MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the School District of Lee County's Comprehensive Annual Financial Report presents management's discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2016. Please read it in conjunction with the District's financial statements, which immediately follow this section.

Financial Highlights

- The District's assets plus deferred outflows of resources exceeded its liabilities plus deferred inflows of resources by $838,365,240 at fiscal year ending June 30, 2016.
- Net position of the District increased by $23,994,600, in comparison to the 2014-15 fiscal year,
- The District's Government-wide revenues totaled $924,582,404, comprised of general revenues of $861,265,391 or 93.2 percent of the total revenues. Program specific revenues from charges for services, operating grants and contributions, and capital grants and contributions, totaled $63,317,013 or 6.8 percent of the total revenues.
- Expenses incurred by the District totaled $900,587,804 for governmental related activities. Program specific revenues offset these expenses by $63,317,013, and general revenues funded the difference.
- The District's governmental funds reported combined ending fund balances of $264,384,783 or an increase of $30,482,826 or 13 percent in 2015-16 fiscal year in comparison with the prior fiscal year.
- The unassigned fund balance of the General Fund representing the net current financial resources available for general appropriation by the Board, totaled $116,229,361, at June 30, 2016, or 16.7 percent of total General Fund expenditures.
- The General Fund total fund balance as of June 30, 2016, totaled $140,178,961, an 8.4 percent increase in comparison to the 2014-15 fiscal year total of $129,284,121. The increase in total fund balance of the General Fund is mainly attributed to the increase in property tax revenues of $18,532,812.

Overview of the Financial Statements

The Financial Section of this Comprehensive Annual Financial Report consists of three parts: Management's Discussion and Analysis, the Basic Financial Statements, and other supplementary section that presents combining statements for Nonmajor Governmental Funds, Internal Service Funds, and Component Units. The Basic Financial Statements include several statements that present different views of the District:

- The first two statements are *Government-wide Financial Statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *Fund Financial Statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the Government-wide statements.
- The *Governmental Funds Statements* tell how basic services, such as regular and special education, were financed in the *short-term* as well as what remains for future spending.
- The *General Fund's Statement of Revenues, Expenditures and Changes in Fund Balance - Budget vs. Actual* is presented for the primary operating fund of the District.
- The *Special Revenue Fund – Federal Economic Stimulus Statement of Revenues, Expenditures and Changes in Fund Balance - Budget vs. Actual* is presented for the fund that accounts for the resources received and expended under the American Recovery and Reinvestment Act of 2009.
- The *Proprietary Funds Statements* offer *short-term* and *long-term* financial information about the activities the District operates as Internal Service Funds, for self-insurance.
- The *Fiduciary Funds Statement* provides information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others.

The Basic Financial Statements also include notes that explain information in the statements and provide more detailed data. The statements are followed by a section of other supplementary information that further explains and supports the Basic Financial Statements with combining and individual fund statements that provide details about the Nonmajor Governmental Funds. Combining statements for the District's discretely presented component units are also included. Also, the other supplemental section includes schedules of budget vs. actual for each governmental fund. Figure A-1 on the following page shows how the various parts of this report are arranged and related to one another.

All revenues and expenses during the year, regardless of when cash is received or paid.	All additions and deductions during the year, regardless of when cash is received or paid.

Government-Wide Statements

The Government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid. The two Government-wide statements report the District's *net position* and *how they have changed.* Net position (the difference between the District's assets and deferred outflows less liabilities and deferred inflows) are one way to measure the District's financial health or *position.*

- Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.

- To assess the District's overall health, additional nonfinancial factors, such as changes in the District's property tax base and the condition of the school buildings and other facilities, must be considered.

In the Government-wide statements, the District's activities are divided into two categories:

Governmental Activities: Most of the District's basic services are included here, such as student instruction, transportation, maintenance and operations, and administration. Property taxes and State aid finance most of these activities. The Lee County School Board Leasing Corporation (Leasing Corporation) although legally separate, was formed December 17, 2003, to facilitate financing for the acquisition of facilities and equipment. Due to a substantive economic relationship between the District and the Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government. Separate financial statements for the Leasing Corporation are not published.

Component Units: The District includes 21 other entities in its report – The Foundation for Lee County Public Schools, Inc., Accelerated Educations Services, Inc., Bonita Springs Preparatory and Fitness Academy, Inc., Bonita Springs Charter School, Cape Coral Charter School, Cape Preparatory and Fitness Academy, Inc., City of Palms Charter High School, Inc., Coronado High School, DJB Technical Academy, Inc., Fort Myers Preparatory and Fitness Academy, Inc., Gateway Charter School, Gateway Intermediate Charter School, Gateway Charter High School, Goodwill L.I.F.E. Academy, Island Park Charter High School, Inc., The Island School, Inc., Northern Palms Charter High School, North Nicholas High School, Palm Acres Charter High School, Inc., Pivot Charter High School, and Six Mile Charter Academy. Although legally separate, these "component units" are important because the District is financially accountable.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices used to track specific sources of funding and spending on particular programs.

- Some funds are required by State law and bond covenants.

- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts), or to show that it is properly using certain revenues (such as Federal grants).

The District has three kinds of funds:

Governmental Funds

Most of the District's basic services, such as instruction and facilities services, are included in governmental funds. These funds generally focus on 1) how cash and other financial assets can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds statement provides a detailed, short-term view that assists the reader in determining whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, a reconciliation is provided for both the governmental fund balance sheet and the statement of revenues, expenditures, and changes in fund balance which explains the relationships and/or differences between the funds.

Proprietary Funds

Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the Government-wide statements. The District uses two *Internal Service Funds* (a type of proprietary fund) to report activities that provide self-insurance services for its other programs and activities.

Fiduciary Funds

The District is the trustee, or *fiduciary,* for assets that belong to others, such as the student activity funds. The District is responsible for ensuring that the assets reported in these funds are used only for the intended purposes. The District excludes these activities from the Government-wide statements because it cannot use these funds to finance its operations.

Financial Analysis of the District (Primary Government) as a Whole

Net Position. The District's *combined* net position was smaller on June 30, 2016, than the previous fiscal year; increasing $24 million to $838.4 million (see Figure A-3) primarily due to an increase in property tax revenue. By far, the largest portion of the District's net position, $851.5 million (101.6 percent) reflects its net investment in capital assets (e.g., land, construction in progress, buildings, improvements, equipment, motor vehicles, software and audio visual materials). The District uses these capital assets to house and educate the students of Lee County, Florida; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position, $144.3 million (17.2 percent), represents resources that are subject to external restrictions on how they may be used. The remaining net position, $(157.4) million ((18.8) percent), is unrestricted assets. Unrestricted net position may be used to meet the government's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the District is not able to report positive balances in all categories of net position.

The District's improved financial position is the product of many factors, but the most significant increases are due to:

- An increase in property tax revenue; and
- An increase in grant revenue.

Changes in Net Position. The District's total revenue increased 5 percent to $924.6 million (see Figure A-4). Property taxes and grants and contributions, accounted for most of the District's revenue, contributing about 92 cents of every dollar raised (see Figure A-5). The remainder came from capital grants and contributions, operating grants and contributions, fees charged for services, investment earnings and other sources.

The total cost of all programs and services increased 1.2 percent to $900.6 million. Approximately 89 percent of the District's expenses are related to student instruction, student services, facilities services, transportation, operation of plant and maintenance of schools (see Figure A-6). The District's administrative activities, including school administration, accounted for 11 percent of total costs. The $14.5 million increase in instruction costs was derived largely from salary increases and benefits, in this case for teachers and other educational staff.

Total revenues surpassed expenses, increasing net position $24 million and contributing to the District's improved financial condition.

Governmental Activities

Revenues for the District's governmental activities increased 5 percent, while expenses increased 1.2 percent. The increase in net position for governmental activities was $24 million in 2016. The major impact to revenue was the increase in property tax revenue of $25.4 million.

Figure A-7 presents the cost of the District's activities. The table also shows each activity's *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the taxpayers by each of these functions.

Total	$ 890.2	$ 900.6	1.2%	$ (833.6)	$ (837.3)	0.4%

The cost of all governmental activities this year was $900.6 million.

Part of the cost was financed by the users of the District's programs ($13.2 million).

The Federal and State governments subsidized certain programs with grants and contributions ($50.1 million).

However, most of the District's costs ($837.3 million) were financed by District and State taxpayers. This portion of governmental activities was financed with $485.2 million from property taxes and $361.1 million of unrestricted Florida Education Finance Program funds based on the statewide education aid formula, and other federal, state, and local sources.

Financial Analysis of the District's Funds

The focus of the governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. As the District completed the fiscal year, its governmental funds reported combined fund balances of $264.4 million, which is above last fiscal year's ending fund balances of $233.9 million. Unassigned fund balance of $116.2 million represents 44 percent of the ending fund balances and is available to meet the District's short-term spending needs. The remainder of fund balance is non-spendable, restricted or assigned to indicate that it is not available for new spending, because it is: 1) to liquidate inventory and prepaid items of $3.6 million; 2) restricted by Federal law, State statute and local ordinance of $142.9 million; and 3) assigned for State and Local programs of $1.7 million.

Five of the eleven Governmental Funds had more revenue and other financing sources than expenditures and other financing uses in 2016, thereby contributing to the increase in total fund balance. Most significantly, $8 million of the Capital Projects Fund Local Capital Improvement Tax fund balance increased because current year resources were not expended in the current year due to conservative spending. Some funds reflect decreases ($.5 million) in fund balance. The Capital Projects Fund Capital Outlay and Debt Service fund balance decreased $.3 million due to capital outlays connected with construction remodeling and renovation of various schools were expended in the current year using prior year resources..

The *General Fund* is the District's chief operating fund. At the end of the current fiscal year, unassigned fund balance of the General Fund was $116.2 million, while total fund balance reached $140.2 million. During the current fiscal year, the fund balance of the General Fund increased by $10.9 million. A key factor in this increase was a $18.5 million increase in Property Tax revenue.

The *Special Revenue Fund Federal Economic Stimulus* is used to account for the resources generated by Federal Stimulus funds for use in key education areas such as instruction of students with disabilities, services for low-income students and the stabilization of local funding. Because grant revenues are not recognized until expenditures are incurred, this fund generally does not accumulate a fund balance.

The *Debt Service Fund Certificates of Participation* is used to account for the resources accumulated and payments made for principal, interest, and related costs on the long-term Certificates of Participation. The restricted fund balance at the end of fiscal year 2015 was $.3 million, a decrease of $.1 million from the prior fiscal year. The decrease is related to debt service payments the District made in early fiscal year 2016 with fiscal year 2015 resources.

The *Debt Service Fund ARRA Economic Stimulus* is used to account for the resources accumulated and payments made for principal, interest, and related costs on the long-term Qualified School Construction Bond (QSCB). The restricted fund balance at the end of fiscal year 2016 was $9.1 million, an increase of $1.8 million from the prior fiscal year due to the accumulated principal payments required to be deposited into a sinking fund until fiscal year 2028 when the debt will be paid.

The *Capital Projects Fund Local Capital Improvement Tax* is used to account for the resources generated by the local capital improvement tax to be used for educational capital outlay needs. At June 30, 2016, the total fund balance was $54.2 million, an increase of $8 million from the prior fiscal year due to conservative spending.

The *Capital Projects Fund Certificates of Participation/Impact Fees/State Grants* is used to account for the resources generated by various sources for educational capital outlay needs, including new construction and renovation and remodeling projects as specified in statute, ordinance, or contract. The total fund balance for this fund at the end of the current fiscal year was $37.7 million, an increase of $8.1 million from the prior fiscal year due to conservative spending.

General Fund Budgetary Highlights

Over the course of the fiscal year, the District revised the annual budget several times. These budget amendments generally fall into two categories:

Amendments Related to Changes in Revenue Estimates.

Throughout the school year, the District received revised calculations in the FEFP (Florida Education Finance Program – the funding formula for Florida school districts), based on changes in student counts, State revenue estimates, and local tax roll estimates. With each calculation, the budget is amended to reflect the current revenue estimates provided in the FEFP. The District will also amend revenues in the General Fund for new State grants and changes in local revenue sources, such as interest and indirect cost revenue. The District budgets 96 percent of projected property tax revenues at the onset of each budget year, as required by law, and collections are generally higher. Revenue from property taxes was greater than the final amended budget by $1.4 million due to a higher collection rate.

Amendments to Modify Appropriations.

Throughout the fiscal year, the District may increase appropriations for new grants and unanticipated expenditures, such as hurricane damage.

Each school and department is allowed to modify its existing budget to meet its operational needs throughout the school year. An example of this type of amendment would be to move appropriations from purchased supplies to textbooks in order to acquire new textbooks for the art class.

Budgeted expenditures were increased $6.9 million from the original budget to the final amended budget primarily due to the rise in facility maintenance costs.

- Although the District's final budget for the General Fund anticipated that expenditures would exceed revenues and other financing sources by approximately $98 million, the actual results for the fiscal year show that expenditures exceeded revenues by $1.8 million.

- The actual expenditures were $89 million below budgeted levels. Actual expenditures for instruction were more than $48.7 million below budgeted levels due to conservative spending at the schools.

- Actual expenditures for transportation and operation of plant were $20.3 million below budgeted levels due to conservative spending.

Capital Assets and Debt Administration

Capital Assets

By the end of the 2015-16 fiscal year, the District had an investment of $1,252.3 million, net of accumulated depreciation, in a broad range of assets, including land, school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices (see Figure A-8). This amount represents a net decrease of $37.5 million, or 2.9 percent, from last fiscal year. Additions to furniture, fixtures and equipment and motor vehicles, amounted to $9.9 million for the fiscal year. Total depreciation expense for the year was $49.6 million. (More detailed information about capital assets can be found in Note 5 to the Basic Financial Statements.)

The District's approved five-year Capital Outlay Plan includes the construction of two new high schools and one new elementary school over the next five years. The District's student enrollment has grown over the last several years, 7.7 percent since 2012 for a present enrollment of 90,069 students.

The District's capital projects budget shows spending another $169.3 million in the 2016-17 fiscal year for capital projects, principally in four areas:

1) $16.6 million to purchase new school buses.

2) $24 million to continue the upgrade of technology equipment.

3) $44.6 million to continue the maintenance of existing schools.

4) $33 million to begin the construction of one new high school.

Long-Term Debt

At fiscal year-end, the District had $390.9 million in COPS, SBE bonds, and Notes outstanding, a decrease of 6.6 percent from last fiscal year, as shown in Figure A-9. (More detailed information about the District's long-term liabilities is presented in Note 7 to the Basic Financial Statements.)

Factors Bearing on the District's Future

At the time these financial statements were prepared, the District was aware of three existing circumstances that could significantly affect its financial health in the future:

- Property tax roll increased over 9 percent for 2017, another very positive economic indicator for our county. This increase was the fourth increase in the tax roll since 2008.

- Local property taxes are currently the lone substantial source of funding in the capital plan. Despite the increase in the tax roll, the previous losses of capital millage and other state capital funding are continuing to take its toll on the five year capital budget outlook. With a growing need for additional seats due to student growth, increased need for maintenance at our existing buildings, and anticipated need for additional technology and technology infrastructure at our schools to fulfill testing mandates and educational needs, the current capital revenue does not meet the current need. The District is actively working to creatively identify and obtain revenue from other sources to supplement current revenue.

- Both the Support Personnel Association of Lee County (SPALC) and the Teachers Association of Lee County (TALC) are currently in negotiations with the District Bargaining Team. Salary negotiations are still ongoing and any salary increase, including performance based pay must be negotiated and agreed upon by the bargaining units and the Board. The Board must provide funding for any increases in the 2017 budget.

Contacting the District's Financial Management

This Comprehensive Annual Financial Report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Director of Financial Accounting, the School District of Lee County, 2855 Colonial Blvd., Fort Myers, Florida 33966-1012.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
For the Fiscal Year Ended June 30, 2016

Total Fund Balances - Governmental Funds	264,384,783.00
Amounts reported for *governmental activities* in the statement of net position are different because:	
Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.	1,252,291,523.00
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.	75,166,475.00
Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	67,472,106.00
Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.	(820,949,647.00)
Total Net Position - Governmental Activities	838,365,240.00

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2016

Net Change in Fund Balances - Governmental Funds	30,482,826.00
Amounts reported for *governmental activities* in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as a depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period.	(37,071,378.00)
The statement of activities reflects only the gain/loss on the sale of assets, whereas the governmental funds include all proceeds from these sales. Thus, the change in net position differs from the change in fund balances by the cost of assets sold.	(413,984.00)
Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	150,856.00
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which proceeds exceeded repayments in the current period.	28,584,284.00
Expenses in the statement of activities that do not require the use of current financial resources are not reported in the governmental funds.	7,397,409.00
Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities.	(5,135,413.00)
Change in Net Position of Governmental Activities	23,994,600.00

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

Reporting Entity

The District School Board of Lee County (Board) has direct responsibility for operation, control, and supervision of the School District of Lee County (District) and is considered a primary government for financial reporting. The District is part of the Florida system of public education under the general direction of the State Board of Education. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools (Superintendent) is the executive officer of the District. The general operating authority of the Board and the Superintendent is contained in Chapters 1000-1013, Florida Statutes. Geographic boundaries of the District correspond with those of Lee County, Florida.

Pursuant to Section 1010.51, Florida Statutes, the Superintendent is responsible for keeping records and accounts of all financial transactions in the manner prescribed by the State Board of Education.

For financial reporting purposes, the accompanying financial statements include all of the operations over which the District is financially accountable. The District is financially accountable for organizations that make up its legal entity, as well as legally separate organizations that meet certain criteria. In accordance with GASB 14, "The Financial Reporting Entity," as amended by GASB 39, "Determining Whether Certain Organizations Are Component Units" and GASB 61, "The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34", the criteria for inclusion in the reporting entity involve those cases where the District or its officials appoint a voting majority of an organization's governing body and is either able to impose its will on the organization and there is a potential for the organization to provide specific financial benefits to or to impose specific financial burdens on the District or the nature and significance of the relationship between the District and the organization is such that exclusion would cause the District's financial statements to be incomplete. Based on the application of these criteria, District management has determined that the following five charter schools are not component units: Florida Southwestern Collegiate High School, Oasis Elementary School, Oasis Middle School, Christa McAuliffe Elementary School, and Oasis High School. Each of these charter schools are operated and reported as a component unit by a government entity other than the District.

Based on the application of the criteria, the following component units are included within the District's reporting entity:

Blended Component Unit – Leasing Corporation

The Lee County School Board Leasing Corporation (Leasing Corporation) was formed on December 17, 2003, to facilitate financing for the acquisition of facilities and equipment. Additionally, the Corporation is legally separate from the District and the governing board of the Leasing Corporation is the District School Board. Therefore, the financial activities of the Leasing Corporation have been blended (reported as if it were part of the District) with those of the District. Separate financial statements for the Leasing Corporation are not published.

Discretely Presented Component Unit – Foundation

The Foundation for Lee County Public Schools, Inc., (Foundation) was formed for the purpose of improving the quality of education by increasing community involvement with and support for Lee County schools. Although the District does not control the timing or amount of receipts from the Foundation, the majority of resources (or

incomes thereon) that the Foundation holds and invests are restricted to the activities of the District by the donors. Because these restricted resources held by the Foundation can only be used for the benefit of the District, the Foundation is considered a component unit of the District and is discretely presented in the District's financial statements. An annual audit of the Foundation's financial statements is conducted by an independent certified public accountant and is filed in the District's administrative office.

Discretely Presented Component Units – Charter Schools

At fiscal year-end there were twenty charter schools operating within the District that met the criteria for presentation as a discretely presented component unit. All charter schools are separate, not-for-profit corporations organized and operated as charter schools under Section 1002.33, Florida Statutes to enhance the education of the Lee County students attending these schools. Charter Schools do not have the constitutional authority to levy taxes, making charter schools fiscally dependent on the District. Pursuant to Florida Statutes section 1002.33(17) students enrolled in a charter school shall be funded the same as students enrolled in other public schools in the District. The charter schools' full-time equivalent (FTE) student enrollment is the basis for the District to provide funding to the charter schools. The financing of charter schools imposes a financial burden on the District. Because charter schools are fiscally dependent and create a financial burden on the District, charter schools are considered component units of the District. Audits were performed for each Charter School for the year ended, by independent certified public accountants and are on file at the District's administrative office.

The twenty component unit charter schools in operation at fiscal year-end are listed below:

Accelerated Educational Services, Inc. - The school's charter was granted March 11, 2014, for a grade 6-8 school. As of June 30, 2016, the school was a grade 6-8 school. The school is located in Fort Myers, Florida.

Bonita Springs Preparatory and Fitness Academy, Inc. – The school's charter was granted September 23, 2008, for a grade K-8 school. As of June 30, 2016, the school was a grade K-8 school. The school is located in Bonita Springs, Florida.

Bonita Springs Charter School – The school's charter was granted December 18, 2001, for a grade K-8 school. As of June 30, 2016, the school was a grade K-8 school. The school is located in Bonita Springs, Florida.

Cape Coral Charter School – The school's charter was granted August 20, 2002, for a grade K-8 school. As of June 30, 2016, the school was a grade K-8 school. The school is located in Cape Coral, Florida.

Cape Preparatory and Fitness Academy, Inc. – The school's charter was granted May 3, 2011, for a grade K-8 school. As of June 30, 2016, the school was a grade K-8 school. The school is located in Cape Coral, Florida.

City of Palms Charter High School, Inc. – The school's charter was granted October 25, 2005, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Coronado High School – The school's charter was granted October 23, 2007, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

DJB Technical Academy, Inc. - The school's charter was granted March 12, 2013, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Fort Myers Preparatory and Fitness Academy, Inc. – The school's charter was granted October 23, 2007, for a grade K-8 school. As of June 30, 2016, the school was a grade K-8 school. The school is located in Fort Myers, Florida.

Gateway Charter School – The school's charter was granted August 20, 2002, for a grade K-8 school. As of June 30, 2016, the school was a grade K-4 school. The school is located in Fort Myers, Florida.

Gateway Intermediate Charter School – The school's charter was granted August 20, 2002, for a grade K-8 school. As of June 30, 2016, the school was a grade 5-8 school. The school is located in Fort Myers, Florida.

Gateway Charter High School – The school's charter was granted October 21, 2003, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Goodwill L.I.F.E. Academy – The school's charter was granted October 19, 2004, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Island Park Charter High School, Inc. – The school's charter was granted April 01, 2014, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

The Island School, Inc. - The school's charter was granted May 2, 2000, for a grade K-8 school. As of June 30, 2016, the school was a grade K-5 school. The school is located on Gasparilla Island in Boca Grande, Florida.

Northern Palms Charter High School - The school's charter was granted April 28, 2015, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in North Fort Myers, Florida.

North Nicholas High School - The school's charter was granted October 23, 2007, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in Cape Coral, Florida.

Palm Acres Charter High School, Inc. – The school's charter was granted March 11, 2014, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in Lehigh Acres, Florida.

Pivot Charter High School – The school's charter was granted October 20, 2009, for a grade 9-12 school. As of June 30, 2016, the school was a grade 9-12 school. The school is located in Fort Myers, Florida.

Six Mile Charter Academy – The school's charter was granted August 10, 2004, for a grade K-8 school. As of June 30, 2016, the school was a grade K-8 school. The school is located in Fort Myers, Florida.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. *Governmental activities,* which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities* that rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the District is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function (i.e., food service fees, student fees, print fees, and transportation fees), and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function (e.g., Federal food service, transportation, and Public Education Capital Outlay [PECO] grants). Taxes and other items not properly included among program revenues are reported instead as *general revenue*.

The effects of interfund activities have been eliminated from the government-wide financial statements. Interfund transactions include transactions involving the internal service funds. These transactions were eliminated by allocating the change in net position of internal services funds in direct proportion as they were charged as expenses to the various functions/programs.

Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

- *General Fund* is the District's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.

- *Special Revenue Fund – Federal Economic Stimulus* accounts for the resources received and expended under the American Recovery and Reinvestment Act of 2009 for use in key education areas such as instruction of students with disabilities, services for low-income students and the stabilization of local school district funding.

- *Debt Service Fund – Certificates of Participation* accounts for the resources accumulated and payments made for principal, interest, and related costs on the long-term Certificates of Participation.

- *Debt Service Fund – ARRA Economic Stimulus* accounts for the accumulation of resources for the payment of debt principal, interest and related costs on the Qualified School Construction Bonds.

- *Capital Projects Fund – Local Capital Improvement Tax* accounts for the resources used for the acquisition or construction of major capital facilities financed through tax levies pursuant to Section 1011.71(2), Florida Statutes.

- *Capital Projects Fund – Certificates of Participation/Impact Fees/State Grants* accounts for the resources used for the acquisition or construction of major capital facilities financed through certificates of participation, impact fees, and state capital grant proceeds.

Additionally, the District reports the following fund types:

- *Internal Service Funds* account for the self-insurance programs.
- *Agency Funds* account for resources of the school internal funds that are used to administer money collected at schools in connection with student athletic, class, and club activities.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Measurement Focus, Basis of Accounting, and Financial Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary and fiduciary fund financial statements. The agency fund is custodial in nature (assets equal liabilities) and uses the accrual basis of accounting to recognize receivables and payables. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility or expenditure requirements imposed by the provider have been met.

Governmental fund financial statements, which include the General, Special Revenue, Debt Service, and Capital Projects funds, are prepared using the *current financial resource measurement focus* and the *modified accrual basis of accounting*. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (a) principal and interest on general long-term debt is recognized as expenditures when due; and (b) claims and judgments and compensated absences are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Revenues can be classified into two kinds of transactions: (a) exchange and exchange-like transactions, in which each party receives and gives up essentially equal value and (b) nonexchange transactions, in which a government gives (or receives) value without directly receiving (or giving) equal value in exchange.

Revenue resulting from exchange transactions is recorded on the accrual basis when the exchange takes place. Revenues resulting from nonexchange transactions are further classified into (a) derived tax revenues, (b) imposed nonexchange revenues, (c) government-mandated nonexchange transactions, and (d) voluntary nonexchange transactions. Derived tax revenues (i.e.: sales tax) are recorded when the exchange transaction occurs. The District currently does not have any derived tax revenues. Imposed nonexchange transactions (i.e.: property taxes) are recorded when use of the resource is required or first permitted by time requirement (for example, for property taxes, the period for which they are levied). Government-mandated and voluntary nonexchange transactions (i.e.: Federal mandates, grants, and donations) are recorded when all eligibility requirements have been met.

When applying the susceptible to accrual concept under the modified accrual basis, resources also should be available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. The District considers property taxes to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that

the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums. Operating expenses for internal service funds include insurance claims and excess coverage premiums, and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Each of the charter schools, included as discretely presented component units, are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

The Foundation for Lee County Public Schools, Inc., shown as a discretely presented component unit, is accounted for using the accrual basis of accounting, whereby revenues are recognized when earned and expenditures are recognized when incurred.

Budgetary Basis Accounting

The following procedures, established by State Statutes and State Board of Education rules, are used by the Board in setting up final budget balances reported on the financial statements:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.

- Appropriations are controlled at the function level (e.g., instruction, student personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the Annual Financial Report. This function level is the legal level of budgetary control.

- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.

Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at year-end and encumbrances outstanding are honored from the subsequent year's appropriations. During the fiscal year ended June 30, 2016, budgets for all governmental fund types were amended to reflect adjustments to appropriations due to changes in student counts, the addition of new education programs, and other events.

Cash

Banks qualified as public depositories under Florida law hold cash deposits. All deposits are insured by Federal depository insurance and/or collateralized with securities held in Florida's multiple financial institution collateral pool required by Sections 280.07 and 280.08, Florida Statutes. The Statement of Cash Flows considers cash as those accounts used as demand deposit accounts.

Restricted Cash with Fiscal Agent

Self-insurance funds are required to establish and maintain prescribed amounts of resources (consisting of cash) that can be used only to pay insurance claims.

Investments

Investments are stated at fair value, based on quoted market prices or recognized pricing sources. Investments consist of direct obligations of the United States Treasury, corporate notes, money market funds, municipal obligations, amounts placed with the Florida Prime debt service accounts for investment of debt service moneys, and amounts placed for participation in the Florida PRIME, Florida Cooperative Liquid Asset Security System (FLCLASS) and Florida Education Investment Trust Fund (FEITF) investment pools created by Sections 218.405 and 218.417, Florida Statutes. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME, FLCLASS and FEITF which are Securities and Exchange Commission Rule 2a7-like external investment pools, as of June 30, 2016, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

Fair Value Measurement

The district categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted process in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Inventory

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on a weighted-average basis for the central stores, maintenance, transportation, and food service inventories and at last invoice price, which approximates the first-in, first-out basis, for the print shop and media/textbook inventories. United States Department of Agriculture donated foods are stated at their fair market value, as determined at the time of donation to the District's food service program by the Bureau of Food Distribution, Florida Department of Agriculture and Consumer Services. The costs of inventories are recorded as expenditures when used rather than purchased. The inventories at year-end are reported as non-spendable fund balance.

Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental funds that financed the acquisition or construction. The capital assets so acquired are reported at cost in the governmental activities column on the government-wide financial statements but are not reported in the governmental fund financial statement. The District defines capital assets as assets with an initial individual cost of $1,000 or more. Purchased or constructed capital assets are reported at cost or estimated historical cost.

Donated assets are recorded at their estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Improvements Other than Buildings	10-40
Buildings and Fixed Equipment	10-50
Motor Vehicles	5-10
Furniture Fixtures and Equipment	3-15
Audio-Visual Materials	3-5
Computer Software	5

Current year information relative to changes in capital assets is described in a subsequent note.

Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liabilities, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS's and the HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose the net pension liability is measured using the FRS Comprehensive Annual Financial Report for the 2015 fiscal year. Investment are report at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

Noncurrent Liabilities and Compensated Absences

In the government-wide financial statements and proprietary fund types in the fund financial statements, noncurrent obligations are reported as liabilities in the applicable governmental activities, or proprietary fund type Statement of Net Position. Debt premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable and Certificates of Participation are reported net of the applicable premium or discount.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances and payments to refunded bond escrow agents are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as debt service expenditures.

The liability for compensated absences reported in the government-wide and proprietary fund statements consist of unpaid, accumulated vacation and sick leave, including applicable salary-related amounts for Social Security, Medicare, and retirement contributions. The liability has been calculated using the vesting method, in which leave

amounts for employees who currently are eligible to receive termination payment and other employees who are expected to become eligible in the future to receive such payments upon termination are included. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements.

Changes in noncurrent liabilities for the current year are reported in a subsequent note.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The District has two items that qualifies for reporting in this category. The first is the deferred amount on refunding reported in the government-wide statement of net position. A deferred amount on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the deferred amount on pension reported in the government-wide statement of net position. A deferred amount on pension results from the difference in the expected and actual amounts of experience, earnings and contributions. This amount is deferred and amortized over the service life of all employees that are provided with pensions through the pension plan except earnings which are amortized over 5 years.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources,* represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. The first is the deferred amount on refunding reported in the government-wide statement of net position. A deferred amount on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the deferred amount on pension reported in the government-wide statement of net position. A deferred amount on pension results from the difference in the expected and actual amounts of experience, earnings and contributions. This amount is deferred and amortized over the service life of all employees that are provided with pensions through the pension plan except earnings which are amortized over 5 years. The third item is the unavailable revenue from the State of Florida for Capital Outlay & Debt Service revenue that qualifies as a deferred inflow of resources and it is shown in the governmental funds Balance Sheet under the modified accrual basis of accounting.

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted sources (the total of restricted, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's procedure to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, assigned fund balance is depleted first followed by unassigned fund balance.

Fund Balance/Net Position

In the fund financial statements, governmental funds report constraints on the use of fund balance for amounts that are not spendable, are legally restricted by outside parties for use for a specific purpose, or have self-imposed constraints for use for a specific purpose.

Net position in the government-wide financial statements is classified as net investment in capital assets, restricted and unrestricted. Restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors, law and regulations of other governments, or imposed by law through State statute.

Estimates

The preparation of the financial statement in conformity with generally accepted accounting principles requires the District to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Reclassifications

Certain amounts in the discretely presented component units financial statements have been reclassified in order to be consistent with the District's presentation.

State Revenue Sources

Revenues from State sources for current operations are primarily from the Florida Education Finance Program, administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE students and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE students and related data. Normally, such adjustments are treated as reductions or additions to revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is

provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that educational program revenues be accounted for in the General Fund. For selected programs, funds received that are not expended at the fiscal year-end are carried forward into the following year to be expended for the same educational programs. A portion of the fund balance of the General Fund is restricted for the balance of these educational program resources.

The State allocates gross receipts taxes, generally known as public education capital outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Education Capital Outlay funds as advanced revenue until such time as an encumbrance authorization is received. The District also received a Charter School Capital Outlay appropriation.

A schedule of revenues from State sources for the current year is presented in a subsequent note.

Property Taxes – Revenue Recognition

The Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. The Lee County Property Appraiser determines property values and the Lee County Tax Collector's office collects the property taxes.

The Board adopted the 2015 tax levy on September 08, 2015. Taxes become an enforceable lien on property as of January 1. Tax bills are mailed in October, and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to four percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment and State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing certificates to satisfy unpaid taxes. These procedures result in the collection of substantially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements in the fiscal year for which the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when the taxes are received by the District, except that revenue is accrued for taxes collected by the Lee County Tax Collector at fiscal year end which have not yet been remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued.

Millages and taxes levied for the current year are presented in a subsequent note.

Educational Impact Fees

The District receives educational impact fees based on an ordinance adopted by the Board of County Commissioners of Lee County (County) on November 27, 2001. The fee is collected by the County for new

residential construction, and can only be used to provide for the acquisition of capital assets or additions to capital assets and expenditures for site acquisition, construction design, site development, necessary off-site improvements, and equipment. Educational impact fee revenues are recognized in the government-wide and governmental fund financial statements when the fees are collected by the County.

Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to and approved by various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

NOTE 2: CASH AND INVESTMENTS

2-A. Cash Deposits

Florida Statutes authorize the deposit of District funds in demand deposits or time deposits of financial institutions approved by the State Treasurer and are defined as public deposits. All District public deposits are held in qualified public depositories pursuant to Chapter 280, Florida Statutes, the "Florida Security for Public Deposits Act." Under the act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits times the depository's collateral pledging level. The collateral pledging level may range from 50 percent to 125 percent depending upon the depository's financial condition and the length of time that the depository has been established. All collateral must be deposited with the State Treasurer. Any losses to public depositors resulting from insolvency are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessment against other qualified public depositories if the same type as the depository in default. All bank balances of the District are fully insured or collateralized. As of June 30, 2016, the carrying amount of the District's bank deposits was $112,423,580 and the respective bank balances totaled $118,327,728. As of June 30, 2016, the carrying amount of the Agency Fund's bank deposits was $1,309,631.

2-B. Investments

The District's investment policy permits investments in the Florida Prime Local Government Surplus Funds Trust Fund, Florida Cooperative Liquid Asset Security System, Florida Education Investment Trust Fund, securities of the United States Government, U.S. Government Agencies, Federal instrumentalities, interest bearing time deposit or savings accounts, repurchase agreements, commercial paper, corporate notes, bankers' acceptances, state and/or local government debt, and money market mutual funds. The District's investment advisor used the effective duration method to calculate effective duration measures for the securities held by the District. Besides measuring the sensitivity of the securities market value to changes in interest rates, the effective duration method accounts for any call (early redemption) features which a security may have.

All of the District's recurring fair value measurements as of June 30, 2016 are valued using a matrix pricing model (Level 2 inputs).

As of June 30, 2016, the District had the following investments:

Note (1) At June 30, 2016, investments totaling $9,056,048 are held under trust agreements in connection with Certificates of Participation, Series 2006A, 2008B, 2010, 2011QSCB, 2012B/C, 2013A, and 2014A/B financing agreements. (See Note 8.)

Section 218.415, Florida Statutes, limits the types of investments that a District can invest in unless specifically authorized in District policy.

2-C. Investments – Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. To limit exposure to fair value losses resulting from increases in interest rates, the District's Investment Policy limits operating funds to maturities of one year or less. Investments of reserves, project funds, debt proceeds and other non-operating funds ("core funds") shall have a term appropriate to the need for funds and in accordance with debt covenants, but in no event shall exceed five (5) years and the average duration of the funds as a whole may not exceed three (3) years.

The maturity of Florida PRIME, FLCLASS, and FEITF investment pools are based on the weighted average days to maturity (WAM). A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes. As of June 30, 2016, the WAM for Florida Prime is 39 days, FLCLASS is 56 days and FEITF is 41 days.

2-D. Investments – Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the Florida Prime Local Government Surplus Trust Fund, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating from a nationally recognized rating agency; investments in interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. Investments authorized by District policy are:

a. Florida Local Government Surplus Trust Funds. As of June 30, 2016, the District had investments totaling $165,500,804 in Florida PRIME are had an AAAm rating by Standard and Poor's and are reported at fair value; $10,009,511 in FLCLASS which had an AAAm rating by Standard and Poor's and are reported at fair value; and $10,009,917 in FEITF which had an AAAm rating by Standard and Poor's and are reported at fair value.
b. Direct Obligations of U.S. Treasury which are unconditionally guaranteed by the United States Government. The maximum length to maturity for direct obligations of US Treasuries shall be five (5) years from the date of purchase. As of June 30, 2016, the District held $73,913,182 of US Treasuries of which had an S&P rating of AA+.
c. Corporate notes purchased for investment must be issued by corporations organized and operating within the United States or by depository institutions licensed by the United States that have a long term rating, at the time of purchase, at a minimum single A category by any two nationally recognized rating agencies. The maximum length to maturity for corporate notes shall be five (5) years from the date of purchase. As of June 30, 2016, the District held $18,558,990 of corporate notes of which had an S&P rating between A and AA+.
d. Municipal Obligations purchased for investment is a general obligation or revenue obligation of any state of the United States, the District of Columbia, or any territorial possession of the United States or of any political subdivision, institution, department, agency, instrumentality, or authority of any such governmental entities, that have a long term rating, at the time of purchase, at a minimum single A category by any two nationally recognized rating agencies. The maximum length to maturity for

corporate notes shall be five (5) years from the date of purchase. As of June 30, 2016, the District held $5,521,109 of municipal obligations of which had an S&P rating between AA and AAA.

e. U.S. Federal Government Agency Securities.
f. U.S. Government - Sponsored Agencies/Federal Instrumentalities.
g. Repurchase Agreements fully collateralized at 102 percent of market value by U.S. Treasuries, U.S. Government Agencies, U.S. Government - Sponsored Agencies/Federal Instrumentalities.
h. Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency. As of June 30, 2016, the District had investments in US Bank First American Government Obligation Class Y Money Market Funds with a fair value of $104, which were rated AAAm by Standard and Poor's; and Fidelity Institutional Prime Class I Money Market Fund with a fair value of $5,467,242, which were rated AAAm by Standard and Poor's.
i. Certificates of Deposit, collateralized at 102 percent of market value, by U.S. Treasuries, U.S. Government Agencies, U. S. Government - Sponsored Agencies/Federal Instrumentalities.
j. Passbook savings accounts and interest bearing time deposits with banks organized under the laws of the State of Florida or in banks doing business in the State of Florida.

2-E. Investments – Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District's investment policy requires that all securities, with the exception of certificates of deposit, be held with a third party custodian; and all securities purchased by, and all collateral obtained by the District should be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution. A third party custodian is defined as any bank depository chartered by the Federal Government, the State of Florida, or any other state or territory of the United States which has a branch or principal place of business in the State of Florida as defined in § 658.12, F.S., or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in the State of Florida. Certificates of deposit will be placed in the provider's safekeeping department for the term of the deposit. Security transactions between a broker/dealer and the custodian involving the purchase or sale of securities by transfer of money or securities are made on a "delivery vs. payment" basis, if applicable, to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction. As of June 30, 2016, the District's investment portfolio was held with a third-party custodian.

Funds held by US Bank First American Government Obligation Class Y Money Market Fund are held pursuant to a trust agreement in connection with the issuance of various Certificates of Participation.

2-F. Investments – Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's Investment Policy specifies the maximum percentage allocation to any single investment type as well as the maximum percentage holding per issuer. Up to 100% of the portfolio may be invested in U.S. Government securities, 75% may be invested in Federal Instrumentalities (US government sponsored agencies) with no more than 25% with a single issuer and 50% may be invested in US government agencies with no more than 10% with a single issuer. Corporate Notes are limited to 20% of the portfolio with no more than 5% with a single issuer.

As of June 30, 2016, all District investments were in compliance with the District's Investment Policy and did not exceed portfolio allocation or issuer maximums.

NOTE 3: DUE FROM OTHER AGENCIES

The majority of receivables are due from other agencies. These receivables and the remaining accounts receivable are considered to be fully collectable. As such, no allowance for uncollectible accounts receivable is recorded. At June 30, 2016, the District has recorded due from other agencies as follows:

The majority of the transfers out of the Capital Projects fund were to provide debt service principal and interest payments and to assist in funding maintenance operations of the District. The remaining transfers between funds were operational in nature.

NOTE 7: NONCURRENT LIABILITIES

7-A. Certificates of Participation Payable

The District entered into several financing arrangements, characterized as lease-purchase agreements, with the Florida School Boards Association, Inc. and the Lee County School Board Leasing Corporation (lessors) whereby the District secured financing of various educational facilities. The financing was accomplished through the issuance and refunding of several series of Certificates of Participation. Issues with remaining outstanding balances include Series 2006A (original issue: $94,790,000); 2008B (original issue: $60,000,000); 2010A (original issue: $23,298,000); 2011A-QSCB (original issue: $27,009,000); Series 2012B (original issue: $149,015,000); Series 2012C (original issue: $16,240,000); Series 2013A (original issue: $25,287,000); Series 2014A (original issue: $72,340,000) and Series 2014B (original issue: $60,220,000); be repaid from the proceeds of rents paid by the District.

The American Recovery and Reinvestment Act (ARRA) of 2009, signed into law on February 17, 2009, created two new categories of direct subsidy debt for school districts. The Qualified School Construction Bonds (QSCBs) and the Build America Bonds (BABs). Neither the QSCBs or the BABs represent incremental Federal Funding, both must be repaid by the District. In June 2011, the Corporation issued Certificate Series 2011A-QSCB in the amount of $27,009,000. The Series 2011A-QSCB was issued to finance the cost of construction, installation and equipping educational facilities. The Series 2011A-QSCB Certificates are structured as taxable bonds and the District will receive a direct rebate/subsidy payment from the U.S. Treasury to offset a portion of the interest expense. The interest rate bondholders will receive is 5.48 percent and the federal subsidy is 5.02 percent, therefore the net interest cost to the District is .46 percent. Interest earnings on the proceeds will further offset this expense.

As a condition of the financing arrangement, the District has given a ground lease on District property to the lessors with a rental fee of $1 per year. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through to term, the District may be required to surrender the sites included under the ground lease agreements for the benefit of the securers of the certificates for a period of time specified by the arrangement which may be up to 2028.

The District properties included in the ground leases under these arrangements include:

7-C. Bonds Payable

The following is a description of bonded debt issues:

State School Bonds: The SBE issued these bonds on behalf of the District. The bonds mature serially and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is pledged for all of these SBE Bonds. The original amount of SBE bonds issued was $8,281,000. The State Board of Education and the SBA administer principal and interest payments, investment of debt service fund resources, and compliance with reserve requirements.

* Payments on the bonds and notes payable are made by the debt service fund. Payments on the estimated insurance claims payable are made by the Internal Service Fund. The early retirement payable and compensated absences

Internal service funds predominantly serve the governmental funds. Accordingly, noncurrent liabilities are included as part of the above totals for governmental activities. At fiscal year-end, an $18,758 liability for compensated absences in the Internal Service Fund is included in the above amounts.

NOTE 8: FUND BALANCE REPORTING

The District has adopted GASB Statement No.54 as part of its fiscal year reporting. The intention of the GASB is to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The District has inventories that are considered nonspendable. The District does not have any nonspendable funds related to prepaid items or endowments.

In addition to the nonspendable fund balance, GASB Statement No. 54 has provided a hierarchy of fund balances, based on a hierarchy of spending constraints.

- **Restricted**: Fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- **Committed**: Fund balances that contain self imposed constraints of the government from its highest level of decision making authority.
- **Assigned**: Fund balances that contain self imposed constraints of the government to be used for a particular purpose.
- **Unassigned**: Fund balance of the General Fund that is not constrained for any particular purpose.

The District has classified its fund balances with the following hierarchy:

Nonspendable: The District has inventories totaling $3,586,794 that are classified as nonspendable.

The District has classified the remaining fund balances as *Restricted, Assigned*, and *Unassigned* and considers each to have been spent when expenditures are incurred. The District does not have a policy regarding the commitment or assignment of fund balances. As such, the District does not report any committed fund balance. However, certain actions taken by the District qualify as an assignment of fund balance in accordance with GASB Statement No. 54. Included in assigned fund balance is an amount for purchase order obligations outstanding that have not been already included as restricted fund balance.

• Restricted for State Required Carryover Programs, Food Services, Debt Service, and Capital Projects:

Federal laws, Florida Statutes and local ordinances require that certain revenues be specifically designated for the purposes of State required carryover programs, food service, debt service, and capital projects. These funds have been included in the *Restricted* category of fund balance. The restricted fund balances totaled $142,883,611 and represented $19,736,496 in State required carryover programs, $19,475,160 in food service, $9,511,078 in debt service and $94,160,877 in capital projects.

• **Assigned for State and Local Programs:**

The assigned fund balances total $1,685,017. In accordance with GASB Statement No. 54, the District reports outstanding encumbrances, of $1,685,017, that have not been previously reported as restricted or assigned. Encumbrances are supported by outstanding purchase orders issued through the established Board approved budget process.

• **Unassigned:**

The unassigned fund balance in the General Fund is $116,229,361.

NOTE 11: RETIREMENT PLANS – DEFINED BENEFIT PENSION PLANS

The District follows GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, for reporting the employers' proportionate share of the net pension liabilities for the FRS and HIS defined benefit pension plans.

General Information about the Florida Retirement System (FRS)

The Florida Retirement System (FRS) was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered Florida Retirement System (FRS). Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The District's pension expense totaled $20,408,092 for the fiscal year ended June 30, 2016.

Florida Retirement System (FRS) Defined Benefit Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. The general classes of membership are as follows:

- *Regular Class* – Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers Class* – Members who hold specified elective offices in local government.
- *Senior Management Service Class (SMSC)* – Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

Class, Initial Enrollment, and Retirement Age/Years of Service	% Value
Regular Class members initially enrolled before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Class members initially enrolled on or after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
Elected County Officers	3.00
Senior Management Service Class	2.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. FRS Pension Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The State of Florida establishes contribution rates for participating employers and employees. Contribution rates during the 2015-16 fiscal year were as follows:

Class	Employee Contribution (Percent of Gross Salary)	Employer Contribution (Percent of Gross Salary)
Florida Retirement System, Regular	3.00	7.26
Florida Retirement System, Elected County Officers	3.00	42.27
Florida Retirement System, Senior Management Service	3.00	21.43
Deferred Retirement Option Program (Applicable to member s from all of the above classes)	0.00	12.88
Florida Retirement System, Re-Employed Retiree, Regular	(A)	(A)

(A) Contribution rates are dependent upon retirement class in which reemployed.

Note: Employer rates include the post-employment health insurance subsidy of 1.66 percent. Also, employer rates, other than for DROP participants, include 0.04 percent for administrative costs of the Investment Plan.

The District's contributions including employee contributions to the defined-benefit pension plan totaled $32,766,397 for the fiscal years ended June 30, 2016. This excludes the HIS defined benefit pension plan contributions.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2016, the District reported a liability of $130,490,889 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015.

The District's proportionate share of the net pension liability was based on the District's 2014-15 fiscal year contributions relative to the total 2014-15 fiscal year contributions of all participating members. At June 30, 2015, the District's proportion was 1.010277504 percent, which was an increase of .008269022 from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized pension expense of $9,587,321. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 13,775,974	$ 3,094,847
Change of assumptions	8,661,118	-
Net difference between projected and actual earnings on pension plan investments	-	31,159,041
Changes in proportion and differences between District contributions and proportionate share of contributions	1,314,047	-
District contributions subsequent to the measurement date	23,040,537	-
Total	$ 46,791,676	$ 34,253,888

The deferred outflows of resources related to pensions, totaling $23,040,537, resulting from District contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30	Amount
2017	$ (3,892,347)
2018	(3,892,347)
2019	(3,892,347)
2020	(3,892,347)
2021	3,897,414
Thereafter	1,169,224

Actuarial Assumptions. The total pension liability in the July 1, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Investment rate of return	7.65 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the July 01, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation[1]	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.00%	3.20%	3.10%	1.70%
Fixed Income	18.00%	4.80%	4.70%	4.70%
Global Equity	53.00%	8.50%	7.20%	17.70%
Strategic Investments	12.00%	6.70%	6.10%	11.40%
Private Equity	6.00%	11.90%	8.20%	30.00%
Real estate (Property)	10.00%	6.80%	6.20%	12.00%
Total	100.00%			
Assumed inflation - Mean		2.60%		1.90%

[1] As outlined in the Plan's investment policy

Discount Rate. The discount rate used to measure the total pension liability was 7.65 percent. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.65 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.65percent) or 1-percentage-point higher (8.65 percent) than the current rate:

	1% Decrease 6.65%	Current Discount Rate 7.65%	1% Increase 8.65%
District's proportionate share of the net pension liability	$ 338,131,407	$ 130,490,889	$ (42,300,127)

Pension Plan Fiduciary Net Position. Detailed information about pension plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2016, the District reported a payable of $4,003,436 for the outstanding amount of contributions to the pension plan required for the fiscal year ended June 30, 2016.

Health Insurance Subsidy (HIS) Defined Benefit Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement system in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2016, eligible retirees and beneficiaries received a monthly HIS payment of $5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of $30 and a maximum HIS payment of $150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS plan benefit, a retiree under a state-administered retirement system must provide proof of health insurance coverage, which can include Medicare.

Contributions. The HIS Program is funded by required contributions from FRS participating employers as set by the Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2016, the contribution rate was 1.66 percent of payroll pursuant to section 112.363, Florida Statues. The District contributed 100 percent of its statutorily required contributions for the current and preceding three years. HIS contributions are deposited in a separate trust fund from which HIS payments are authorized. HIS benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS defined-benefit pension plan totaled $7,224,589 for the fiscal years ended June 30, 2016.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2016, the District reported a liability of $142,870,865 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015. The District's proportionate share of the net pension liability was based on the District's 2014-15 fiscal year contributions relative to the total 2014-15 fiscal year contributions of all participating members. At June 30, 2015, the District's proportion was 1.400910797 percent, which was an increase of .015327949 from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized pension expense of $10,820,771 related to the HIS Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ -
Change of assumptions	11,240,208	-
Net difference between projected and actual earnings on HIS pension plan investments	77,340	-
Changes in proportion and differences between District HIS contributions and proportionate share of contributions	1,189,637	77,839
District contributions subsequent to the measurement date	7,224,589	
Total	$ 19,731,774	$ 77,839

The deferred outflows of resources relating to pensions, totaling $7,224,589, resulting from District contributions to the HIS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30	Amount
2017	$ 2,011,594
2018	2,011,594
2019	2,011,594

Actuarial Assumptions. The total pension liability in the July 1, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Municipal bond rate	3.80 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.8 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate used to determine the total pension liability decreased from 4.29 percent from the prior measurement date.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.8 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.8 percent) or 1-percentage-point higher (4.8 percent) than the current rate:

	1% Decrease 2.80%	Current Discount Rate 3.80%	1% Increase 4.80%
District's proportionate share of the net pension liability	$ 162,794,700	$ 142,870,865	$ 126,257,377

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2016, the District reported a payable of $1,248,568 for the outstanding amount of contributions to the HIS Plan required for the fiscal year ended June 30, 2016.

NOTE 12: RETIREMENT PLANS – DEFINED CONTRIBUTION PENSION PLANS

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Service retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. . Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.04 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the investment member's accounts during the 2015-16 fiscal year were as follows:

Class	Employee Contribution (Percent of Gross Salary)
Florida Retirement System, Regular	6.30
Florida Retirement System, Elected County Officers	11.34
Florida Retirement System, Senior Management Service	7.67

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five year period, the employee will regain control over their account. If the employee does not return within the five year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2016, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled $2,880,599 for the fiscal year ended June 30, 2016.

Payables to the Investment Plan. At June 30, 2016, the District reported a payable of $509,384 for the outstanding amount of contributions to the Investment Plan required for the fiscal year ended June 30, 2016.

NOTE 13: EARLY RETIREMENT INCENTIVE PROGRAM

As authorized by Section 1012.685, Part VII, Florida Statutes, the Board implemented Early Retirement Plans (Plans) effective July 1, 1995, July 1, 1997, and July 1, 1999. The plans were offered to eligible employees on a one-time basis until May 15, 1995, May 15, 1997, and May 15, 1999, respectively. The purpose of the Plans was to provide eligible employees, who elect to retire under the retirement provisions of the Florida Retirement System (FRS), described in Note 11, with one of several incentive options which supplement the employee's (participant's) retirement benefits. A summary of the plan eligibility, benefits, and contribution obligations for the 1995 Plan follows. There is no remaining liability reported by the District for the 1997 and 1999 plans as of June 30, 2016.

Eligibility

Participants must be 57 years of age with a minimum of five years of service with the District or 62 years of age with at least ten years of FRS service and a minimum of five years of service with the District or any age with at least thirty years of FRS service and a minimum of five years of service with the District.

Benefits

Incentive option one includes a bonus equal to twenty–five percent of the employee's final annual salary, a health insurance contribution by the District for eight continuous years, and a life insurance benefit of $10,000.

Incentive option two includes lifetime monthly payments for five years to offset the FRS early retirement penalty of five percent per year when an employee retires prior to age 62 with less than thirty years FRS service and a life insurance benefit of $10,000.

Incentive option three includes monthly payments for five years to offset the FRS early retirement penalty of five percent per year when an employee retires prior to age 62 with less than thirty years FRS service, a health insurance contribution by the District for eight continuous years, and a life insurance benefit of $10,000.

The amount of the bonuses (if applicable) and accumulated leave pay are paid in five annual installments into an Internal Revenue Code 457F deferred compensation plan and directed into an investment fund selected by the participant. Alternatively, the participant may elect to receive twenty-five percent of the annual installments directly with the balance going into the deferred compensation plan.

Contributions

No contributions shall be required or permitted from any participant. The annual amounts contributed by the District are the actual amounts payable to participants or on their behalf for contributions to the 457F deferred compensation plan, retirement benefits, and premiums for health and life insurance coverage.

The District reported a liability in its Statement of Net Position of $1,279,000 to recognize the present value of its obligation to pay death benefits to, or on behalf of, those retired employees. The Board has purchased life insurance on the participants, with itself as the beneficiary, to recover costs of the 1995 Plan over time.

The District has retained an administrator to handle the receipt of contributions and the disbursements of benefits to Plan participants.

NOTE 14: OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The postemployment healthcare benefits plan is a single-employer defined benefit plan administered by the District. Pursuant to the provision of the Section 112.0801, Florida Statutes, former employees who retire from the District, and eligible dependents, may continue to participate in the District's health plan for medical and prescription coverage. The District subsidizes the premium rates paid by the retirees by allowing them to participate in the plan at the blended group (implicitly subsidized) premium rates for both active and retired

employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The postemployment healthcare plan does not issue a stand-alone report and is not included in the report of a Public Employee Retirement System or other entity.

Funding Policy

The District has not advance-funded or established a funding methodology for the annual Other Postemployment Benefit (OPEB) costs or the net OPEB obligation. For the 2015-16 fiscal year, 459 retirees received health care benefits. The District provided contributions of $3,775,065 toward the annual OPEB cost, comprised of benefit payments made on behalf of retirees net of retiree contributions totaling $3,259,779, which represents 0.81 percent of covered payroll.

Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed twenty years. The following table shows the District's annual OPEB cost for the year, the amount contributed to the plan, and changes in the District's net OPEB obligation:

Employer Fiscal Year Ending June 30, 2016	2016
Normal cost (service cost for one year)	$ 2,738,036
Amortization of Unfunded Actuarial Accrued Liability	3,966,462
Interest on Normal Cost and Amortization	-
Annual required Contribution	6,704,498
Interest on Net OPEB Obligation	962,039
Adjustment to ARC	(1,963,345)
Annual OPEB Cost (Expense)	5,703,192
Contribution toward the OPEB cost	(3,775,065)
Increase in Net OPEB Obligation	1,928,127
Net OPEB Obligation, Beginning of year	27,486,824
Net OPEB Obligation, End of year	$ 29,414,951

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2016, and the two preceding years, were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	OPEB Obligation
June 30, 2016	$ 5,703,192	66.2%	$ 29,414,951
June 30, 2015	$ 4,694,215	52.0%	$ 27,486,824
June 30, 2014	$ 4,517,036	38.8%	$ 25,232,837

Funded Status and Funding Progress

The funded status of the plan as of January 01, 2016, the most recent actuarial valuation date, was as follows:

Actuarial Accrued Liability (a)	$	54,583,462
Actuarial Value of Plan Assets (b)		-
Unfunded Actuarial Accrued Liability (c)=(a-b)	$	54,583,462
Funded Ration (b/a)		0.0%
Covered Payroll (Active Plan Members) (d)	$	403,736,889
UALL as a Percentage of Covered Payroll (c/d)		13.5%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of the occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare costs trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projection of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the type of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effect of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2016 OPEB actuarial valuation, the entry age actuarial cost method was used. This method was selected because it produced the lowest OPEB liability and annual cost. Because the OPEB liability is currently unfunded, the actuarial assumptions include a 3.5 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also includes an inflation rate of 2.5 percent per year, a payroll growth of 3.5 percent per year, and an annual healthcare cost trend rate of 7 percent for the 2015-16 fiscal year, reduced by .5 percent per year, to a rate of 5 percent in 2021 and increased to an ultimate level of 5.5 percent in 2028. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on a closed basis. The remaining amortization period at June 30, 2016, is 14 years.

NOTE 15: VESTED INTERESTS IN UTILITY COOPERATIVES

The District has purchased electricity since 1969 from the Lee County Electric Cooperative, Inc. The District's estimated vested interest in this Cooperative is $8,316,662 at December 31, 2015 which is recorded as a capital credit receivable on the statement of net position. Such interest, also referred to as capital credits, would be

payable to the District over a thirty-year period should the District terminate its business relationship with the Cooperative. During the fiscal year, the District recorded the earned capital credits as other local sources revenue in the government-wide statement and recorded general revenues on the governmental fund statements as the District received capital credits. The District would receive capital credits from Bonita Springs Water System, Inc. or Greater Pine Island Water Association, Inc. only in the unlikely event that they were to permanently cease operations. During the fiscal year, the District did not record any general revenue for capital credits earned from Bonita Springs Water System, Inc. or Greater Pine Island Water Association, Inc.

NOTE 16: RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Property, workers' compensation, automobile liability, and general liability coverage are self-insured up to specified limits. The District purchases policies with various insurance companies to provide coverage in excess of claims amounts above the stated self-insured retention deductible on any individual/aggregate claim. The District has contracted with a third-party administrator to administer the property/casualty program, including the processing, investigation, and payment of claims.

The District provides health coverage through a self-insurance program administered by an outside provider. The District reports the self-insurance programs in the Internal Service Funds. Amounts are transferred from various funds to the Internal Service Funds to provide sufficient resources to cover claims incurred, to pay for the purchase of excess insurance, and to pay the insurance services agent's administrative fees.

There have been no significant reductions in insurance coverage. Settled claims resulting from risks described above have not exceeded commercial insurance coverage for the past three fiscal years.

A liability in the amount of $15,096,990 was actuarially determined to cover outstanding claims and estimated incurred but not reported insurance claims payable for the Self-Insurance-Casualty, Liability and Workers' Compensation Fund, at June 30, 2016. A liability in the amount of $6,700,965 was actuarially determined to cover outstanding claims and estimated incurred but not reported insurance claims payable for the Self-Insurance-Health Insurance Fund, at June 30, 2016.

The following schedule represents the change in claims liability for the past two fiscal years for the District's self-insurance programs:

Casualty, Liability, Workers' Compensation Self Insurance Fund:

	Beginning of Fiscal Year Liability	Current-Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End
2014-2015	$ 13,557,770	$ 8,587,549	$ (7,987,012)	$ 14,158,307
2015-2016	14,158,307	8,165,315	(7,226,632)	15,096,990

Health Insurance Self Insurance Fund:

	Beginning of Fiscal Year Liability	Current-Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End
2014-2015	$ 9,648,885	$ 61,345,920	$ (66,644,170)	$ 4,350,635
2015-2016	4,350,635	71,168,404	(68,818,075)	6,700,964

NOTE 17: LITIGATION

The District is contingently liable with respect to lawsuits and other claims that arise in the ordinary course of its operation. Management believes that any liability arising from such claims would be immaterial to the financial statements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2016

1. SCHEDULE OF FUNDING PROGRESS – OTHER POSTEMPLOYMENT BENEFITS

Compared to the previous valuation, the Unfunded Actuarial Accrued Liability and the Annual OPEB Cost increased significantly. One factor that contributed to this change was the total cost of coverage for retirees increased from $565 per subscriber per month (as expected for the calendar year 2014) to $617 per subscriber per month for the year beginning January 1, 2016. This is slightly lower than the $625 per subscriber per month previously projected for this year. This change had an increasing effect on the cost and liability. Another factor that contributed to this change was the number of retirees currently covered under the health plan increased from 459 in the last valuation to 488 in the current valuation. This population changes had an increasing impact on the cost and liability resulting from this valuation. At the same time, the number of active employees increased from 10,060 to 10,389. This population change had an increasing impact on the cost and liability resulting from this valuation.
