAC CCHS #7232					
Contractor		8,695,738	7,960,382		735,356
Others		2,850,291	2,340,985		509,306
New Tice Elem #7381					
Contractor		910,298	153,581		756,717
Others		7,339,702	-		7,339,702
Harnes Marsh Middle #7581					
Contractor		20,245,241	20,014,239		231,002
Others		8,797,547	8,034,269		763,278
Cafe EHS #2065		1,728,210	168,590		1,559,620
Total	\$	70,393,969	\$ 56,854,134	\$	13,539,835

Appropriations in governmental fund types are encumbered upon issuance of purchase orders for goods and/or services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered. The District uses encumbrance accounting for recording purchase order commitments. At June 30, 2012, the District has recorded \$28,795,380 in encumbrances as follows: \$1,387,872 for the General Fund; \$23,451,545 for the Capital Projects Fund – Local Capital Improvement Tax; \$1,579,014 for the Capital Projects Fund – Certificates of Participation/Impact Fees/State Grants; \$1,056,510 for the Capital Projects Fund – ARRA Economic Stimulus Fund and \$1,320,439 for the Nonmajor Governmental Funds.

NOTE 5: CAPITAL ASSETS

Capital asset balances and activities for the fiscal year ended June 30, 2012, were as follows:

	Balance July 1, 2011	Additions	Deductions	Balance June 30, 2012	
Governmental Activities					
Capital Assets not being depreciated

NOTE 6: INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The following is a summary of interfund receivables and payables in the fund financial statements:

Б. 1	Interfund		Interfund	
Funds	ŀ	Receivable		Payable
Major Funds:				
General	\$	8,628,848	\$	13,325,812
Special Revenue:				
Federal Economic Stimulus		4,404		253,294
Capital Projects:				
Local Capital Improvement Tax		279,524		923,003
Certificates of Participation/Impact				
Fees/State Grants		861,140		1,487,306
ARRA Economic Stimulus		-		1,502,911
Non-major Governmental Funds		730,417		5,315,271
Proprietary Funds		12,312,549		9,285
Total	\$	22,816,882	\$	22,816,882

The interfund receivables and payables represent the payment of expenditures by one fund for another fund and will be repaid within 12 months.

The following is a summary of interfund transfers reported in the fund financial statements:

Funds		Transfers In		Ti	ransfers Out
Major Funds:					_
General		\$	24,724,465	\$	2,734,968
Debt Service:					
Certificates of Participation			42,063,191		-
ARRA Economic stimulus			1,918,032		=
Capital Projects:					
Local Capital Improvements Tax			2,734,968		37,929,777
Certificates of Participation/Impact					
Fees/State Grants	_		=		30,775,911
	_				
	Total	\$	71,440,656	\$	71,440,656

The majority of the transfers out of the Capital Projects fund were to provide debt service principal and interest payments and to assist in funding maintenance operations of the District. The remaining transfers between funds were operational in nature.

NOTE 7: NONCURRENT LIABILITIES

7-A. Certificates of Participation Payable

The District entered into several financing arrangements, characterized as lease-purchase agreements, with the Florida School Boards Association, Inc. and the Lee County School Board Leasing Corporation (lessors) whereby the District secured financing of various educational facilities. The financing was accomplished through the issuance and refunding of several series of Certificates of Participation. Issues with remaining outstanding balances include Series 2004A, and 2004C (original issue \$170,045,000); Series 2005A (original issue: \$107,995,000); Series 2006A (original issue: \$94,790,000); Series 2008A (original issue: \$21,215,000); 2008B (original issue: \$60,000,000); Series 2009A (original issue: \$26,950,000); 2010A (original issue: \$23,298,000); 2011A-QSCB (original issue: \$27,009,000); Series 2012B (original issue: \$149,015,000) issued May 2012; and Series 2012C (original issue: \$16,240,000) issued May 2012; be repaid from the proceeds of rents paid by the District. The proceeds of the Series 2012B was used to payoff the Series 2002A and partially payoff the Series 2004A issue. The proceeds of the Series 2012C was used to partially payoff the Series 2004A issue.

The American Recovery and Reinvestment Act (ARRA) of 2009, signed into law on February 17, 2009, created two new categories of direct subsidy debt for school districts. The Qualified School Construction Bonds (QSCBs) and the Build America Bonds (BABs). Neither the QSCBs or the BABs represent incremental Federal Funding, both must be repaid by the District. In June 2011, the Corporation issued Certificate Series 2011A-QSCB in the amount of \$27,009,000. The Series 2011A-QSCB was issued to finance the cost of construction, installation and equipping educational facilities. The Series 2011A-QSCB Certificates are structured as taxable bonds and the District will receive a direct rebate/subsidy payment from the U.S. Treasury to offset a portion of the interest expense. The interest rate bondholders will receive is 5.48 percent and the federal subsidy is 5.02 percent, therefore the net interest cost to the District is .46 percent. Interest earnings on the proceeds will further offset this expense.

As a condition of the financing arrangement, the District has given a ground lease on District property to the leasors with a rental fee of \$1 per year. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through to term, the District may be required to surrender the sites included under the Ground Lease Agreements for the benefit of the securers of the Certificates for a period of time specified by the arrangement which may be up to 2028.

The District properties included in the ground leases under these arrangements include:

Series 2004A and 2004B

Three Elementary Schools

Two Building Conversions
New Administration Building
Vocational School Addition

The lease payments are payable by the District semi-annually on December 30 and June 30, at interest rates ranging from 1.910 to 5.48 percent. The following is a schedule by years of future minimum lease payments under the lease agreement together with the present value of minimum lease payments as of June 30:

Fiscal Year Ending June 30	<u>Total</u>	Principal Principal	<u>Interest</u>
2013	\$ 39,107,885	\$ 21,080,000	\$ 18,027,885
2014	39,506,246	22,281,000	17,225,246
2015	39,504,972	23,077,000	16,427,972
2016	39,502,062	24,004,000	15,498,062
2017	39,504,657	24,880,000	14,624,657
2018-2022	198,605,780	141,600,000	57,005,780
2023-2027	219,922,252	192,579,000	27,343,252
2028	33,089,625	31,515,000	1,574,625
Total Minimum Lease Payments	648,743,479	481,016,000	167,727,479
Add: Unamortized Premium/Discount, net	7,305,129	7,305,129	-
Total Certificates of Participation			
Payable	\$ 656,048,608	\$ 488,321,129	\$ 167,727,479

All Certificates of Participation issued are subject to arbitrage rebate. At June 30, 2012, there was no arbitrage rebate liability.

7-B. Notes Payable

Notes payable are comprised of the following:

	Balance	at 6/30/12
Bank of America Bank Loan		
\$3,451,257 borrowed 8-21-06, under provisions of		
Section 1011.14, Florida Statutes. Interest rate of 6.28%.		
Proceeds used to complete energy efficiency measures at		
various school sites. The Board repaid \$352,647 during the 2011-12 fiscal year.	\$	2,013,661
Bank of America Bank Loan		
\$6,306,547 borrowed 9-22-08, under provisions of		
Section 1011.14, Florida Statutes. Interest rate of 4.46%.		
Proceeds used to complete energy efficiency measures at		
various school sites. The Board repaid \$505,792 during		
the 2011-12 fiscal year.		4,894,859
Total Notes Payable	\$	6,908,520

Amounts needed for the planned extended repayment of Section 1011.14, Florida Statutes, bank loans as of June 30, 2012 are as follows:

Fiscal Year					
Ending June 30	Total	P	rincipal	I	nterest
Notes Payable					
2013	\$ 1,191,800	\$	910,078	\$	281,722

2015	1,220,360		1,021,180		199,180
2016	1,235,070		1,080,889		154,181
2017	1,250,073		1,143,543		106,530
2018-2020	1,882,091		1,788,546		93,545
Total Notes Payable	\$ 7,985,332	\$	6,908,520	\$	1,076,812

7-C. Bonds Payable

The following is a description of bonded debt issues:

State School Bonds: The State Board of Education issued these bonds on behalf of the District. The bonds mature serially and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is pledged for all of these State Board of Education Bonds. The original amount of State Board of Education bonds issued was \$19,945,000. The State Board of Education and the State Board of Administration administer principal and interest payments, investment of debt service fund resources, and compliance with reserve requirements.

Bonds payable at June 30, 2012, are as follows:

Bond Type	Amount Outstanding	Interest Rate (Percent)	Annual Maturity To
State School Bonds			
Series 2003A	\$ 60,000	3.00-3.125	2023
Series 2004A	1,290,000	3.75-4.625	2024
Series 2005B	9,595,000	5.00	2020
Series 2009A	835,000	4.00-5.00	2019
Series 2010A	310,000	4.00-5.00	2022
Series 2011A	795,000	3.00-5.00	2023
Sub-Total Add: Unamortized	12,885,000		
Premium/Discount, Net	539,854	-	
Total Bonds Payable	\$ 13,424,854	=	

This space intentionally left blank

The annual requirements to amortize all bonded debt outstanding as of June 30, 2012, including interest payments, are as follows:

Fiscal Year					
Ending June 30	Total	Principal		Interest	
State School Bonds					
2013	\$ 2,312,143	\$ 1,650,000	\$	662,143	
2014	2,278,497	1,730,000		548,497	
2015	2,287,798	1,825,000		462,798	
2016	2,287,398	1,915,000		372,398

Payable	1,280,000	_	16,000	1,264,000	30,000
Estimated Insurance Claims	-,,			-,,	,
Payable	20,880,576	71,738,075	70,337,027	22,281,624	13,212,830
Postemployment Benefits Payable	16,299,262	4,812,395	1,781,218	19,330,439	-
Liability for Compensated	, ,	, ,	, ,	, ,	
Absences	58,936,985	22,210,543	22,684,698	58,462,830	4,422,570
Total Other Liabilities	97,396,823	98,761,013	94,818,943	101,338,893	17,665,400
Total Noncurrent Liabilities	\$ 63,667,221	\$ 268,568,300	\$ 289,242,125	\$ 609,993,396	\$ 41,305,478

^{*}Payments on the bonds and notes payable are made by the Debt Service Funds SBE/COBI Bonds and Certificates of Participation. The Derivative Instruments were refunded during the fiscal year. Payments on the estimated insurance claims payable are made by the Internal Service Fund. The early retirement payable and compensated absences liabilities are generally liquidated by the General Fund. The postemployment benefits payable are generally liquidated by the General Fund.

Internal service funds predominantly serve the governmental funds. Accordingly, noncurrent liabilities are included as part of the above totals for governmental activities. At fiscal year-end, a \$59,199 liability for compensated absences in the Internal Service Fund is included in the above amounts.

NOTE 8: DEFEASED DEBT

On January 05, 2012, the Board issued \$795,000 in State Board of Education Bonds, Series 2011-A, with an average interest rate of 4.31 percent, to refund the District's State Board of Education Bonds, Series 2003-A. The Refunding Bonds are being issued to refund the \$945,000 principal amount of the District's State Board of Education Bonds, Series 2003-A that mature on or after January 1, 2014. The net proceeds of \$914,678 (after payment of \$2,363 in underwriting fees, insurance, and other issuance costs) were placed in an irrevocable trust to call on January 1, 2014, all outstanding bonds and to pay all accrued interest on the State Board of Education Bonds, Series 2003-A. As a result, \$885,000 of the 2003-A series bonds are considered to be in-substance defeased and the liability for these bonds has been removed from the government-wide financial statements.

The Series 2003-A State Board of Education Bonds were refunded to reduce its total debt service payments over the next ten years by approximately \$54,392 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$26,718.

On May 03, 2012, the Board issued \$149,015,000 in Certificates of Participation, Series 2012-B, with an average interest rate of 4.21 percent, to refund the District's Certificates of Participation, Series 2002A and a portion of the District's Certification of Participation, Series 2004A. The Refunding Certificates are being issued to refund the \$153,995,000 principal amount of the District's Certificates of Participation, Series 2002A and 2004A, that mature on or after August 1, 2014. The net proceeds of \$163,664,600, (after payment of \$1,110,889 in underwriting fees, insurance, and other issuance costs) were placed in an irrevocable trust to call on August 01, 2012, all outstanding future debt payments on the Certificates of Participation, Series 2002A and 2004A. As a result, \$153,995,000 of the 2002A and 2004A series COPS are considered to be in-substance defeased and the liability for these bonds has been removed from the government-wide financial statements.

The Series 2002A and 2004A Certificates of Participation were refunded to reduce its total debt service payments over the next sixteen years by approximately \$12,348,470 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$9,963,945.

On May 16, 2012, the Board issued \$16,240,000 in Certificates of Participation, Series 2012-C, with an average interest rate of 3.09 percent, to refund the a portion of the District's Certification of Participation, Series 2004A. The Refunding Certificates are being issued to refund the \$15,775,000 principal amount of the District's Certificates of Participation, Series 2004A, that mature on or after August 1, 2014. The net proceeds of \$17,214,551, (after payment of \$619,580 in underwriting fees, insurance, and other issuance costs) were placed in an irrevocable trust to call on August 01, 2014, all outstanding future debt payments on the Certificates of Participation, Series 2004A. As a result, \$15,775,000 of the 2004A series COPS are considered to be insubstance defeased and the liability for these bonds has been removed from the government-wide financial statements.

The Series 2004A Certificates of Participation were refunded to reduce its total debt service payments over the next ten years by approximately \$1,661,668 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$1,623,216.

In prior years, the District defeased Certificates of Participation, Series 1991A, Series 1993A, 1999A and a portion of the Certificates of Participation, Series 1995A, 1996A and 2002A by creating separate irrevocable trust funds. New debt was issued and the proceeds were used to purchase U.S. Government securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and, therefore, removed as a liability from the District's long-term debt. As of June 30, 2012, the amount of defeased debt outstanding is \$108,530,000.

NOTE 9: FUND BALANCE REPORTING

The District has adopted GASB Statement No.54 as part of its fiscal year reporting. The intention of the GASB is to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The District has inventories and prepaid items that are considered nonspendable. The District does not have any nonspendable funds related to endowments.

In addition to the nonspendable fund balance, GASB Statement No.54 has provided a hierarchy of fund balances, based on a hierarchy of spending constraints.

- **Restricted**: Fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- **Committed**: Fund balances that contain self imposed constraints of the government from its highest level of decision making authority.
- **Assigned**: Fund balances that contain self imposed constraints of the government to be used for a particular purpose.
- Unassigned: Fund balance of the General Fund that is not constrained for any particular purpose.

The District has classified its fund balances with the following hierarchy:

Nonspendable: The District has inventories and prepaid items totaling \$2,532,214 that are classified as nonspendable.

The District has classified the fund balances as *Restricted, Assigned*, and *Unassigned* and considered each to have been spent when expenditures are incurred. The District does not have a policy regarding the commitment or assignment of fund balances, however, the Board has given the ability to assign fund balance to the Executive Director of Business Services. As such, the District does not report any committed fund balance. When restricted, assigned, and unassigned funds are available for use, the District's procedures are to use the restricted funds first, followed by the assigned funds and then the unassigned funds.

• Restricted for State Required Carryover Programs, Food Services, Debt Service, and Capital Projects:

Federal laws, Florida Statutes and local ordinances require that certain revenues be specifically designated for the purposes of State required carryover programs, food service, debt service, and capital projects. These funds have been included in the *Restricted* category of fund balance. The restricted fund balances totaled \$204,634,422 and represented \$14,139,594 in State required carryover programs, \$17,635,979 in food service, \$2,818,243 in debt service and \$170,040,606 in capital projects.

Assigned for State and Local Programs:

The assigned fund balances total \$11,022,864. The Executive Director of Business Services has assigned in the General Fund the State and Local Programs of \$6,994,733 and School Rollover Budgets of \$2,830,663. In accordance with GASB Statement No.54, the District reports outstanding encumbrances, of \$1,197,468, that have not been previously reported as restricted or assigned.

• Unassigned:

The unassigned fund balance in the General Fund is \$116,160,720.

NOTE 10: SCHEDULE OF STATE REVENUE SOURCES

The following is a schedule of the District's State revenue for the 2011-12 fiscal year:

Source	A	mount
Florida Education Finance Program	\$	89,072,529
Categorical Educational Programs:	т	
Class Size Reduction		94,203,723
Workforce Development Program		10,159,251
Discretionary Lottery Funds		275,950
Charter School Capital Outlay Funding		4,167,303
Motor Vehicle License Tax (Capital Outlay and Debt Service)		3,283,838
Mobile Home License Tax		472,464
Food Service Supplement		582,536
Racing Commission Funds		223,250
Miscellaneous		6,806,551
	·	
Total	\$	209,247,395

Accounting policies relating to certain State revenue sources are described in Note 1.

NOTE 11: PROPERTY TAXES

The following is a summary of millages and taxes levied on the 2011 tax roll in fiscal year 2011-2012:

Mills		Amount
		_
5.606	\$	322,286,707
0.748		43,002,222
<u>-</u>		
1.500		86,234,403
7.854	\$	451,523,332
	5.606 0.748	5.606 \$ 0.748

NOTE 12: STATE RETIREMENT PROGRAMS

All regular employees of the District are covered by one of two retirement plans maintained by the Florida Retirement System – A State-administered cost-sharing multiple employer defined benefit retirement plan (Plan), or a State-administered defined contribution plan (PEORP).

All retirement plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein benefits are defined and described in detail.

Essentially, all regular employees of participating employers are eligible to enroll in either of the two retirement plans. Employees who do not choose a retirement plan are automatically enrolled in the FRS Pension Plan. A member of the FRS Pension Plan's retirement pension benefit vests after six years of service. Members are eligible for normal retirement benefits at age 62 with six years of service, or at any age after thirty years of service and which may include up to four years of credit for military service. For normal retirement, benefit payments are based on the member's best five-year average annual salary (average final compensation) times the number of years of service, and multiplied by a percentage ranging from 1.60 percent at either age 62 or with thirty years of service to 1.68 percent at age 65 or with thirty three years of service. Members may individually elect to receive decreased monthly benefits during their lifetime in order to provide survivor benefits to a spouse or dependent. Members are eligible for early retirement after six years of creditable service, but before age 62; however, normal benefits are reduced by five percent for each year a member retires before age 62.

Effective July 1, 1998, a Deferred Retirement Option Program (DROP) was established subject to provisions of Section 121.091, Florida Statutes. It permits employees eligible for normal retirement under the FRS Pension Plan to defer receipt of monthly benefit payments while continuing employment with a Florida Retirement System employer. An employee may participate in DROP for a period not to exceed sixty months after electing to participate, except that certain instructional personnel may participate in DROP for up to ninety six months upon authorization from the District's Superintendent. During the period of DROP participation, deferred monthly benefits are held in the Florida Retirement System Trust Fund and accrue interest.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the PEORP in lieu of the Plan. District employees participating in the DROP are not eligible to participate in the PEORP. Employer contributions are defined by law; however, the ultimate benefit depends in part on the performance of investment funds. The PEORP is funded by employer contributions that are based on salary and membership class (Regular Class, Elected County Officers, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the PEORP vest after one year of service. There were 1,716 District participants during the 2011-12 fiscal year. Contributions made to the PEORP totaled \$5,329,278, which equaled the required contributions.

The Florida Retirement System provides benefits in addition to the retirement pensions described above. Benefits include post-retirement payments for health care insurance, cost of living supplements and, for certain retirees, a supplement to cover social security benefits lost by virtue of retirement system membership. Members are eligible for in-line-of-duty disability benefits from the first day of employment, or regular disability benefits after eight years of service. Disability benefit payments are calculated in the same manner as retirement benefits, except that disability benefits are not less than 42 percent of the member's average final compensation for disability incurred in the line of duty and not less than 25 percent of the average final compensation for regular disability. Survivors of members who die in the line of duty are entitled to a monthly benefit equal to one-half of the member's monthly salary at death. Survivors of members whose death is other than in the line of duty may elect to either receive benefits as if the member had retired on the date of death and had opted to provide survivor benefits, or defer benefits to a later date and receive payments as if the member had retired at that later date.

Benefits described above are in summary form. Accordingly, not all conditions, limitations, and restrictions are mentioned.

The retirement plans' financial statements and other supplemental information are included in the comprehensive annual financial report of the State of Florida, which may be obtained from the Florida Department of Financial Services. Also, an annual report on the retirement plans, which includes the financial statements, required supplementary information, the actuarial report, and other relevant information, may be obtained from the Florida Department of Management Services, Division of Retirement.

Funding Policy

The contribution rates for retirement plan members are established, and may be amended, by the State of Florida. During fiscal year 2011-2012, contribution rates for the FRS Pension Plan and the FRS Investment Plan were as follows:

Class	Employer Contribution (Percent of Gross Salary)
Florida Retirement System, Regular	4.91
Florida Retirement System, Regular Florida Retirement System, Elected County Officers	11.14
Florida Retirement System, Senior Management Service	6.27
Deferred Retirement Option Program	
(Applicable to members from all of the above classes)	4.42
Florida Retirement System, Re-Employed Retiree, Regular	4.91

Note: Employer rates include the post-employment health insurance supplement of 1.11 percent. The District's fiscal year 2011-2012 payrolls subject to FRS employer contributions for all employees totaled \$385,762,744. Required contributions made to the Florida Retirement System for fiscal years June 30, 2010; June 30, 2011; and June 30, 2012, totaled \$37,492,245; \$41,623,140 and \$29,314,888 respectively which were equal to the required contributions for each fiscal year.

Effective July 1, 2011, all members of the FRS except for DROP participants and reemployed retirees who are not eligible for renewed membership, are required to contribute 3 percent of compensation to the FRS.

NOTE 13: EARLY RETIREMENT INCENTIVE PROGRAM

As authorized by Section 1012.685, Part VII, Florida Statutes, the Board implemented Early Retirement Plans (Plans) effective July 1, 1995, July 1, 1997, and July 1, 1999. The plans were offered to eligible employees on a one-time basis until May 15, 1995, May 15, 1997, and May 15, 1999, respectively. The purpose of the Plans was to provide eligible employees, who elect to retire under the retirement provisions of the Florida Retirement System (FRS), described in Note 13, with one of several incentive options which supplement the employee's (participant's) retirement benefits. A summary of the plan eligibility, benefits, and contribution obligations for the 1995 Plan follows:

Eligibility

Participants must be 57 years of age with a minimum of five years of service with the District or 62 years of age with at least ten years of FRS service and a minimum of five years of service with the District or any age with at least thirty years of FRS service and a minimum of five years of service with the District.

Benefits

Incentive option one includes a bonus equal to twenty–five percent of the employee's final annual salary, health contribution by the District for eight continuous years, and a life insurance benefit of \$10,000.

Incentive option two includes lifetime monthly payments for five years to offset the FRS early retirement penalty of five percent per year when an employee retires prior to age 62 with less than thirty years FRS service and a life insurance benefit for the retiree's beneficiary of \$10,000.

Incentive option three includes monthly payments for five years to offset the FRS early retirement penalty of five percent per year when an employee retires prior to age 62 with less than thirty years FRS service, a health insurance contribution by the District for eight continuous years, and a life insurance benefit of \$10,000.

The amount of the bonuses (if applicable) and accumulated leave pay are paid in five annual installments into an Internal Revenue Code 457F deferred compensation plan and directed into an investment fund selected by the participant. Alternatively, the participant may elect to receive twenty-five percent of the annual installments directly with the balance going into the deferred compensation plan.

Contributions

No contributions shall be required or permitted from any participant. The annual amounts contributed by the District are the actual amounts payable to participants or on their behalf for contributions to the 457F deferred compensation plan, retirement benefits, and premiums for health and life insurance coverage.

Eligibility, benefits, and contributions are similar under the three Plans except that the 1997 Plan included only options one and three above less the \$10,000 insurance benefit plus a cost of living adjustment (as used by the FRS) for years two through five in option three. The 1999 Plan included options one and three above less the \$10,000 insurance benefit plus a cost of living adjustment (as used by the FRS) for years two through five in option three. For the 1997 and 1999 Plans, the health insurance contribution by the District is for five, not eight, continuous years.

The District reported a liability in its Statement of Net Position of \$1,264,000 to recognize the present value of its obligation to pay death benefits to, or on behalf of, these retired employees. The Board has purchased life insurance on the participants, with itself as the beneficiary, to recover costs of the 1995 Plan over time.

The District has retained an administrator to handle the receipt of contributions and the disbursements of benefits to Plan participants.

NOTE 14: OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The postemployment healthcare benefits plan is a single-employer defined benefit plan administered by the District. Pursuant to the provision of the Section 112.0801, Florida Statutes, former employees who retire from the District, and eligible dependents, may continue to participate in the District's health plan for medical and prescription coverage. The District subsidizes the premium rates paid by the retirees by allowing them to participate in the plan at the blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The postemployment healthcare plan does not issue a stand-alone report and is not included in the report of a Public Employee Retirement System or other entity.

Funding Policy

The District has not advance-funded or established a funding methodology for the annual Other Postemployment Benefit (OPEB) costs or the net OPEB obligation. For the 2011-12 fiscal year, 509 retirees received health care benefits. The District provided contributions of \$1,781,218 toward the annual OPEB cost, comprised of benefit payments made on behalf of retirees net of retiree contributions totaling \$3,406,839, which represents .96 percent of covered payroll.

Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed twenty years. The following table shows the District's annual OPEB cost for the year, the amount contributed to the plan, and changes in the District's net OPEB obligation:

Employer Fiscal Year Ending June 30	2012			
		·		
Normal Cost (service cost for one year)	\$	2,763,976		
Amortization of Unfunded Actuarial Accrued				
Liability		2,346,844		
Annual required Contribution		5,110,820		
Interest on Net OPEB Obligation		570,474		
Adjustment to ARC		(868,899)		
Annual OPEB Cost (Expense)		4,812,395		
Contribution toward the OPEB cost		(1,781,218)		
Increase in Net OPEB Obligation		3,031,177		
Net OPEB Obligation, Beginning of year		16,299,262		
Net OPEB Obligation, End of year	\$	19,330,439		

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2012, and the two preceding years, were as follows:

			Percentage	
			of	
			Annual	
Fiscal Year		Annual	OPEB Cost	OPEB
Ended	(OPEB Cost	Contributed	Obligation
June 30, 2012	\$	4,812,395	37.0%	\$19,330,439
June 30, 2011	\$	5,785,828	39.1%	\$16,299,262
June 30, 2010	\$	5,512,972	30.6%	\$12,774,763

Funded Status and Funding Progress

The funded status of the plan as of January 01, 2012, the most recent actuarial valuation date, was as follows:

Actuarial Accrued Liability (a)	\$ 43,272,582
Actuarial Value of Plan Assets (b)	-
Unfunded Actuarial Accrued Liability (c)=(a-b)	\$ 43,272,582
Funded Ratio (b/a)	0.0%
Covered Payroll (Active Plan Members) (d)	\$ 354,935,521
· · · · · · · · · · · · · · · · · ·	

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare costs trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projection of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the type of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effect of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Compared to the previous valuation, the Unfunded Actuarial Accrued Liability and the Annual OPEB Cost decreased significantly. One factor that contributed to this change was the total cost of coverage for retirees decreased from \$478 per subscriber per month (as expected for the calendar year 2009) to \$524 per subscriber

per month for the year beginning January 1, 2012. This is lower than the \$560 per subscriber per month previously projected for this year. This change had a decreasing effect on the cost and liability. That effect was amplified by faster increases in contribution requirements. These two changes had a significant decreasing effect on the results of this valuation. Another factor that contributed to this change was the number of retirees currently covered under the health plan decreased from 570 in the last valuation to 509 in the current valuation. At the same time, the number of active employees increased from 9,193 to 9,397. These population changes combined with modest increases in premium amounts collected from retirees had a modest impact on the cost and liability resulting from this valuation.

In the January 1, 2012 OPEB actuarial valuation, entry age actuarial cost method was used. This method was selected because it produced the lowest OPEB liability and annual cost. Because the OPEB liability is currently unfunded, the actuarial assumptions include a 3.5 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also includes an inflation rate of 3 percent per year, a payroll growth of 4 percent per year, and an annual healthcare cost trend rate of 8.5 percent for the 2011-12 fiscal year, reduced by .5 percent per year, to a set rate of 5.0 percent in 2020 and thereafter. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on a closed basis. The remaining amortization period at June 30, 2012, is 18 years.

NOTE 15: VESTED INTERESTS IN UTILITY COOPERATIVES

The District has purchased electricity since 1969 from the *Lee County Electric Cooperative, Inc.* The District's estimated vested interest in this Cooperative is \$7,505,243 at December 31, 2011 which is recorded as an asset on the statement of net position. Such interest, also referred to as capital credits, would be payable to the District over a thirty-year period should the District terminate its business relationship with the Cooperative. During the fiscal year, the District recorded the earned capital credits as other local sources revenue in the government-wide statement and recorded general revenues on the governmental fund statements as the District received capital credits. The District would receive capital credits from *Bonita Springs Water System, Inc.* or *Greater Pine Island Water Association, Inc.* only in the unlikely event that they were to permanently cease operations. During the fiscal year, the District did not record any general revenue for capital credits earned from *Bonita Springs Water System, Inc* or *Greater Pine Island Water Association, Inc.*

NOTE 16: RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Property, workers' compensation, automobile liability, and general liability coverage are self-insured up to specified limits. The District purchases policies with various insurance companies to provide coverage excess of claims amounts above the stated self-insured retention deductible on any individual/aggregate claim. The District has contracted with a third-party administrator to administer the property/casualty program, including the processing, investigation, and payment of claims.

The District provides health coverage through a self-insurance program administered by an outside provider. The District reports the self-insurance programs in the Internal Service Funds. Amounts are transferred from various funds to the Internal Service Funds to provide sufficient resources to cover claims incurred, to pay for the purchase of excess insurance, and to pay the insurance services agent's administrative fees.

There have been no significant reductions in insurance coverage. Settled claims resulting from risks described above have not exceeded commercial insurance coverage for the past three fiscal years.

A liability in the amount of \$12,268,296 was actuarially determined to cover outstanding claims and estimated incurred but not reported insurance claims payable for the Self-Insurance-Casualty, Liability and Workers' Compensation Fund, at June 30, 2012. A liability in the amount of \$10,013,328 was actuarially determined to cover outstanding claims and estimated incurred but not reported insurance claims payable for the Self-Insurance-Health Insurance Fund, at June 30, 2012.

The following schedule represents the change in claims liability for the past two fiscal years for the District's self-insurance programs:

Casualty, Liability, Workers' Compensation Self Insurance Fund:

	Beginning of Fiscal Year Liability	and	nt-Year Claims Changes in Estimates	Claims Payments	Balance at Fiscal Year-End		
2010 –11	\$ 11,278,661	\$	6,208,680	\$ (5,602,180)	\$	11,885,161	
2011 –12	\$ 11,885,161	\$	6,699,649	\$ (6,316,514)	\$	12,268,296	

Health Insurance Self Insurance Fund:

	Beginning of Fiscal Year Liability		an	ent-Year Claims d Changes in Estimates	Claims Payments	Balance at Fiscal Year-End		
2010 –11	\$	10,416,549	\$	57,997,032	\$ (59,418,166)	\$	8,995,415	
2011 –12	\$	8,995,415	\$	65,038,426	\$ (64,020,513)	\$	10,013,328	

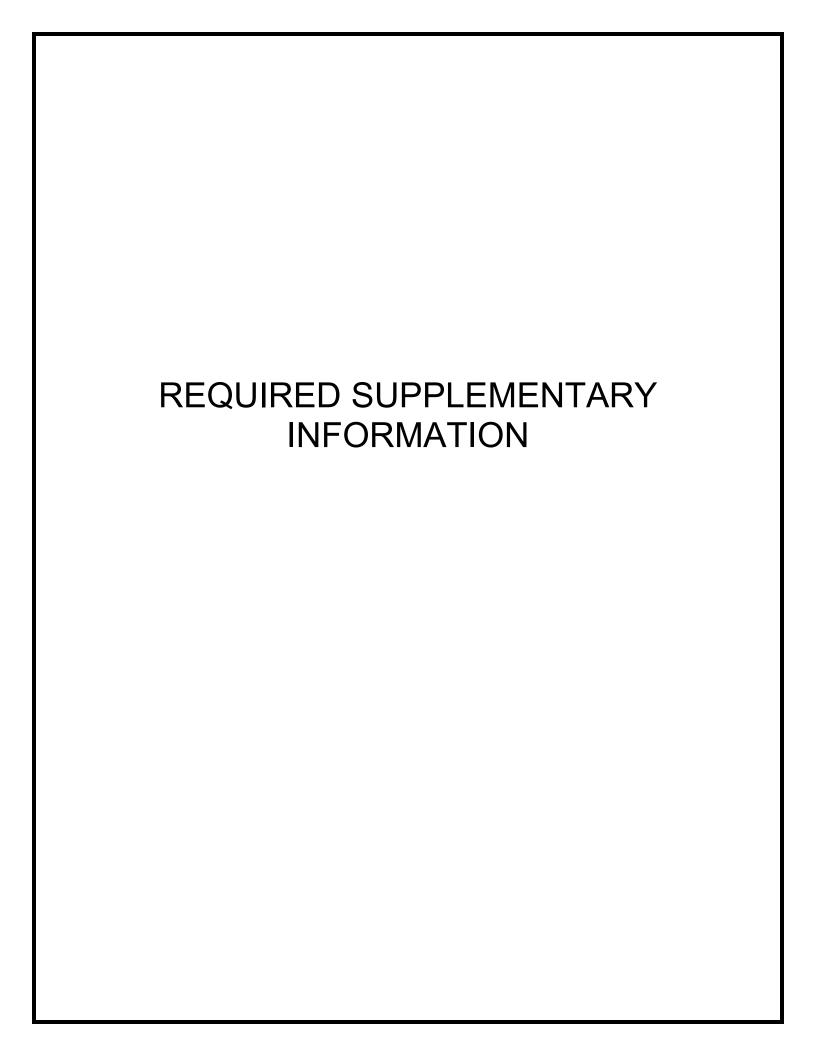

NOTE 17: LITIGATION

The District is contingently liable with respect to lawsuits and other claims that arise in the ordinary course of its operation. Management believes that any liability arising from such claims would be immaterial to the financial statements.

NOTE 18: SUBSEQUENT EVENTS

On September 27, 2012, the District borrowed \$1,447,460 with Banc of America Public Capital Corp. with an interest rate of 1.64% and final maturity on September 27, 2022. The purpose of this loan was to complete energy efficiency measures at various school sites.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Two special revenue funds account for certain revenues derived from the State of Florida, the Federal Government, and other local and private sources which are required to finance restricted activities. Activities included within the funds are as follows:

Contracted Programs Fund: To account for and report on activities of various programs of different funding sources according to the specifications and requirements of each funding source.

Food Service Fund: The account for and report on activities of the Food Service Program in serving breakfast and lunch at the schools.

Debt Service Funds

One debt service fund is used to account for the payment of interest and principal of the current portion on long-term debt.

State Board of Education Bonds Fund (SBE/COBI): To account for and report on payment of principal, interest, and related costs on the State School Bonds issued by the State Board of Education on behalf of the District. These bonds are payable from the District's portion of the State-assessed Motor Vehicles License Tax.

(continued)

NONMAJOR GOVERNMENTAL FUNDS (continued)

Capital Projects Funds

Two capital projects funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings or additions to existing buildings, or for major renovation projects. Specific funding sources are:

Public Education Capital Outlay (PECO) Fund: To account for and report on funds received from the State for the construction and maintenance of schools.

Capital Outlay and Debt Service Fund: To account for and report on the excess dollars from the debt service funds, used for construction and maintenance of schools.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department to other departments within the District on a cost reimbursement basis. The following funds are included in the Internal Service Funds:

Health: To account for and report on funds received for and used to pay for medical benefits issued under the District's self-insured health program.

Other (Casualty, Liability, and Worker's Compensation): To account for and report on funds received for and used by the District's self-insured property, casualty, liability, and worker's compensation program.

STATISTICAL SECTION

This part of the School District of Lee County, Florida's comprehensive annual financial report presents detail information as a context for understanding what the information in the financial statements, notes disclosures and required supplementary information says about the School District's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenues sources, the property tax.

Debt Capacity

The schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

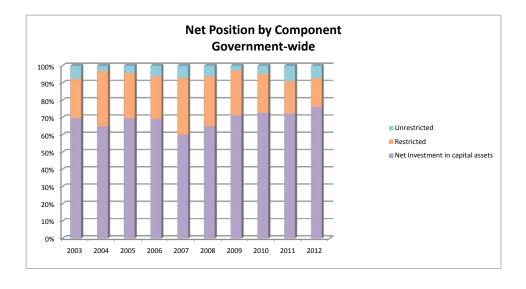

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Note:

Property Taxes become due and payable on November 1st of each year. A four percent (4%) discount is allowed if taxes are paid in November, with the discounts declining by one percent (1%) each month thereafter. Accordingly, taxes collected will never be 100% of the tax levy. Taxes become delinquent on April 1st of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold not later than June 1st of each year.

Notes:

- (1) <u>Basis of Presentation.</u> The schedule of Expenditures of Federal Awards represents amounts from Federal programs during the fiscal year as determined based on the modified accrual basis of accounting. The amounts reported on the Schedule have been reconciled to and are in material agreement with amounts recorded the District's accounting records from which the basic financial statements have been reported.
- (2) Noncash assistance: Food Distribution Represents the amount of USDA Commodities received during the fiscal year. Donated foods are valued at fair market value as determined at the time of donation

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Superintendent and Members of the School District of Lee County Fort Myers, Florida

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of School District of Lee County, Florida (the "School District"), as of and for the year ended June 30, 2012, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated December 19, 2012. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited all of the financial statements of the aggregate discretely presented component units, as described in our report on the School District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

Management of the School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the members of the School District, others within the entity, and Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Superintendent and Members of the School District of Lee County Fort Myers, Florida

Compliance

We have audited the School District of Lee County, Florida's compliance with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2012. The School District of Lee County's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of the School District of Lee County's management. Our responsibility is to express an opinion on the School District of Lee County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the School District of Lee County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the School District of Lee County's compliance with those requirements.

In our opinion, the School District of Lee County complied, in all material respects, with the compliance requirements referred to above could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the School District of Lee County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered the School District of Lee County's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District of Lee County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any defficiencies in internal control over compliance that we consider to be material weknesses, as defined above.

This report is intended solely for the information and use of management, the members of the School District, others within the entity, and Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

SECTION IV STATUS OF PRIOR AUDIT FINDINGS

Federal Award Finding No. 1: Maintenance of Effort—U.S. Department of Education, Special Education (IDEA) Cluster (CFDA Nos. 84.027, 84.173, 84.391(ARRA), and 84.392(ARRA))

Finding: For the fiscal year ended June 30, 2011, the District mistakenly included American Recovery and Reinvestment Act (ARRA) funds in its calculations, which should be excluded to demonstrate compliance. In addition, the District records did not evidence that the District met a qualified exemption from the maintenance of effort requirement. This resulted in a deficiency in maintenance of effort from State and local funds totaling \$514,035, which was subject to disallowance by the grantor.

Status: The District implemented new procedures during the fiscal year ended June 30, 2012, to ensure compliance with maintenance of effort requirements and restored the questioned costs of \$514,035 to the Special Education Cluster. The results of our testing disclosed no instances of noncompliance and thus this finding was not repeated during the current fiscal year.

Federal Award Finding No. 2: Period of Availability–U.S. Department of Education, Special Education Grants to States, Recovery Act (CFDA No. 84.391(ARRA))

Finding: For the fiscal year ended June 30, 2011, the District used grant proceeds, totaling \$526,005, to lease an online individual education plan (IEP) case management software system for the period July 1, 2010 through June 30, 2015. The grant period was from April 20, 2009 to September 30, 2011, resulting in questioned costs of \$394,504.

Status: The District implemented new procedures during the fiscal year ended June 30, 2012, to ensure compliance with period of availability requirements and requested approval for the lease with the Florida Department of Education. The results of our testing disclosed no instances of noncompliance and thus this finding was not repeated during the current fiscal year.

SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

SECTION IV STATUS OF PRIOR AUDIT FINDINGS

Federal Award Finding No. 3: Reporting—Schedule of Expenditures of Federal Awards (SEFA)—U.S. Department of Education, Special Education (IDEA) Cluster (CFDA Nos. 84.027, 84.173, 84.391(ARRA), and 84.392(ARRA))

Educational Technology State Grants Cluster (CFDA Nos. 84.318 and 84.386 (ARRA))
State Fiscal Stabilization Fund, Race to the Top Incentive Grants, Recovery Act (CFDA No. 84.395(ARRA))

State Fiscal Stabilization Fund Cluster (CFDA Nos. 84.394 (ARRA) and 84.397(ARRA)) Education Jobs Fund (CFDA No. 84.410)

Finding: For the fiscal year ended June 30, 2011, the District did not properly report certain required data, contrary to *Circular A-133*.

Status: The District implemented new procedures during the fiscal year ended June 30, 2012 to ensure the accuracy of the Schedule of Expenditures of Federal Awards. The results of our testing disclosed no instances of noncompliance and thus this finding was not repeated during the current fiscal year.

AUDITOR'S MANAGEMENT LETTER

School Board and Superintendent School District of Lee County Bradenton, Florida

We have audited the financial statements of the School District of Lee County (the "District"), as of and for the fiscal year ended June 30, 2012, and have issued our report thereon dated December 19, 2012. We did not audit the financial statements of the aggregate discretely presented component units. Those financial statements of the aggregate discretely presented component units, were audited by other auditors whose reports have been furnished to us, and our opinion on the basic financial statements, insofar as it relates to the amounts included for the aggregate discretely presented component units, is based solely on the reports of the other auditors. This letter does not include the results of the other auditors' management letter comments and other matters that are reported on separately by those auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. We have issued our Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance with Requirements That Could Have a Direct and Material Effect on each Major Federal Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133, and Schedule of Findings and Questioned Costs. Disclosures in those reports and schedule, which are dated December 19, 2012, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with the provisions of Chapter 10.800, *Rules of the Auditor General*, which governs the conduct of district school board audits performed in the State of Florida and requires that certain items be addressed in this letter.

Section 10.804(1)(f)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. The status of prior year audit findings and recommendations are reported in the Summary Schedule of Prior Audit Findings.

Section 10.804(1)(f)2., Rules of the Auditor General, requires a statement be included as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Section 10.804(1)(f)3., Rules of the Auditor General, requires our audit to include a review of the provisions of Section 218.415, Florida Statutes regarding the investment of public funds. In connection with our audit, we determined that the District complied with Section 218.415, Florida Statutes.

Section 10.804(1)(f)4., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such findings.

Section 10.804(1)(f)5., Rules of the Auditor General, requires that we address violations of provisions of contracts or grant agreements, or abuse, that have an effect on the financial statements that is less than material but more than inconsequential. In connection with our audit, we did not have any such findings.

Section 10.804(1)(f)6., Rules of the Auditor General, provides that the auditor may, based on professional judgment, report the following matters that have an inconsequential effect on the financial statements considering both quantitative and qualitative factors: (1) violations of provisions of contracts or grant agreements, fraud, illegal acts, or abuse, and (2) deficiencies in internal control that are not significant deficiencies. In connection with our audit, we did not have any such findings.

Pursuant to Section 10.804(1)(f)7.a. and 10.805(6), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and review of the financial information provided by same.

Section 10.804(1)(f)8., Rules of the Auditor General, requires the auditor to state whether or not the district school board complied with transparency requirements. Section 2, Specific Appropriation 115A of Chapter 2010-152, Laws of Florida, provides that district school boards include a link on their Web Sites to the Transparency Florida Web Site. We determined that the District complied with the transparency requirements.

Pursuant to Chapter 119, Florida Statutes, this management letter is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this letter is intended solely for the information and use of the School Board, Audit Committee, management, and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties.

Bradenton, Florida December 19, 2012
