MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the School District of Lee County's Comprehensive Annual Financial Report presents management's discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2019. Please read it in conjunction with the District's financial statements, which immediately follow this section.

Financial Highlights

- The District's assets plus deferred outflows of resources exceeded its liabilities plus deferred inflows of resources by \$763,308,878 at fiscal year ending June 30, 2019.
- Net position of the District increased by \$16,177,315 in comparison to the 2017-18 fiscal year, which includes an adjustment to beginning net position of \$96,205. The adjustment was a result of the District adopting the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 75.
- The District's Government-wide revenues totaled \$1,077,186,903 comprised of general revenues of \$988,956,066 or 91.8 percent of the total revenues. Program specific revenues from charges for services, operating grants and contributions, and capital grants and contributions, totaled \$88,230,837 or 8.2 percent of the total revenues.
- Expenses incurred by the District totaled \$1,035,066,691 for governmental related activities. Program specific revenues offset these expenses by \$88,230,837, and general revenues funded the difference.
- The District's governmental funds reported combined ending fund balances of \$301,293,723 or a decrease of \$23,181,176 or 8.3 percent in 2018-19 fiscal year in comparison with the 2017-18 fiscal year.
- The unassigned fund balance of the General Fund representing the net current financial resources available for general appropriation by the Board, totaled \$84,037,049, at June 30, 2019, or 10.7 percent of total General Fund expenditures.
- The General Fund total fund balance as of June 30, 2019, totaled \$120,480,299, a 4.9 percent decrease in comparison to the 2017-18 fiscal year total of \$126,733,900. The decrease in total fund balance of the General Fund is mainly attributed to the continued implementation of several classroom curriculum initiatives in the current year using prior year resources and the District continuing to strategically decrease its fund balance.

Overview of the Financial Statements

The Financial Section of this Comprehensive Annual Financial Report consists of three parts: Management's Discussion and Analysis, the Basic Financial Statements, and other supplementary section that presents combining statements for Nonmajor Governmental Funds, Internal Service Funds, and Component Units. The Basic Financial Statements include several statements that present different views of the District:

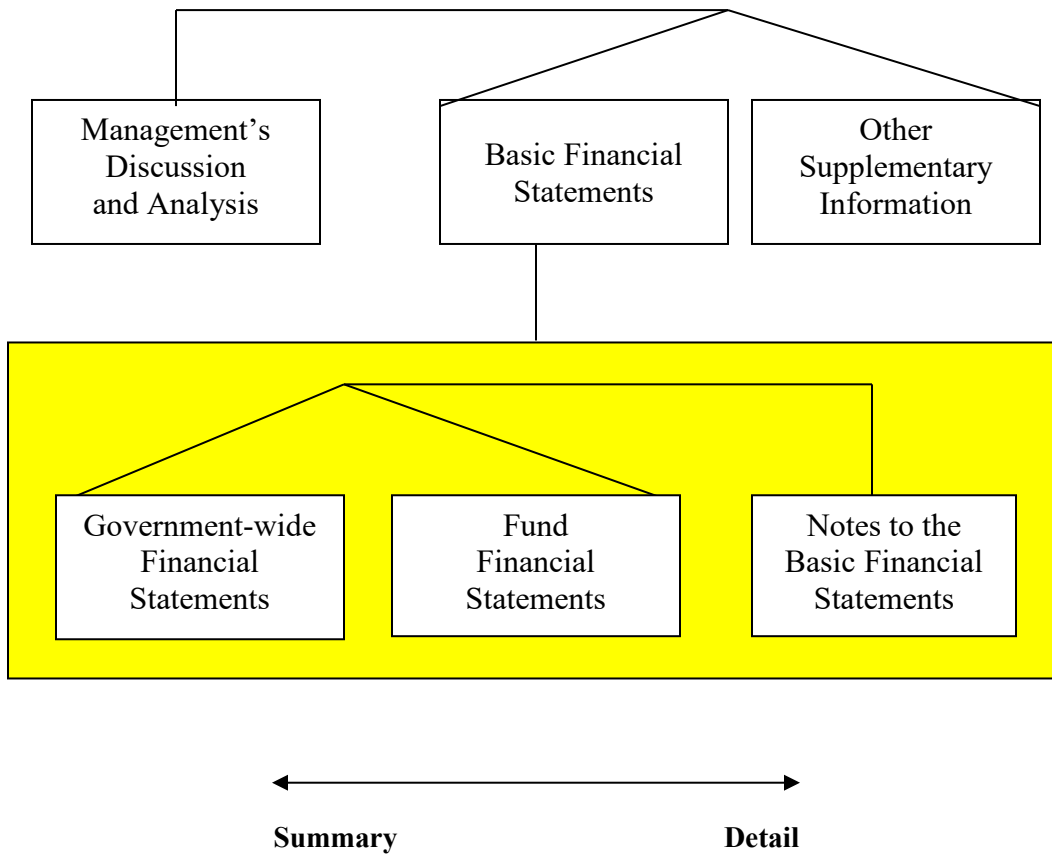

- The first two statements are *Government-wide Financial Statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *Fund Financial Statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the Government-wide statements.
- The *Governmental Funds Statements* tell how basic services, such as regular and special education, were financed in the *short-term* as well as what remains for future spending.
- The *General Fund's Statement of Revenues, Expenditures and Changes in Fund Balance - Budget to Actual* is presented for the primary operating fund of the District.
- The *Proprietary Funds Statements* offer *short-term* and *long-term* financial information about the activities the District operates as Internal Service Funds, for self-insurance.
- The *Fiduciary Funds Statement* provides information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others.

The Basic Financial Statements also include notes that explain information in the statements and provide more detailed data. The statements are followed by a section of other supplementary information that further explains and supports the Basic Financial Statements with combining and individual fund statements that provide details about the Nonmajor Governmental Funds. Combining statements for the District's discretely presented component units are also included. Also, the other supplemental section includes schedules of budget to actual for each governmental fund. Figure A-1 on the following page shows how the various parts of this report are arranged and related to one another.

All revenues and expenses during the year, regardless of when cash is received or paid.	All additions and deductions during the year, regardless of when cash is received or paid.

Government-wide Statements

The Government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid. The two Government-wide statements report the District's *net position* and *how they have changed*. Net position (the difference between the District's assets and deferred outflows less liabilities and deferred inflows) are one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, additional nonfinancial factors, such as changes in the District's property tax base and the condition of the school buildings and other facilities, must be considered.

In the Government-wide statements, the District's activities are divided into two categories:

Governmental Activities: Most of the District's basic services are included here, such as student instruction, transportation, maintenance and operations, and administration. Property taxes and State aid finance most of these activities. The Lee County School Board Leasing Corporation (Leasing Corporation) although legally separate, was formed December 17, 2003, to facilitate financing for the acquisition of facilities and equipment. Due to a substantive economic relationship between the District and the Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government. Separate financial statements for the Leasing Corporation are not published.

Component Units: The District includes 20 other entities in its report – The Foundation for Lee County Public Schools, Inc., Accelerated Educational Services, Inc., Athenian Academy Charter School, Bonita Springs Charter School, Cape Coral Charter School, City of Palms Charter High School, Inc., Coronado High School, DJB Technical Academy, Inc., Gateway Charter School, Gateway Intermediate Charter School, Gateway Charter High School, The Heights Charter School, Heritage Charter School, Island Park Charter High School, Inc., The Island School, Inc., Northern Palms Charter High School, North Nicholas High School, Oak Creek Charter School of Bonita Springs, Inc., Palm Acres Charter High School, Inc., and Six Mile Charter Academy. Although legally separate, these “component units” are important because the District is financially accountable.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or “major” funds – not the District as a whole. Funds are accounting devices used to track specific sources of funding and spending on particular programs.

- Some funds are required by State law and bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts), or to show that it is properly using certain revenues (such as Federal grants).

The District has three kinds of funds:

Governmental Funds

Most of the District's basic services, such as instruction and facilities services, are included in governmental funds. These funds generally focus on 1) how cash and other financial assets can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds statement provides a detailed, short-term view that assists the reader in determining whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, a reconciliation is provided for both the governmental fund balance sheet and the statement of revenues, expenditures, and changes in fund balance which explains the relationships and/or differences between the funds.

Proprietary Funds

Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the Government-wide statements. The District uses two *Internal Service Funds* (a type of proprietary fund) to report activities that provide self-insurance services for its other programs and activities.

Fiduciary Funds

The District is the trustee, or *fiduciary*, for assets that belong to others, such as the student activity funds. The District is responsible for ensuring that the assets reported in these funds are used only for the intended purposes. The District excludes these activities from the Government-wide statements because it cannot use these funds to finance its operations.

Financial Analysis of the District (Primary Government) as a Whole

Net Position. The District's *combined* net position was larger on June 30, 2019, than the previous fiscal year; increasing \$16.2 million to \$763.3 million (see Figure A-3) primarily due to the initial collection of local sales tax revenue. By far, the largest portion of the District's net position, \$851.4 million (111.5 percent) reflects its net investment in capital assets (e.g., land, construction in progress, buildings, improvements, equipment, motor vehicles, software and audio visual materials). The District uses these capital assets to house and educate the students of Lee County, Florida; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position, \$204.7 million (26.8 percent), represents resources that are subject to external restrictions on how they may be used. The unrestricted net position, a deficit amount of \$292.8 million ((38.4) percent), was the result of accruing \$451.4 million in net pension liability.

(*) Balances for June 30, 2018 have not been restated for adjustment to beginning net position in the fiscal year ended June 30, 2019 due to the implementation of GASB Statement No. 75.

The District’s improve financial position is the product of many factors, but the most significant factor is due to:

- Adoption of a local half penny sales tax

Changes in Net Position. The District’s total revenue increased 8.5 percent to \$1,077.2 million (see Figure A-4). Property taxes, local sales tax, grants and state sources, accounted for most of the District’s revenue, contributing about 90 cents of every dollar raised (see Figure A-5). The remainder came from capital grants and contributions, operating grants and contributions, fees charged for services, investment earnings and other sources.

The total cost of all programs and services increased 3.1 percent to \$1,061.0 million. Approximately 90 percent of the District’s expenses are related to student instruction, student services, facilities services, transportation, operation of plant and maintenance of schools (see Figure A-6). The District’s administrative activities, including school administration, accounted for 10 percent of total costs. The \$31.3 million increase in facilities costs was derived largely from Hurricane Irma repairs.

Total revenues surpassed expenses, increasing net position \$16.2 million and contributing to the District’s improved financial condition.

Governmental Activities

Revenues for the District’s governmental activities increased 8.5 percent, while expenses increased 3.1 percent. The increase in net position for governmental activities was \$16.2 million in 2019. The major impact to revenue was the adoption of a half penny local sales tax of \$36.5 million.

Figure A-7 presents the cost of the District’s activities. The table also shows each activity’s *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the taxpayers by each of these functions.

Total	\$ 1,029.1	\$ 1,061.0	3.1%	\$ (958.1)	\$ (972.8)	1.5%

The cost of all governmental activities this year was \$1,061.0 million.

Part of the cost was financed by the users of the District’s programs (\$14.8 million).

The Federal and State governments subsidized certain programs with grants and contributions (\$73.4 million).

However, most of the District’s costs (\$972.8 million) were financed by District and State taxpayers. This portion of governmental activities was financed with \$528.2 million from property taxes, \$36.5 million of local sales tax and \$412.5 million of unrestricted Florida Education Finance Program funds based on the statewide education aid formula, and other federal, state, and local sources.

Financial Analysis of the District's Funds

The focus of the governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. As the District completed the fiscal year, its governmental funds reported combined fund balances of \$301.3 million, which is above last fiscal year's ending fund balances of \$278.1 million. Unassigned fund balance of \$84.0 million represents 27.9 percent of the ending fund balances and is available to meet the District's short-term spending needs. The remainder of fund balance is non-spendable, restricted or assigned to indicate that it is not available for new spending, because it is: 1) to liquidate inventory and prepaid items of \$3.9 million; 2) restricted by Federal law, State statute and local ordinance of \$209.7 million; and 3) assigned for State and Local programs of \$3.7 million.

Seven of the ten Governmental Funds had more revenues and other financing sources than expenditures and other financing uses in 2019, thereby contributing to the increase in total fund balance. Most significantly, \$41.2 million of the Capital Projects Fund Certificates of Participation/Impact Fees/State Grants fund balance increased due to the adoption of a half penny local sales tax. Some funds reflect decreases (\$25.9 million) in fund balance. Most significantly, \$19.6 million of the Capital Projects Fund Local Capital Improvement Tax fund balance decreased because capital outlays connected with construction remodeling and renovation of various schools were expended in the current year using prior year resources.

The *General Fund* is the District's chief operating fund. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$84.0 million, while total fund balance reached \$120.5 million. During the current fiscal year, the fund balance of the General Fund decreased by \$6.3 million. A key factor in this decrease was the continued implementation of several classroom curriculum initiatives in the current year using prior year resources and the District continuing to strategically decrease its fund balance.

The *Special Revenue Fund Contract Services* is used to account for the resources generated by federal and state grant funds for use in key education areas such as instruction of students with disabilities, and services for low-income students. Because grant revenues are not recognized until expenditures are incurred, this fund generally does not accumulate a fund balance.

The *Debt Service Fund Certificates of Participation* is used to account for the resources accumulated and payments made for principal, interest, and related costs on the long-term Certificates of Participation. The restricted fund balance at the end of fiscal year 2019 was \$1.6 million, an increase of \$1.3 million from the prior fiscal year. The increase is related to fiscal year 2019 debt service payments the District made with fiscal year 2018 resources.

The *Debt Service Fund ARRA Economic Stimulus* is used to account for the resources accumulated and payments made for principal, interest, and related costs on the long-term Qualified School Construction Bond (QSCB). The restricted fund balance at the end of fiscal year 2019 was \$15.7 million, an increase of \$1.8 million from the prior fiscal year due to the accumulated principal payments required to be deposited into a sinking fund until fiscal year 2028 when the debt will be paid.

The *Capital Projects Fund Local Capital Improvement Tax* is used to account for the resources generated by the local capital improvement tax to be used for educational capital outlay needs. At June 30, 2019, the total fund balance was \$43.2 million, a decrease of \$19.6 million from the prior fiscal year due to capital outlays connected with construction remodeling and renovation of various schools were expended in the current year using prior year resources.

The *Capital Projects Fund Certificates of Participation/Impact Fees/State Grants* is used to account for the resources generated by various sources for educational capital outlay needs, including new construction and renovation and remodeling projects as specified in statute, ordinance, or contract. The total fund balance for this fund at the end of the current fiscal year was \$93.3 million, an increase of \$41.2 million from the prior fiscal year. The primary reason for this change was the adoption of a half penny local sales tax of \$36.5 million.

General Fund Budgetary Highlights

Over the course of the fiscal year, the District revised the annual budget several times. These budget amendments generally fall into two categories:

Amendments Related to Changes in Revenue Estimates.

Throughout the school year, the District received revised calculations in the FEFP (Florida Education Finance Program – the funding formula for Florida school districts), based on changes in student counts, State revenue estimates, and local tax roll estimates. With each calculation, the budget is amended to reflect the current revenue estimates provided in the FEFP. The District will also amend revenues in the General Fund for new State grants and changes in local revenue sources, such as interest and indirect cost revenue. The District budgets 96 percent of projected property tax revenues at the onset of each budget year, as required by law, and collections are generally higher. Revenue from property taxes was less than the final amended budget by \$0.4 million due to a large collection rate.

Amendments to Modify Appropriations.

Throughout the fiscal year, the District may increase appropriations for new grants and unanticipated expenditures, such as hurricane damage.

Each school and department is allowed to modify its existing budget to meet its operational needs throughout the school year. An example of this type of amendment would be to move appropriations from purchased supplies to textbooks in order to acquire new textbooks for the start of class.

Budgeted expenditures were increased \$9.9 million from the original budget to the final amended budget primarily due to the rise in instruction costs due to salary increases.

- Although the District's final budget for the General Fund anticipated that expenditures and other financing uses would exceed revenues and other financing sources by approximately \$126.5 million, the actual results for the fiscal year show that expenditures and financing uses exceeded revenues and other financing sources by \$25.7 million.
- The actual expenditures were \$100.8 million below budgeted levels. Actual expenditures for instruction were more than \$54.9 million below budgeted levels due to conservative spending at the schools.
- Actual expenditures for operation of plant were \$8.3 million below budgeted levels due to conservative spending.

Capital Assets and Debt Administration

Capital Assets

By the end of the 2018-19 fiscal year, the District had an investment of \$1,248.5 million, net of accumulated depreciation, in a broad range of assets, including land, construction in progress, improvements other than buildings, buildings, furniture, fixtures and equipment, motor vehicles, audio visual material and software (see Figure A-8). This amount represents a net decrease of \$22.5 million, or 1.8 percent, from the 2017-18 fiscal year. Additions to construction in progress, buildings, furniture, fixtures and equipment and motor vehicles, amounted to \$84.4 million for the fiscal year. Total depreciation expense for the year was \$46.2 million. (More detailed information about capital assets can be found in Note 5 to the Basic Financial Statements.)

Total	<u>\$ 1,271.0</u>	<u>\$ 1,248.5</u>	(1.8)%

The District's approved five-year Capital Outlay Plan includes the construction of one new high school, two new middle schools, two new elementary schools and the remodel of one high school, one middle school and one elementary school over the next five years. The District's student enrollment has grown over the last several years, 5.5 percent since 2015 for a present enrollment of 94,266 students.

The District's capital projects budget shows spending another \$298.4 million in the 2019-20 fiscal year for capital projects, principally in four areas:

- 1) \$14.6 million to purchase new school buses.
- 2) \$22.9 million to continue the upgrade of technology equipment.
- 3) \$97.7 million to continue the maintenance of existing schools.
- 4) \$90.4 million to renovation one high school and begin the construction of one new high school and two new middle school and one new elementary school and to complete the construction of one new high school.

Long-Term Debt

At fiscal year-end, the District had \$400.2 million in SBE bonds, Certificates of Participation and Notes outstanding, a decrease of 8.1 percent from last fiscal year, as shown in Figure A-9. (More detailed information about the District's long-term liabilities is presented in Note 7 to the Basic Financial Statements.)

Factors Bearing on the District's Future

At the time these financial statements were prepared, the District was aware of four existing circumstances that could significantly affect its financial health in the future:

- Due to the community's support and trust, the District was able to pass a half cent sales tax referendum in November, 2018. The sales tax is estimated to raise over \$700 million over ten years to fund capital expenditures such as new school buildings, enhanced safety infrastructure, technology, and maintenance of existing buildings. Active reporting on the use of these funds is critical to maintain the continued trust of the public. The District works with an independent committee that reports to the Board and the public on the use of those funds.
- The District continued the effort to obtain reimbursements from FEMA and insurance for Hurricane Irma related damages. Of the \$31 million in original damages, close to \$4 million has been recovered or approved for recovery. Two years removed from the event, the slow recovery process still has an effect on cash flows.
- One of the main areas of emphasis for the District's budget will continue to be enhancement of salary and benefits. As these categories comprise 70 percent of the budget, any increase represents a substantial investment. The District's goal is to focus on efficiency in order to repurpose funds to these important areas and increase recruitment and retention of the highest quality employees.
- The State's funding mechanism for school districts is our main source of funding in the general fund, comprising over 90 percent of new revenue. The District is highly dependent on the funding mechanism, and any fluctuation in that funding formula has substantial impacts on operations. We strive to plan responsibly by maintaining appropriate reserves that will assist us in mitigating changes to the formula that negatively impact our funding.

Contacting the District's Financial Management

This Comprehensive Annual Financial Report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Director of Financial Accounting, the School District of Lee County, 2855 Colonial Blvd., Fort Myers, Florida 33966-1012.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
For the Fiscal Year Ended June 30, 2019**

Total Fund Balances - Governmental Funds	301,293,723.00
Amounts reported for <i>governmental activities</i> in the statement of net position are different because:	
Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.	1,248,541,240.00
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.	208,884,174.00
Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	53,909,388.00
Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.	<u>(1,049,319,647.00)</u>
Total Net Position - Governmental Activities	763,308,878.00

**DISTRICT SCHOOL BOARD OF LEE COUNTY
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2019**

Net Change in Fund Balances - Governmental Funds	23,181,176.00
Amounts reported for <i>governmental activities</i> in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as a depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period.	(22,134,006.00)
The statement of activities reflects only the gain/loss on the sale of assets, whereas the governmental funds include all proceeds from these sales. Thus, the change in net position differs from the change in fund balances by the cost of assets sold.	(390,795.00)
Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	1,470,941.00
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which proceeds exceeded repayments in the current period.	35,600,186.00
Expenses in the statement of activities that do not require the use of current financial resources are not reported in the governmental funds.	(24,606,151.00)
Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities.	<u>3,055,964.00</u>
Change in Net Position of Governmental Activities	<u><u>16,177,315.00</u></u>

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

Reporting Entity

The District School Board of Lee County (Board) has direct responsibility for operation, control, and supervision of the School District of Lee County (District) and is considered a primary government for financial reporting. The District is part of the Florida system of public education under the general direction of the State Board of Education. The governing body of the District is the Board, which is composed of seven elected members. The appointed Superintendent of Schools (Superintendent) is the executive officer of the District. The general operating authority of the Board and the Superintendent is contained in Chapters 1000-1013, Florida Statutes. Geographic boundaries of the District correspond with those of Lee County, Florida.

Pursuant to Section 1010.51, Florida Statutes, the Superintendent is responsible for keeping records and accounts of all financial transactions in the manner prescribed by the State Board of Education.

For financial reporting purposes, the accompanying financial statements include all of the operations over which the District is financially accountable. The District is financially accountable for organizations that make up its legal entity, as well as legally separate organizations that meet certain criteria. In accordance with GASB 14, "The Financial Reporting Entity," as amended by GASB 39, "Determining Whether Certain Organizations Are Component Units" and GASB 61, "The Financial Reporting Entity: Omnibus an amendment of GASB Statements Nos. 14 and No. 34", the criteria for inclusion in the reporting entity involve those cases where the District or its officials appoint a voting majority of an organization's governing body and is either able to impose its will on the organization and there is a potential for the organization to provide specific financial benefits to or to impose specific financial burdens on the District or the nature and significance of the relationship between the District and the organization is such that exclusion would cause the District's financial statements to be incomplete. Based on the application of these criteria, District management has determined that the following five charter schools are not component units: Florida Southwestern Collegiate High School, Oasis Elementary School, Oasis Middle School, Christa McAuliffe Elementary School, and Oasis High School. Each of these charter schools are operated and reported as a component unit by a government entity other than the District.

Based on the application of the criteria, the following component units are included within the District's reporting entity:

Blended Component Unit – Leasing Corporation

The Lee County School Board Leasing Corporation (Leasing Corporation) was formed on December 17, 2003, to facilitate financing for the acquisition of facilities and equipment. Additionally, the Corporation is legally separate from the District and the governing board of the Leasing Corporation is the District School Board. Therefore, the financial activities of the Leasing Corporation have been blended (reported as if it were part of the District) with those of the District. Separate financial statements for the Leasing Corporation are not published.

Discretely Presented Component Unit – Foundation

The Foundation for Lee County Public Schools, Inc., (Foundation) was formed for the purpose of improving the quality of education by increasing community involvement with and support for Lee County schools. Although the District does not control the timing or amount of receipts from the Foundation, the majority of resources (or

incomes thereon) that the Foundation holds and invests are restricted to the activities of the District by the donors. Because these restricted resources held by the Foundation can only be used for the benefit of the District, the Foundation is considered a component unit of the District and is discretely presented in the District's financial statements. An annual audit of the Foundation's financial statements is conducted by an independent certified public accountant and is filed in the District's administrative office.

Discretely Presented Component Units – Charter Schools

At fiscal year-end there were nineteen charter schools operating within the District that met the criteria for presentation as a discretely presented component unit. All charter schools are separate, not-for-profit corporations organized and operated as charter schools under Section 1002.33, Florida Statutes, to enhance the education of the Lee County students attending these schools. Charter Schools do not have the constitutional authority to levy taxes, making charter schools fiscally dependent on the District. Pursuant to Florida Statutes section 1002.33(17) students enrolled in a charter school shall be funded the same as students enrolled in other public schools in the District. The charter schools' full-time equivalent (FTE) student enrollment is the basis for the District to provide funding to the charter schools. The financing of charter schools imposes a financial burden on the District. Because charter schools are fiscally dependent and create a financial burden on the District, charter schools are considered component units of the District. Audits were performed for each Charter School for the year ended, by independent certified public accountants and are on file at the District's administrative office.

During fiscal year 2019, Accelerated Educational Services, Inc. ceased operations on June 30, 2018. The District recovered all the assets of the charter school at the time of the closure.

The nineteen component unit charter schools in operation at fiscal year-end are listed below:

Accelerated Educational Services, Inc. - The school's charter was granted March 11, 2014, for a grade 6-8 school. As of June 30, 2019, the school ceased operations. The school was located in Fort Myers, Florida.

Six Mile Charter Academy – The school’s charter was granted August 10, 2004, for a grade K-8 school. As of June 30, 2019, the school was a grade K-8 school. The school is located in Fort Myers, Florida.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities* that rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the District is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function (i.e., food service fees, student fees, print fees, and transportation fees), and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function (e.g., Federal food service, transportation, and Public Education Capital Outlay [PECO] grants). Taxes and other items not properly included among program revenues are reported instead as *general revenue*.

The effects of interfund activities have been eliminated from the government-wide financial statements. Interfund transactions include transactions involving the internal service funds. These transactions were eliminated by allocating the change in net position of internal services funds in direct proportion as they were charged as expenses to the various functions/programs.

Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

- *General Fund* is the District's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.
- *Special Revenue – Contract Programs* accounts for certain Federal and State grant program resources.
- *Debt Service Fund – Certificates of Participation* accounts for the resources accumulated and payments made for principal, interest, and related costs on the long-term Certificates of Participation.
- *Debt Service Fund – ARRA Economic Stimulus* accounts for the accumulation of resources for the payment of debt principal, interest and related costs on the Qualified School Construction Bonds.
- *Capital Projects Fund – Local Capital Improvement Tax* accounts for the resources used for the acquisition or construction of major capital facilities financed through tax levies pursuant to Section 1011.71(2), Florida Statutes.
- *Capital Projects Fund – Certificates of Participation/Impact Fees/State Grants* accounts for the resources used for the acquisition or construction of major capital facilities financed through certificates of participation, impact fees, and state capital grant proceeds.

Additionally, the District reports the following fund types:

- *Internal Service Funds* account for the self-insurance programs.

- *Agency Funds* account for resources of the school internal funds that are used to administer money collected at schools in connection with student athletic, class, and club activities.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Measurement Focus, Basis of Accounting, and Financial Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary and fiduciary fund financial statements. The agency fund is custodial in nature (assets equal liabilities) and uses the accrual basis of accounting to recognize receivables and payables. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility or expenditure requirements imposed by the provider have been met.

Governmental fund financial statements, which include the General, Special Revenue, Debt Service, and Capital Projects funds, are prepared using the *current financial resource measurement focus* and the *modified accrual basis of accounting*. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (a) principal and interest on general long-term debt is recognized as expenditures when due; and (b) claims and judgments and compensated absences are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Revenues can be classified into two kinds of transactions: (a) exchange and exchange-like transactions, in which each party receives and gives up essentially equal value and (b) nonexchange transactions, in which a government gives (or receives) value without directly receiving (or giving) equal value in exchange.

Revenue resulting from exchange transactions is recorded on the accrual basis when the exchange takes place. Revenues resulting from nonexchange transactions are further classified into (a) derived tax revenues, (b) imposed nonexchange revenues, (c) government-mandated nonexchange transactions, and (d) voluntary nonexchange transactions. Derived tax revenues (i.e., sales tax) are recorded when the exchange transaction occurs. The District currently does not have any derived tax revenues. Imposed nonexchange transactions (i.e., property taxes) are recorded when use of the resource is required or first permitted by time requirement (for example, for property taxes, the period for which they are levied). Government-mandated and voluntary nonexchange transactions (i.e., Federal mandates, grants, and donations) are recorded when all eligibility requirements have been met.

When applying the susceptible to accrual concept under the modified accrual basis, resources also should be available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. The District considers property taxes to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums. Operating expenses for internal service funds include insurance claims and excess coverage premiums, and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Each of the charter schools, included as discretely presented component units, are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

The Foundation for Lee County Public Schools, Inc., shown as a discretely presented component unit, is accounted for using the accrual basis of accounting, whereby revenues are recognized when earned and expenditures are recognized when incurred.

Budgetary Basis Accounting

The following procedures, established by State Statutes and State Board of Education rules, are used by the Board in setting up final budget balances reported on the financial statements:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the function level (e.g., instruction, student personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the Annual Financial Report. This function level is the legal level of budgetary control.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.

Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at year-end and encumbrances outstanding are honored from the subsequent year's appropriations. During the fiscal year ended June 30, 2019, budgets for all governmental fund types were amended to reflect adjustments to appropriations due to changes in student counts, the addition of new education programs, and other events.

Cash

Banks qualified as public depositories under Florida law hold cash deposits. All deposits are insured by Federal depository insurance and/or collateralized with securities held in Florida's multiple financial institution collateral pool required by Sections 280.07 and 280.08, Florida Statutes. The Statement of Cash Flows considers cash as those accounts used as demand deposit accounts.

Restricted Cash with Fiscal Agent

Self-insurance funds are required to establish and maintain prescribed amounts of resources (consisting of cash) that can be used only to pay insurance claims.

Investments

Investments are stated at fair value, based on quoted market prices or recognized pricing sources. Investments consist of direct obligations of the United States Treasury, corporate notes, money market funds, municipal obligations, amounts placed with the State Board of Administration (SBA) debt service accounts for investment of debt service moneys, and amounts placed for participation in the Florida PRIME, Florida Cooperative Liquid Asset Security System (FLCLASS), Florida Public Assets for Liquidity Management (FLPALM) and Florida Fixed Income Trust (FL-FIT) investment pools created by Sections 218.405 and 218.417, Florida Statutes. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME and FEITF which are Securities and Exchange Commission Rule 2a7-like external investment pools, as of June 30, 2019, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

Fair Value Measurement

The district categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted process in active markets for identical assets; Level 2 inputs are significant other observable inputs, Level 3 inputs are significant unobservable inputs.

Inventory

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost using the average cost method for the central stores, maintenance, transportation, and food service inventories and at last invoice price, which approximates the first-in, first-out basis, for the print shop and media/textbook inventories. United States Department of Agriculture donated foods are recorded at the value established by the Bureau of Food Distribution, Florida Department of Agriculture and Consumer Services using the average cost method. The costs of inventories are recorded as expenditures when used (the consumption method) rather than purchased. The inventories at year-end are reported as non-spendable fund balance.

Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental funds that financed the acquisition or construction. The capital assets so acquired are reported at cost in the governmental activities column on the government-wide financial statements but are not reported in the governmental fund financial statement. The District defines capital assets as assets with an initial individual cost of \$1,000 or more. Purchased or constructed capital assets are reported at cost or estimated historical cost.

Donated assets are recorded at estimated acquisition value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Improvements Other than Buildings	10-40
Buildings and Fixed Equipment	10-50
Motor Vehicles	5-10
Furniture Fixtures and Equipment	3-15
Audio-Visual Materials	3-5
Computer Software	5

Current year information relative to changes in capital assets is described in a subsequent note.

Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liabilities, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS's and the HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

Noncurrent Liabilities and Compensated Absences

In the government-wide financial statements and proprietary fund types in the fund financial statements, noncurrent obligations are reported as liabilities in the applicable governmental activities, or proprietary fund type Statement of Net Position. Debt premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable and Certificates of Participation are reported net of the applicable premiums or discounts.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances and payments to refunded bond escrow agents are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as debt service expenditures.

The liability for compensated absences reported in the government-wide and proprietary fund statements consist of unpaid, accumulated vacation and sick leave, including applicable salary-related amounts for Social Security, Medicare, and retirement contributions. The liability has been calculated using the vesting method, in which leave

amounts for employees who currently are eligible to receive termination payment and other employees who are expected to become eligible in the future to receive such payments upon termination are included. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements.

Changes in noncurrent liabilities for the current year are reported in a subsequent note.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future periods and so will *not* be recognized as an outflow of resources (expense) until then. The District has three items that qualifies for reporting in this category. The first is the deferred amount on refunding. A deferred amount on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the deferred amount on pension. A deferred amount on pension results from the difference in the expected and actual amounts of experience, earnings and contributions. This amount is deferred and amortized over the service life of all employees that are provided with pensions through the pension plan except earnings which are amortized over 5 years. The third is the deferred amount on other postemployment benefit (OPEB). A deferred amount on OPEB results from the difference in the expected and actual amounts of experience, earnings and contributions. This amount is deferred and amortized over the service life of all employees that are provided with benefits through the OPEB plan except earnings which are amortized over 10 years.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future periods and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. The first is the deferred amount on refunding. A deferred amount on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the deferred amount on pension. A deferred amount on pension results from the difference in the expected and actual amounts of experience, earnings and contributions. This amount is deferred and amortized over the service life of all employees that are provided with pensions through the pension plan except earnings which are amortized over 5 years. The third is the deferred amount on other postemployment benefit (OPEB). A deferred amount on OPEB results from the difference in the expected and actual amounts of experience, earnings and contributions. This amount is deferred and amortized over the service life of all employees that are provided with benefits through the OPEB plan except earnings which are amortized over 10 years.

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the

government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted sources (the total of restricted, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's procedure to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, assigned fund balance is depleted first followed by unassigned fund balance.

Fund Balance/Net Position

In the fund financial statements, governmental funds report constraints on the use of fund balance for amounts that are not spendable, are legally restricted by outside parties for use for a specific purpose, or have self-imposed constraints for use for a specific purpose.

Net position in the government-wide financial statements is classified as net investment in capital assets, restricted and unrestricted. Restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors, law and regulations of other governments, or imposed by law through State statute.

Estimates

The preparation of the financial statement in conformity with generally accepted accounting principles requires the District to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Reclassifications

Certain amounts in the discretely presented component units financial statements have been reclassified in order to be consistent with the District's presentation.

State Revenue Sources

Revenues from State sources for current operations are primarily from the Florida Education Finance Program, administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE students and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE students and related data. Normally, such adjustments are treated as reductions or additions to revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that educational program revenues be accounted for in the General Fund. For selected programs, funds received that are not expended at the fiscal year-end are carried forward into the following year to be expended for the same educational programs. A portion of the fund balance of the General Fund is restricted for the balance of these educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Education Capital Outlay funds as advanced revenue until such time as an encumbrance authorization is received. The District also received a Charter School Capital Outlay appropriation.

A schedule of revenues from State sources for the current year is presented in a subsequent note.

Property Taxes – Revenue Recognition

The Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. The Lee County Property Appraiser determines property values and the Lee County Tax Collector's office collects the property taxes.

The Board adopted the 2018 tax levy on September 11, 2018. Taxes become an enforceable lien on property as of January 1. Tax bills are mailed in October, and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to four percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment and State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing certificates to satisfy unpaid taxes. These procedures result in the collection of substantially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements in the fiscal year for which the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when the taxes are received by the District, except that revenue is accrued for taxes collected by the Lee County Tax Collector at fiscal year end which have not yet been remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued.

Millages and taxes levied for the current year are presented in a subsequent note.

Educational Impact Fees

The District receives educational impact fees based on an ordinance adopted by the Board of County Commissioners of Lee County (County) on November 27, 2001. The fee is collected by the County for new residential construction, and can only be used to provide for the acquisition of capital assets or additions to capital assets and expenditures for site acquisition, construction design, site development, necessary off-site improvements, and equipment. Educational impact fee revenues are recognized in the government-wide and governmental fund financial statements when the fees are collected by the County.

Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to and approved by various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

Reporting Changes

The District implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which replaces GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended. This statement addresses accounting and financial reporting for postemployment benefits other than pensions (OPEB) provided to employees of state and local government employers; establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses; requires governments to report a liability, deferred outflows of resources, deferred inflows of resources, and expenses on the face of the financial statement for the OPEB they provide; and requires more extensive note disclosures and supplementary information about a government's OPEB liability. The beginning net position of the District was decreased by \$96,205 due to the Florida Retirement System (FRS) adoption of this statement. The District's total Pension Liability reported at June 30, 2018, increased by \$96,205 to \$431,611,753 as of July 1, 2018, due to the transition in the valuation methods under GASB Statement No. 45 to GASB Statement No. 75, and beginning balances for deferred outflows/inflows of resources were not restated.

NOTE 2: CASH AND INVESTMENTS

2-A. Cash Deposits

Florida Statutes authorize the deposit of District funds in demand deposits or time deposits of financial institutions approved by the State Treasurer and are defined as public deposits. All District public deposits are held in qualified public depositories pursuant to Chapter 280, Florida Statutes, the "Florida Security for Public Deposits Act." Under the act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits times the depository's collateral pledging level. The collateral pledging level may range from 50 percent to 125 percent depending upon the depository's financial condition and the length of time that the depository has been established. All collateral must be deposited with the State Treasurer. Any losses to public depositors resulting from insolvency are covered

by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessment against other qualified public depositories if the same type as the depository in default. All bank balances of the District are fully insured or collateralized. As of June 30, 2019, the carrying amount of the District's bank deposits was \$47,578,363 and the respective bank balances totaled \$53,215,557. As of June 30, 2019, the carrying amount of the Agency Fund's bank deposits was \$1,489,671.

2-B. Investments

The District's investment policy permits investments in the Florida PRIME, FL CLASS, FLPALM, FL-FIT, securities of the United States Government, U.S. Government Agencies, Federal instrumentalities, interest bearing time deposit or savings accounts, repurchase agreements, commercial paper, corporate notes, bankers' acceptances, state and/or local government debt, and money market mutual funds. The District's investment advisor used the effective duration method to calculate effective duration measures for the securities held by the District. Besides measuring the sensitivity of the securities market value to changes in interest rates, the effective duration method accounts for any call (early redemption) features which a security may have.

FL PALM and Florida PRIME are external investment pools that are not registered with the Securities Exchange Commission (SEC), but do operate in a manner consistent with the SEC's Rule 2a7 off the Investment Company Act of 1940. Rule 2a7 allows funds to use amortized cost to maintain a constant net asset value (NAV) of \$1.00 per share. Accordingly, the District's investments in both FLPALM and Florida PRIME are reported at the account balance which is amortized cost. There are no restrictions or fees to withdrawal from either of these pools.

All of the District's recurring fair value measurements as of June 30, 2019 are valued using a matrix pricing model (Level 2 inputs).

As of June 30, 2019, the District had the following investments:

Section 218.415, Florida Statutes, limits the types of investments that a District can invest in unless specifically authorized in District policy.

2-C. Investments – Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. To limit exposure to fair value losses resulting from increases in interest rates, the District's Investment Policy limits operating funds to maturities of one year or less. Investments of reserves, project funds, debt proceeds and other non-operating funds (core funds) shall have a term appropriate to the need for funds and in accordance with debt covenants, but in no event shall exceed five (5) years and the average duration of the funds as a whole may not exceed three (3) years.

The maturity of Florida PRIME, FLCLASS, FLPALM, and FL-FIT investment pools are based on the weighted average days to maturity (WAM). A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes. As of June 30, 2019, the WAM for Florida PRIME is 29 days, FLCLASS is 74 days, FLPALM is 52 days, FL-FIT Cash Pool is 113 days, and FL-FIT Enhanced Cash is 222 days.

2-D. Investments – Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the Florida PRIME Local Government Surplus Funds Trust Fund, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating from a nationally recognized rating agency; investments in interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. Investments authorized by District policy are:

- a. Florida Local Government Surplus Funds Trust Funds. As of June 30, 2019, the District had investments totaling \$139,071,782 in Florida PRIME which had an AAAM rating by Standard and Poor's and are reported at amortized cost; \$31,587,745 in FLCLASS which had an AAAM rating by Standard and Poor's and are reported at fair value; \$25,125,299 in FLPALM which had an AAAM rating by Standard and Poor's and are reported at amortized cost; and \$36,072,802 in FL-FIT which had an AAAM rating by Standard and Poor's and are reported at fair value.
- b. Direct Obligations of U.S. Treasury which are unconditionally guaranteed by the United States Government. The maximum length to maturity for direct obligations of US Treasuries shall be five (5) years from the date of purchase. As of June 30, 2019, the District held \$75,748,707 of US Treasuries of which had an S&P rating of AA+.
- c. Corporate notes purchased for investment must be issued by corporations organized and operating within the United States or by depository institutions licensed by the United States that have a long term rating, at the time of purchase, at a minimum single A category by any two nationally recognized rating agencies. The maximum length to maturity for corporate notes shall be five (5) years from the date of purchase. As of June 30, 2019, the District held \$16,782,423 of corporate notes of which had an S&P rating between A and AAA.
- d. Municipal Obligations purchased for investment is a general obligation or revenue obligation of any state of the United States, the District of Columbia, or any territorial possession of the United States or of any political subdivision, institution, department, agency, instrumentality, or authority of any such governmental entities, that have a long term rating, at the time of purchase, at a minimum single A category by any two nationally recognized rating agencies. The maximum length to maturity for municipal obligations shall be five (5) years from the date of purchase. As of June 30, 2019, the District held \$10,805,614 of municipal obligations of which had an S&P rating between AA and AAA.
- e. Commercial Paper purchased for investment must be rated, at the time of purchase, in the highest 308 tier (A-1, P-1 or F-1 or higher) by a minimum of two nationally recognized rating agencies. The maximum length to maturity for corporate notes shall be two hundred seventy (270) days from the date of purchase. As of June 30, 2019, the District held \$2,971,206 of commercial paper of which had an S&P rating between A1 and A1+.

- j. Passbook savings accounts and interest bearing time deposits with banks organized under the laws of the State of Florida or in banks doing business in the State of Florida.

2-E. Investments – Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District's investment policy requires that all securities, with the exception of certificates of deposit, be held with a third party custodian; and all securities purchased by, and all collateral obtained by the District should be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution. A third party custodian is defined as any bank depository chartered by the Federal Government, the State of Florida, or any other state or territory of the United States which has a branch or principal place of business in the State of Florida as defined in § 658.12, F.S., or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in the State of Florida. Certificates of deposit will be placed in the provider's safekeeping department for the term of the deposit. Security transactions between a broker/dealer and the custodian involving the purchase or sale of securities by transfer of money or securities are made on a "delivery vs. payment" basis, if applicable, to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction. As of June 30, 2019, the District's investment portfolio was held with a third-party custodian.

Funds held by US Bank First American Government Obligation Class Y Money Market Fund are held pursuant to a trust agreement in connection with the issuance of various Certificates of Participation.

2-F. Investments – Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's Investment Policy specifies the maximum percentage allocation to any single investment type as well as the maximum percentage holding per issuer. Up to 100 percent of the portfolio may be invested in U.S. Government securities, 75 percent may be invested in Federal Instrumentalities (US government sponsored agencies) with no more than 25 percent with a single issuer and 50 percent may be invested in US government agencies with no more than 10 percent with a single issuer. Corporate Notes are limited to 20 percent of the portfolio with no more than 5 percent with a single issuer. Commercial Paper is limited to 25 percent of the portfolio with no more than 5 percent with a single issuer.

The majority of the transfers out of the Capital Projects funds were to provide debt service principal and interest payments and to assist in funding maintenance operations of the District. The remaining transfers between funds were operational in nature.

NOTE 7: SHORT-TERM DEBT

Tax Anticipation Notes

On October 11, 2018 the District issued Tax Anticipation Notes (“TANS”), Series 2018 for \$25,000,000. Note proceeds were used to pay fiscal year 2019 District operating expenditures prior to the receipt of ad-valorem taxes. The notes were repaid in June 2019.

Short-term debt activity for the year ended June 30, 2019 was as follows:

	Beginning Balance July 1, 2018	Issued	Redeemed	Ending Balance June 30, 2019
Tax anticipation notes	\$ -	\$ 25,000,000	\$ (25,000,000)	\$ -
Total short-term debt	\$ -	\$ 25,000,000	\$ (25,000,000)	\$ -

NOTE 8: NONCURRENT LIABILITIES

8-A. Certificates of Participation Payable

The District entered into several financing arrangements, characterized as lease-purchase agreements, with the Florida School Boards Association, Inc. and the Lee County School Board Leasing Corporation (lessors) whereby the District secured financing of various educational facilities. The financing was accomplished through the issuance and refunding of several series of Certificates of Participation. Issues with remaining outstanding balances include 2010 (original issue: \$23,298,000); 2011A-QSCB (original issue: \$27,009,000); Series 2012B (original issue: \$149,015,000); Series 2012C (original issue: \$16,240,000); Series 2013A (original issue: \$25,287,000); Series 2014A (original issue: \$72,340,000); Series 2014B (original issue: \$60,220,000); Series 2016A (original issue: \$61,080,000); Series 2017A (original issue: \$60,177,000) and Series 2017B (original issue: \$46,155,000) be repaid from the proceeds of rents paid by the District.

The American Recovery and Reinvestment Act (ARRA) of 2009, signed into law on February 17, 2009, created two new categories of direct subsidy debt for school districts. The Qualified School Construction Bonds (QSCBs) and the Build America Bonds (BABs). Neither the QSCBs or the BABs represent incremental Federal Funding, both must be repaid by the District. In June 2011, the Corporation issued Certificate Series 2011A-QSCB in the amount of \$27,009,000. The Series 2011A-QSCB was issued to finance the cost of construction, installation and equipping educational facilities. The Series 2011A-QSCB Certificates are structured as taxable bonds and the District will receive a direct rebate/subsidy payment from the U.S. Treasury to offset a portion of the interest expense. The interest rate bondholders will receive is 5.48 percent and the federal subsidy is 5.02 percent, therefore the net interest cost to the District is 0.46 percent. Interest earnings on the proceeds will further offset this expense.

As a condition of the financing arrangement, the District has given a ground lease on District property to the lessors with a rental fee of \$1 per year. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through to term, the District may be required to surrender the sites included under the ground lease agreements for the benefit of the securers of the certificates for a period of time specified by the arrangement which may be up to 2036.

The District properties included in the ground leases under these arrangements include:

* Payments on the bonds and notes payable are made by the debt service fund. Payments on the estimated insurance claims payable are made by the Internal Service Fund. The early retirement payable, net pension liability and compensated absences liabilities are generally liquidated with the resources of the General and Special Revenue funds. Other postemployment benefits payable represents an implicit subsidy under GASB Statement No. 75 and will be included in future health insurance premiums charged to the General and Special Revenue funds.

Internal service funds predominantly serve the governmental funds. Accordingly, noncurrent liabilities are included as part of the above totals for governmental activities. At fiscal year-end, a \$33,670 liability for compensated absences in the Internal Service Fund is included in the above amounts.

NOTE 9: DEFEASED DEBT

In prior years, the District defeased a portion of the Certificates of Participation, Series 2012B by creating a separate irrevocable trust fund. New debt was issued and the proceeds were used to purchase U.S. Government securities that were placed in the trust fund. The investments and fixed earnings from the investments are sufficient to service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and, therefore, removed as a liability from the District's long-term debt. As of June 30, 2019, the amount of defeased debt outstanding is \$29,030,000.

NOTE 10: FUND BALANCE REPORTING

The District has adopted GASB Statement No. 54 as part of its fiscal year reporting. The intention of the GASB is to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The District has inventories and prepaid items that are considered nonspendable. The District does not have any nonspendable funds related to endowments.

In addition to the nonspendable fund balance, GASB Statement No. 54 has provided a hierarchy of fund balances, based on a hierarchy of spending constraints.

- **Restricted:** Fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- **Committed:** Fund balances that contain self imposed constraints of the government from its highest level of decision making authority.
- **Assigned:** Fund balances that contain self imposed constraints of the government to be used for a particular purpose.
- **Unassigned:** Fund balance of the General Fund that is not constrained for any particular purpose.

The District has classified its fund balances with the following hierarchy:

Nonspendable: The District has inventories totaling \$3,890,433 that are classified as nonspendable.

The District has classified the remaining fund balances as *Restricted*, *Assigned*, and *Unassigned* and considers each to have been spent when expenditures are incurred. The District does not have a policy regarding the commitment or assignment of fund balances. As such, the District does not report any committed fund balance. However, certain actions taken by the District qualify as an assignment of fund balance in accordance with GASB Statement No. 54. Included in assigned fund balance is an amount for purchase order obligations outstanding that have not been already included as restricted fund balance.

• **Restricted for State Required Carryover Programs, Food Services, Debt Service, and Capital Projects:**

Federal laws, Florida Statutes, and local ordinances require that certain revenues be specifically designated for the purposes of State required carryover programs, food service, debt service, and capital projects. These funds have been included in the *Restricted* category of fund balance. The restricted fund balances totaled \$209,633,839 and represented \$17,678,309 in State required carryover programs, \$12,011,114 in other externally restricted grants and donations, \$19,403,955 in food service, \$17,394,156 in debt service and \$143,146,305 in capital projects.

• **Assigned for State and Local Programs:**

The assigned fund balances total \$3,732,402. In accordance with GASB Statement No. 54, the District reports outstanding encumbrances, of \$3,732,402, that have not been previously reported as restricted or assigned. Encumbrances are supported by outstanding purchase orders issued through the established Board approved budget process.

• **Unassigned:**

The unassigned fund balance in the General Fund is \$84,037,049.

NOTE 13: RETIREMENT PLANS – DEFINED BENEFIT PENSION PLANS

The District follows GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, for reporting the employers’ proportionate share of the net pension liabilities for the FRS and HIS defined benefit pension plans.

General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple- employer defined benefit pension plan to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost- sharing, multiple-employer retirement plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services’ Web site (www.dms.myflorida.com).

The District’s FRS and HIS pension expense totaled \$63,324,803 for the fiscal year ended June 30, 2019.

FRS Defined Benefit Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- *Regular* – Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers* – Members who hold specified elective offices in local government.
- *Senior Management Service*– Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years’ earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years’ earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors’ benefits. The following chart shows the percentage value for each year of service credit earned:

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>% Value</u>
<i>Regular Class members initially enrolled before July 1, 2011</i>	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
<i>Regular Class members initially enrolled on or after July 1, 2011</i>	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
<i>Elected County Officers</i>	3.00
<i>Senior Management Service Class</i>	2.00

DISTRICT SCHOOL BOARD OF LEE COUNTY
 NOTES TO THE BASIC FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Exhibit D-1

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2018-19 fiscal year were as follows:

Class	Employee Contribution (Percent of Gross Salary)	Employer Contribution (Percent of Gross Salary)
FRS, Regular	3.00	8.26
FRS, Elected County Officers	3.00	48.70
FRS, Senior Management Service	3.00	24.06
Deferred Retirement Option Program (Applicable to member from all of the above classes)	0.00	14.03
FRS, Re-employed Retiree	(A)	(A)

(A) Contribution rates are dependent upon retirement class in which reemployed.

Note: Employer rates include the post-employment health insurance subsidy of 1.66 percent. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

The District's contributions to the Plan totaled \$29,449,121 for the fiscal year ended June 30, 2019. This excludes the HIS defined benefit pension plan contributions.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a net pension liability of \$296,473,184 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017- 18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportion was 0.984289781 percent, which was an increase of 0.00036719561 from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized the Plan pension expense of \$50,752,176. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

DISTRICT SCHOOL BOARD OF LEE COUNTY

Total	\$ 157,797,211	\$ 28,717,302

The deferred outflows of resources related to pensions, resulting from District contributions subsequent to the measurement date, totaling \$29,449,121, will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>
2019	\$ 37,942,544
2020	25,827,421
2021	3,329,688

2023	12,607,228
Thereafter	2,125,858
Total	\$ 99,630,788

Actuarial Assumptions. The total pension liability in the July 1, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2018, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013. As a result of the 2013 actuarial experience study, the inflation rate assumption was unchanged at 2.60 percent, and the overall payroll growth rate assumption was unchanged at 3.25 percent. The long-term expected rate of return decreased from 7.10 percent to 7.00 percent.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based

on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation¹</u>	<u>Annual Arithmetic Return</u>	<u>Compound Annual (Geometric) Return</u>	<u>Standard Deviation</u>
Cash	1%	2.9%	2.9%	1.8%

¹ As outlined in the Plan's investment policy

Discount Rate. The discount rate used to measure the total pension liability was 7.00 percent, a decrease from the prior year of 7.10 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from participating members will be made at statutorily required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	<u>1% Decrease 6.00%</u>	<u>Current Discount Rate 7.00%</u>	<u>1% Increase 8.00%</u>
District's proportionate share of the net pension liability	<u>\$ 541,075,997</u>	<u>\$ 296,473,184</u>	<u>\$ 93,316,089</u>

Pension Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2019, the District reported a payable of \$4,965,275 for the outstanding amount of contributions to the pension plan required for the fiscal year ended June 30, 2019.

HIS Defined Benefit Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement system in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2019, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$7,932,785 for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a net pension liability of \$154,899,700 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportion was 1.463511500 percent, which was an increase of 0.0049144592 from its proportion measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized the HIS Plan pension expense of \$12,572,627. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The deferred outflows of resources relating to pensions, resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$7,932,785, will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>
2019	\$ 3,178,002
2020	3,170,119
2021	2,546,350
2022	1,242,502
2023	(1,293,319)
Thereafter	(107,667)
Total	\$ 8,735,987

Actuarial Assumptions. The total pension liability in the July 1, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Municipal bond rate	3.87 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.87 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the

single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate used to determine the total pension liability increased from 3.58 percent from the prior measurement date.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.87 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.87 percent) or 1-percentage-point higher (4.87 percent) than the current rate:

	1% Decrease 2.87%	Current Discount Rate 3.87%	1% Increase 4.87%
District's proportionate share of the net pension liability	<u>\$ 176,421,682</u>	<u>\$ 154,899,700</u>	<u>\$ 136,959,881</u>

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2019, the District reported a payable of \$1,329,697 for the outstanding amount of contributions to the HIS Plan required for the fiscal year ended June 30, 2019.

NOTE 14: RETIREMENT PLANS – DEFINED CONTRIBUTION PENSION PLANS

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the investment member's accounts during the 2018-19 fiscal year were as follows:

Class	Employer Contribution (Percent of Gross Salary)
FRS, Regular	6.30
FRS, Elected County Officers	11.34
FRS, Senior Management Service	7.67

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five year period, the employee will regain control over their account. If the employee does not return within the five year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2019, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$3,252,156 for the fiscal year ended June 30, 2019.

Payables to the Investment Plan. At June 30, 2019, the District reported a payable of \$591,024 for the outstanding amount of contributions to the Investment Plan required for the fiscal year ended June 30, 2019.

NOTE 15: EARLY RETIREMENT INCENTIVE PROGRAM

As authorized by Section 1012.685, Part VII, Florida Statutes, the Board implemented Early Retirement Plans (Plans) effective July 1, 1995, July 1, 1997, and July 1, 1999. The plans were offered to eligible employees on a one-time basis until May 15, 1995, May 15, 1997, and May 15, 1999, respectively. The purpose of the Plans was to provide eligible employees, who elect to retire under the retirement provisions of the FRS described in Note 12, with one of several incentive options which supplement the employee's (participant's) retirement benefits. A summary of the plan eligibility, benefits, and contribution obligations for the 1995 Plan follows. There is no remaining liability reported by the District for the 1997 and 1999 plans as of June 30, 2019.

Eligibility

Participants must be 57 years of age with a minimum of five years of service with the District or 62 years of age with at least ten years of FRS service and a minimum of five years of service with the District or any age with at least thirty years of FRS service and a minimum of five years of service with the District.

Benefits

Incentive option one includes a bonus equal to twenty–five percent of the employee’s final annual salary, a health insurance contribution by the District for eight continuous years, and a life insurance benefit of \$10,000.

Incentive option two includes lifetime monthly payments for five years to offset the FRS early retirement penalty of five percent per year when an employee retires prior to age 62 with less than thirty years FRS service and a life insurance benefit of \$10,000.

Incentive option three includes monthly payments for five years to offset the FRS early retirement penalty of five percent per year when an employee retires prior to age 62 with less than thirty years FRS service, a health insurance contribution by the District for eight continuous years, and a life insurance benefit of \$10,000.

The amount of the bonuses (if applicable) and accumulated leave pay are paid in five annual installments into an Internal Revenue Code 457F deferred compensation plan and directed into an investment fund selected by the participant. Alternatively, the participant may elect to receive twenty-five percent of the annual installments directly with the balance going into the deferred compensation plan.

Contributions

No contributions shall be required or permitted from any participant. The annual amounts contributed by the District are the actual amounts payable to participants or on their behalf for contributions to the 457F deferred compensation plan, retirement benefits, and premiums for health and life insurance coverage.

The District reported a liability in its Statement of Net Position of \$1,197,000 to recognize the present value of its obligation to pay death benefits to, or on behalf of, those retired employees. The Board has purchased life insurance on the participants, with itself as the beneficiary, to recover costs of the 1995 Plan over time.

The District has retained an administrator to handle the receipt of contributions and the disbursements of benefits to Plan participants.

NOTE 16: OTHER POSTEMPLOYMENT BENEFITS

Other Postemployment Benefits Payable. The District follows GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, for certain other postemployment benefits administered by the District and life insurance benefits through purchased commercial insurance.

General Information about the OPEB Plan

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former

employees who retire from the District are eligible to participate in the District’s health plan for medical and prescription. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. The District does not offer any explicit subsidies for retiree coverage. Retirees are required to enroll in the Federal Medicare (Medicare) program for their primary coverage as soon as they are eligible. The OPEB Plan contribution requirements and benefit terms of the District and the OPEB Plan members are established and may be amended by action from the Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided. The OPEB Plan provides healthcare benefits for retirees and their dependents. The OPEB Plan only provides an implicit subsidy as described above.

Employees Covered by Benefit Terms. At June 30, 2018, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	1,831
Inactive Employees Entitled to But Not Yet Receiving Benefits	-
Active Employees	<u>11,100</u>
Total	<u><u>12,931</u></u>

Total OPEB Liability

The District’s total OPEB liability of \$51,497,584 was measured as of June 30, 2018 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the June 30, 2018, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5 percent
Salary increases	3.7-7.8 percent, average, including inflation
Discount rate	3.62 percent
Healthcare cost trend rates	6.75 percent for 2019, decreasing .25 percent per year to an ultimate rate of 4.24 percent for 2040 and later years
Retirees’ share of benefit-related costs	100 percent of projected health insurance premiums for retirees

The discount rate was based on the Fidelity 20 year Municipal General Obligation Bond Index.

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

The demographic actuarial assumptions for retirement, disability incidence, and withdrawal used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the period January 1, 2010, through December 31, 2014, adopted by the FRS.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2018, valuation were based on a review of recent plan experience done concurrently with the June 30, 2018, valuation.

NOTE 17: VESTED INTERESTS IN UTILITY COOPERATIVES

The District has purchased electricity since 1969 from the Lee County Electric Cooperative, Inc. The District's estimated vested interest in this Cooperative is \$10,079,731 at December 31, 2018, which is recorded as a capital credit receivable on the statement of net position. Such interest, also referred to as capital credits, would be payable to the District over a thirty-year period should the District terminate its business relationship with the Cooperative. During the fiscal year, the District recorded the earned capital credits as other local sources revenue

in the government-wide statement and recorded general revenues on the governmental fund statements as the District received capital credits. The District would receive capital credits from Bonita Springs Water System, Inc. or Greater Pine Island Water Association, Inc. only in the unlikely event that they were to permanently cease operations. During the fiscal year, the District did not record any general revenue for capital credits earned from Bonita Springs Water System, Inc. or Greater Pine Island Water Association, Inc.

NOTE 18: RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Property, workers’ compensation, automobile liability, and general liability coverage are self-insured up to specified limits. The District purchases policies with various insurance companies to provide coverage in excess of claims amounts above the stated self-insured retention deductible on any individual/aggregate claim. The District has contracted with a third-party administrator to administer the property/casualty program, including the processing, investigation, and payment of claims.

The District provides health coverage through a self-insurance program administered by an outside provider. The District reports the self-insurance programs in the Internal Service Funds. Amounts are transferred from various funds to the Internal Service Funds to provide sufficient resources to cover claims incurred, to pay for the purchase of excess insurance, and to pay the insurance services agent’s administrative fees.

There have been no significant reductions in insurance coverage. Settled claims resulting from risks described above have not exceeded commercial insurance coverage for the past three fiscal years.

A liability in the amount of \$17,208,982 was actuarially determined to cover outstanding claims and estimated incurred but not reported insurance claims payable for the Self-Insurance-Casualty, Liability and Workers’ Compensation Fund, at June 30, 2019. A liability in the amount of \$8,132,998 was actuarially determined to cover outstanding claims and estimated incurred but not reported insurance claims payable for the Self-Insurance-Health Insurance Fund, at June 30, 2019.

The following schedule represents the change in claims liability for the past two fiscal years for the District’s self-insurance programs:

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
For the Fiscal Year Ended June 30, 2019

NOTE 1: SCHEDULE OF CHANGES IN THE DISTRICT'S TOTAL OTHER POSTEMPLOYMENT BENEFITS LIABILITY AND RELATED RATIOS

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 to pay related benefits. The June 30, 2019, total OPEB liability increased from the prior fiscal year as a result of changes to benefits and assumptions as discussed below:

Changes of Benefit Terms. There were no benefit changes during the year.

Changes of Assumptions. The discount rate was changes from 3.56 percent as of the beginning of the measurement period to 3.62 percent as of June 30, 2018 (based on the Long-term Municipal Bond rate). This change increased the Total OPEB Liability.

NOTE 2: SCHEDULE OF NET PENSION LIABILITY AND SCHEDULE OF CONTRIBUTIONS – FLORIDA RETIREMENT SYSTEM PENSION PLAN

Changes of Assumptions. The long-term expected rate of return was decreased from 7.1 percent to 7.0 percent, and the active member mortality assumption was updated.

NOTE 3: SCHEDULE OF NET PENSION LIABILITY AND SCHEDULE OF CONTRIBUTIONS – HEALTH INSURANCE SUBSIDY PENSION PLAN

Changes of Assumptions. The municipal bond rate used to determine total pension liability increased from 3.58 percent to 3.87 percent.
